The statements in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and Illinois State University. The course offerings and requirements of the University are continually under review and revision. This catalog presents those in effect at the time of publication. Courses listed in this publication are subject to revision without advance notice and are not necessarily offered each term or each year.

Information regarding changes will be available in the Offices of the University Registrar, the Provost, the colleges, major departments, and schools. It is especially important that each student note that it is his or her responsibility to be aware of current graduation requirements for a particular degree program.

## **NOTIFICATION OF RIGHTS UNDER FERPA AND PUBLIC NOTIFICATION OF DIRECTORY INFORMATION**

### **Notification of Rights Under FERPA for Postsecondary Institutions:**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

(1) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

A student should submit to the University Registrar a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The University discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance com-

mittee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.

Upon request, the University also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202-5901

### **Public Notification of Directory Information:**

At its discretion, Illinois State University may provide "directory information" in accordance with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Directory information is defined as that information which would not generally be considered harmful or an invasion of privacy if disclosed. Designated directory information at Illinois State University includes the following: student's name, address (local and home), telephone listing (local and home), electronic email address, date and place of birth, major field of study, dates of attendance, grade level, enrollment status (e.g. undergraduate or graduate, full-time or part-time), participation in officially recognized activities or sports, weight or height of members of athletic teams, degrees, honors and awards received, and the most recent educational agency or institution attended. Students may block the public disclosure of directory information by notifying the Office of the University Registrar in writing prior to the first day of classes.

Please consider very carefully the consequences of a decision to withhold directory information. A non-disclosure block will call for Illinois State University not to release any of this "directory information;" thus, any future requests for such information from non-institutional persons or organizations will be refused.

Illinois State University will honor your request to withhold directory information but cannot assume responsibility to contact you for subsequent permission to release this information. Regardless of the effect upon you, Illinois State University assumes no liability as a result of honoring your instructions that such information be withheld.

Although the initial request may be filed at any time, requests for non-disclosure will be honored by the University until removed, in writing, by the student.

## OFFICE OF EQUAL OPPORTUNITY, ETHICS AND ACCESS

Illinois State University fosters a campus environment that recognizes individual and cultural differences and is strongly committed to the ethical and legal principle that each faculty member of the University community enjoys academic freedom and all members of the University have a constitutional right to free speech. The right of free expression and the open exchange of ideas and views are essential, especially in a learning environment. Illinois State University vigorously upholds these freedoms. However, the value of free expression may be undermined by certain acts of harassment or discrimination. Such harassment or discrimination may result in the loss of self-esteem for the victim and the deterioration of a quality classroom, social, or work environment. Therefore any act of harassment or discrimination will not be tolerated.

Harassment or discrimination based upon race, ethnicity, national origin, color, religion, gender, gender identity and expression, age, disability, sexual orientation, or veteran status is in violation of the law and this policy and will not be tolerated.

Retaliation against any person alleging harassment, discrimination, or exercising their legal right to have their allegation investigated (either internally or externally) is prohibited both by law and this policy.

As members of the Illinois State University community, students, faculty, administrators and staff have the responsibility to respect and not violate the rights of others and to show tolerance for opinions that differ from their own. However, nothing in this policy prohibits appropriate admonition, argument and correction by an instructor in the conduct of his/her professional responsibility in the interest of maintaining order, upholding standards, stimulating thought or promoting competence. Such action is, by definition, not a violation of this policy. Likewise, nothing in this policy precludes management's inherent authority to plan, direct and evaluate the activities of other organizational members in accordance with sound management principles and directives, including communicating, training and disciplining employees.

All students, faculty and staff are expected to adhere to this policy and will be held accountable for violating it. Illinois State University will respond promptly to all complaints of harassment, discrimination, and retaliation. Violation of this policy can result in serious disciplinary action up to and including expulsion for students or discharge for employees.

### Definitions:

**Discrimination:** an action or behavior that results in negative or different treatment of an individual based upon race, ethnicity, national origin, color, religion, gender, gen-

der identity and expression, age, disability, sexual orientation, or veteran status.

**Harassment:** an unwelcome conduct that is based upon race, ethnicity, national origin, color, religion, gender, gender identity and expression, age, disability, sexual orientation, or veteran status.

**Sexual Harassment:** any unwelcome behavior of a sexual nature which may be physical, verbal, or non-verbal. Sexual harassment includes unwelcome sexual advances, requests for sexual favors, or other behavior of a sexual nature and becomes a violation of University policy when:

- The offensive conduct explicitly or implicitly becomes a term or condition of employment or participation in a university course, program or activity; or
- The conduct is sufficiently severe, pervasive, or persistent as to interfere with an individual's work, academic or program participation, or creates an environment that a reasonable person would consider intimidating, hostile or offensive.

**Retaliation:** occurs when an adverse action is taken against an individual because s/he engaged in a protected activity such as filing a harassment/discrimination complaint or participating in an investigation of a harassment/discrimination investigation.

### Statute of Limitations:

To be actionable, a complaint must be filed with the Office of Equal Opportunity, Ethics, and Access within 180 days of the most recent incident of alleged harassment or discrimination.

### Confidentiality:

While confidentiality cannot be guaranteed, persons involved in a discrimination, harassment, or sexual harassment complaint are expected to treat all information as confidential unless disclosure of the information is compelled by law.

# USING THE CATALOG

The University provides this *Undergraduate Catalog* to answer some of your basic questions and guide you in the right direction when you need assistance. You are encouraged to review the entire *Undergraduate Catalog* carefully to gain an overview of the opportunities offered by the University, as well as the University's expectations of you.

For specific information about particular concerns, consult the Table of Contents, Glossary, or Index in this catalog.

In this catalog you will find descriptions of a wide variety of undergraduate programs (majors and minors) in more than 167 separate fields of study. Review the department and school sections for an understanding of the requirements for each of these specific programs. In addition, the Academic Policies and Practices section details the general requirements necessary for completion of the undergraduate degree.

In this catalog you will also find descriptions for the undergraduate courses offered by the 35 academic departments and schools of the University. To learn what specific courses are offered in a given semester, consult your major department/school or the University Website at [www.IllinoisState.edu](http://www.IllinoisState.edu).

## Undergraduate Catalog Requirements

For a student who attends at least one term of each academic year, graduation requirements are specified in the *Undergraduate Catalog* for the year of entry to the University. If attendance is not continuous, a student must meet the requirements specified in the *Undergraduate*

*Catalog* in effect when he or she reenters the University. If such a student continues in the curriculum chosen originally, the hours earned in meeting the requirements of the original program may apply to the hour requirement of a revised program.

In all instances, the University may adjust graduation requirements to ensure that each graduate of a teacher preparation curriculum meets the course requirements for an Illinois Teaching Certificate.

A student who transfers from an Illinois public community college to this university may choose to meet graduation requirements specified in the Illinois State University *Undergraduate Catalog* in effect at the time the student entered the community college if (1) attendance was not interrupted (not including summer terms), and (2) transfer to Illinois State occurred within nine months of attendance at the community college.

Since University programs are constantly evaluated and improved, a student may graduate under new requirements published while he or she is in attendance at the University. **A student who changes to new *Undergraduate Catalog* requirements, however, must meet all the requirements including General Education and graduation requirements, in that catalog.**

### COURSE PREREQUISITES

Course prerequisites in effect at the time of publication are printed in this catalog. However, prerequisites may change over time and do not depend on catalog year. The registration system will enforce prerequisites in effect at time of registration.

Students who have completed one semester of college foreign language credit may elect to satisfy this requirement by studying abroad in an approved program in a non-English speaking country. American Sign Language may be used to fulfill this requirement by transfer credit or by proficiency.

### General Equivalency Diploma in Lieu of High School Diploma

Applicants who use general equivalency diploma (GED) test results in lieu of a high school diploma are required to submit GED test results reflecting the standard of 410 on each of the five tests and an average battery score of 450. Applicants must also submit ACT or SAT results as well as an academic personal statement.

### FINALIZING ADMISSION

- Admission decisions are conditional until high school graduation and academic preparation is verified on final transcripts. Admission may be revoked if satisfactory completion of minimum course specific requirements and graduation are not confirmed by the high school transcript.
- Withholding information or giving false information to the University may make a student ineligible for admission to the University or subject to dismissal.

### TRANSFER ADMISSION

Illinois State considers the following when making admission decisions:

- Cumulative college grade point average and, for some academic programs, prerequisite college coursework (view the Transfer and Readmit Major Admission

Guide at [www.admissions.ilstu.edu/transfer/requirements](http://www.admissions.ilstu.edu/transfer/requirements)) for these requirements.

- Good academic standing from last school attended.
- If less than 24 college semester hours completed at the time of application, high school courses, high school grade point average, and ACT/SAT scores.
- Proof of high school graduation or a passing score on GED exam, if requested.
- Optional: an academic personal statement explaining circumstances that affected collegiate academic performance.
- Illinois State requires all students to have a declared major upon completion of 75 hours. Due to this policy, transfer students are encouraged to apply to a major program of study. Transfer students with a high amount of transfer credit will be carefully reviewed and evaluated on a case by case basis for admissibility to the University and to their intended major.

Illinois State generally uses all grades shown on all college transcripts to determine an admission grade point average. However, for repeated courses, only the last repeated grade will be used in calculating the grade point average for admission. Remedial (non-credit) course work is not used in calculating the admission GPA.

**NOTE:** An Associate in Arts or Associate in Science degree does not guarantee admission.

### FINALIZING ADMISSION

- Admission decisions are conditional until final transcripts are received and satisfactory completion of courses is confirmed. Admission may be revoked if this information is not verified by the final official transcript(s).
- Withholding information or giving false information to the University may make a student ineligible for admission to the University or subject to dismissal.

### Transferability of Course Credit

- After official transcripts from all previously attended universities are received and soon after admission to Illinois State, the Office of the University Registrar will send you a Statement of Transfer Credit indicating how each course transfers and how it has been used to fulfill Illinois State's curricular requirements. Transfer credit from community colleges is limited to 66 semester hours, plus four credits of physical education courses; credit from four-year colleges and universities is limited to 90 semester hours. Additional credit for military service may be considered.
- Students who have completed an A.A. or A.S. from any regionally accredited post secondary institution or the Illinois Articulation Initiative General Education Core Curriculum (IAI GECC) at an accredited, participating Illinois college or university, will be considered to have met the Illinois State University General Education

requirements. Students completing an A.A. or A.S. will also have junior class standing. Illinois State University accepts the AAT degree as a baccalaureate-oriented degree when the AAT degree includes the IAI transferable core. For more information regarding the IAI GECC visit [www.iTransfer.org](http://www.iTransfer.org).

- Transfer students who transfer credit from participating Illinois colleges or universities that satisfies some but not all requirements of the IAI GECC may satisfy Illinois State General Education requirements by completing requirements for the IAI GECC at Illinois State or by completing the University's own General Education program. Other students must complete Illinois State's General Education program.
- Illinois State generally accepts transfer courses with earned grades of D. However, certain courses in some major programs may require a grade of C or better. When a student who pursues one of these majors transfers D grade course credit that is equated to an Illinois State course requiring a grade of C or better, the student will have to repeat the course to satisfy the major program requirements.

## **SECOND BACHELOR'S DEGREE**

A student who has already received one bachelor's degree from Illinois State University, or from another regionally accredited college or university, may receive a second bachelor's degree at Illinois State University upon completion of degree requirements. Students must meet the admission requirements for the major selected and meet appropriate deadlines.

For the degree, all specified graduation requirements at the time of admission to the program for the second degree must be met, and the program of studies completed for the second degree must include at least 32 semester hours of course work taken after the granting of the first degree, of which 30 hours must be taken in residence at Illinois State. At least 24 of the 32 hours offered toward the second degree must be senior college-level courses numbered 200 and above.

## **PROGRAM SPECIFIC ADMISSION CRITERIA**

Illinois State University regulates admission to designated programs when the number of students seeking admission exceeds the available educational resources of the department or school. Supplementary selection criteria for admission may need to be met for specific majors. These criteria may be based on scholastic achievement, prerequisite course work, and/or may consist of auditions, portfolios, work experience, etc. Selection criteria can be obtained from [www.FindYourMajor.ilstu.edu](http://www.FindYourMajor.ilstu.edu), the Office of Admissions (for new students), or the intended major department or school advisor.

## **FORMER ILLINOIS STATE STUDENTS SEEKING READMISSION**

Students who have been absent from the University for one or more semesters must apply for readmission. Early application is encouraged as it may not be possible to offer readmission for the term requested due to space limitations. Readmitted students should consult the section on Undergraduate Catalog Requirements to determine which catalog should be used to determine graduation requirements.

Illinois State considers the following when making decisions on readmission:

- Students must have left Illinois State University in good academic standing.
  - If coursework is completed since leaving Illinois State, a minimum 2.00 GPA is required for all college coursework completed and good academic standing must be shown from the last institution attended. Please note that many majors require higher GPA standards and prerequisite college coursework for admission. Visit [www.Admissions.ilstu.edu/returning/](http://www.Admissions.ilstu.edu/returning/) to view the Transfer and Readmit Major Admission Guide for these requirements.
  - If on probation or dismissed, students may be considered for reinstatement or for the New Start readmission program. Supplemental information may be requested to determine eligibility.
- Visit [www.admissions.ilstu.edu/returning/](http://www.admissions.ilstu.edu/returning/) to learn more about these readmission options.
- If dismissed for disciplinary reasons, students should contact the Community Rights and Responsibilities Office for disciplinary clearance. Readmission cannot be considered until clearance is given.

**New Start Policy:** Students who leave Illinois State in a degree program with less than a 2.00 cumulative grade-point average (GPA) may be considered for readmission through the New Start Policy. Applicants admitted through this policy will begin with a new cumulative GPA calculated from the point of their reentry.

Students may be considered for readmission through the New Start Policy after being away from the University for one full year (Example: A student who last attended the University the Fall 2009 term cannot reenroll through the New Start Policy until the Spring 2011 term.) and only when the requirements of one of the following New Start categories are met: Nontraditional Student, Veteran, or Community College Transfer. These categories are described in detail in the Academic Policies and Practices section under the heading "Additional Academic Requirements" in this catalog and on the Admissions Website.

The application process includes the submission of the application for admission, official academic transcripts from all schools attended since leaving Illinois State, and a statement describing potential to do well academically as described in the application. In some cases, additional sup-

porting documents may be requested. Students are strongly encouraged to file an application as soon as possible during the preferred filing period for the term for which they are applying. Application deadlines are posted on the Admissions Website at [IllinoisState.edu/admissions](http://IllinoisState.edu/admissions).

Students may exercise New Start only once. Such students will have “New Start” indicated on their transcript. New Start will affect only the cumulative GPA. All grades earned at Illinois State, regardless of when earned, will be used in the calculation of the major GPA, the minor GPA, and graduation honors. Students who are admitted through the New Start Policy will be admitted on academic probation and be required to participate in Project Success. (See the Academic Policies and Practices section for further information). Students who reenter under the New Start Policy must follow the *Undergraduate Catalog* in effect at the time of reentry. To be eligible for graduation, a student must earn at least 30 semester hours at Illinois State University after exercising New Start.

## VISITING STUDENT/UNCLASSIFIED ADMISSION

Individuals desiring to take a class or classes at Illinois State as a visitor without working toward a specific degree at Illinois State may be admitted as unclassified students. Applicants may be required to provide evidence showing prerequisite background for the course(s) desired. Unclassified students must maintain the same standard of performance as degree-seeking students. Unclassified students who wish to become candidates for a degree at some later time must apply for admission as a degree seeking students and must meet published requirements for admission into the desired program. Students who hold a baccalaureate degree from a regionally accredited college or university are not eligible for the unclassified undergraduate status. They must apply as a graduate Student-at-Large.

**Adult Learner Program:** All persons 25 years of age or older prior to the first day of class for any given semester may be considered for admission as an Adult Learner. Admission as an Adult Learner is an unclassified/non-degree seeking student status. Freshmen may be admitted without presenting ACT or SAT scores and without proof of high school diploma and/or GED. Transfer students may be admitted without submitting transcripts from schools previously attended if they have not been in attendance at a college or university two years prior to the semester for which they have applied. If attendance has been within two years, students must submit transcripts indicating a cumulative grade point average of 2.00 on a 4.00 scale and be in good standing at the last school attended. Adult Learners who, at some later time, wish to become candidates for a degree must complete a minimum of 12 semester hours at Illinois State, apply for admission as a degree seeking student, and meet university admission requirements for the desired program.

## 20 Considering ISU?

The priority FAFSA filing date for Illinois State University is **March 1, each year**. The federal processor must receive your application by this date to insure your application receives full consideration for all financial aid programs. If your FAFSA is received after March 1, you will be considered for financial aid programs for which you are eligible and that have remaining funds.

If you or your parents (if you are a dependent student) have not completed your federal tax return by March 1, you can still apply on time by indicating on the FAFSA that you will file but have not yet completed your tax return.

In **March or April** - After you receive your Student Aid Report, you must review it for accuracy. You can then make any necessary corrections based on your and/or your parents' tax return information.

The income and asset information provided on the FAFSA determines your financial aid eligibility. Be sure to use Illinois State's Title IV school code: 001692. There is no separate institutional application for financial aid at Illinois State. You will need to submit an additional application for summer aid (see Financial Aid for Summer Session).

**Financial Aid for the Summer Session:** If you are enrolled for at least six hours of coursework, you may apply for financial aid. The application form for the Summer Session will be available at the Financial Aid Office, 231 Fell Hall, and in the Forms and Publications section of the [IllinoisState.edu/financialaid](http://IllinoisState.edu/financialaid) Website in early March.

Data from your FAFSA will be used to determine your eligibility for aid for the summer session. Aid funds for the summer session are very limited. Direct Loan funds are available only if you have remaining loan eligibility for your class level.

**Institutional Quality Assurance Program (IQAP):** Illinois State University is a participant in the U.S. Department of Education's Institutional Quality Assurance Program. It is important that you keep copies of federal tax returns and W2s, including those of your parents if you apply as a dependent student, because Department of Education regulations require the Financial Aid Office to verify the accuracy of financial data for selected aid applicants. If your application is selected for review under this program, you will be notified in writing and asked to provide the above documents. It is important that you respond within the specified time frame. Otherwise, processing of your financial aid, including loans, may be delayed.

In addition, you must be enrolled in a special education program at one of the twelve public four-year post-secondary institutions in Illinois after taking the ACT or SAT college admissions exam. Recipients must begin teaching, on a full-time basis in the field of Special Education, within one year following graduation from or termination of enrollment in a teacher education program, at an Illinois non-profit public, private, or parochial preschool, elementary or secondary school and continue teaching for at least two of the five years immediately following.

**Illinois Future Teacher Corps (IFTC) Program:** To be eligible you must be a U.S. citizen or an eligible non-citizen, a resident of Illinois, a high school graduate or hold a GED, and you cannot be in default on any student loan or owe a refund on any state or federal grant. In addition, you must be enrolled at least half-time at the junior level or above and be pursuing a postsecondary course of study leading to initial certification in a teaching discipline or a teacher shortage discipline or pursuing additional course work needed to gain Illinois State Board of Education approval to teach in an approved specialized area in which a teacher shortage exists. **The shortage areas are determined each year by the state and are subject to change each year.** You must also file the Free Application for Federal Student Aid to be considered for this scholarship. Recipients must teach, on a full-time basis, for five years according to the commitment/agreement that was signed prior to receiving the program benefits, e.g., if the recipient made a commitment to teach in a teacher shortage discipline and/or at a hard to staff school, the five years of teaching must be fulfilled accordingly. The teaching must be fulfilled at an Illinois public, private or parochial preschool or an Illinois public elementary or secondary school. This is a five year commitment no matter the amount of the scholarship received.

**Minority Teachers of Illinois Scholarship:** To be eligible you must be a minority student, a U.S. citizen or permanent resident of the United States, a resident of Illinois, a high school graduate or hold a GED, and you cannot be in default on any student loan nor owe a refund on any state or federal grant. In addition, you must be enrolled or accepted for enrollment on at least a half-time basis as an undergraduate or graduate student and be enrolled or accepted for enrollment in a course of study which, upon completion, qualifies the student to be certified as a preschool, elementary or secondary school teacher by the Illinois State Board of Education. The student must maintain a cumulative grade point average of no less than 2.50 on a 4.00 scale, and maintain satisfactory progress as determined by the institution. Recipients must teach, on a full-time basis, for one year at a nonprofit Illinois preschool, elementary, or secondary school for each year of assistance received.

## PRIVATE SCHOLARSHIPS

Many students utilize private scholarships to supplement their financial aid award package. You may also contact clubs, foundations, organizations, corporations and churches from your hometown for scholarships. The scholarship donor determines the eligibility criteria. You are encouraged to use the Illinois State University Scholarship page on the Financial Aid Office home page at [IllinoisState.edu/financialaid](http://IllinoisState.edu/financialaid) or the Illinois Student Assistance Commission's [CollegeZone.com](http://CollegeZone.com). Avoid search services or "consultants" who charge a significant fee and/or promise positive results.

## ILLINOIS STATE UNIVERSITY MERIT-BASED SCHOLARSHIPS

Varieties of merit-based scholarships are awarded to new beginning freshmen and transfer students. In order to be considered for a merit-based scholarship as a new student, applicants must be admitted to the University and submit the appropriate scholarship documentation by the scholarship deadline.

For more information about merit-based scholarships for new students and for a scholarship application, please contact the Office of Admissions by telephone at (800) 366-2478 or visit the Office of Admissions Website at [IllinoisState.edu/admissions](http://IllinoisState.edu/admissions). In addition, the Scholarship Resource Office, housed within the Financial Aid Office, will assist students in their search for private or institutional scholarship dollars. Contact the Scholarship Resource Office by telephone at (309) 438-2740.

**Presidential Scholarships:** Presidential Scholarships are our most prestigious scholarships for incoming freshmen. Recipients of these scholarships are chosen on the basis of academic accomplishments, scores on college admissions tests (ACT/SAT), demonstrated leadership qualities, evidence of commitment to service, as well as an on-campus interview. Presidential Scholars receive an annual \$8,000 award, renewable for up to eight semesters, contingent on the student's continued attainment of a 3.30 cumulative grade point average (GPA) and satisfactory progress in the Presidential Scholars Program. Finalists in National Merit and National Achievement Program competitions who enroll as Presidential Scholars and who list Illinois State as their first-choice school receive an additional \$2,000 for the freshman year. The application for admission to the University, submitted during the preferred filing period, will determine eligibility to apply for the Presidential Scholarship. Qualified applicants will be sent an invitation to apply for the scholarship on a rolling basis beginning mid October. Recent Presidential Scholars have an average grade point average of 4.30 on a 4.00 scale, have ACT composite scores in the lower 30s and higher, and demonstrate other meritorious traits as evidenced by their overall high school records. For more information, contact the Office of Admissions at (800) 366-2478 or visit the Office of Admissions Website at [IllinoisState.edu/admissions](http://IllinoisState.edu/admissions).

**Deans' Scholarships:** The Deans' Scholarship is a one-year monetary award of \$1,000 for new beginning freshmen. The scholarship is based on academic accomplishments and potential for outstanding achievement at the University. Candidates for Deans' Scholarships are identified from the Presidential Scholarship applicant pool and are selected by the Dean of the College from which the scholarship is offered.

**University Scholarship:** University Scholarships are awarded to academically talented new beginning freshmen from traditionally underrepresented groups or first-generation college students facing the tough challenges of acquiring a college education. Recipients of these scholarships are chosen on the basis of academic accomplishments, scores on college admissions tests (ACT/SAT), demonstrated leadership qualities, evidence of commitment to service, as well as an on-campus interview. The application for admission, submitted during the preferred filing period, will determine eligibility to apply for the University Scholarships. Qualified students will be sent an invitation to apply for the scholarship on a rolling basis beginning mid October. Recent University Scholars have earned a grade point average of 3.75 on a 4.00 scale and have ACT scores of 25 and higher. Award winners receive a \$5,000 annual award, renewable for up to eight semesters, contingent upon the student's satisfactory progress in the University Scholars program. For more information, contact the Office of Admissions at (800) 366-2478 or visit the Office of Admissions Website at [IllinoisState.edu/admissions](http://IllinoisState.edu/admissions).

**Trustees' Tuition Waivers:** Undergraduate tuition waivers are used to recruit talented students to the University in these specific areas: the Honors Program, Art, Communication/Forensics, Intercollegiate Athletics, International Studies, Music, and Theatre. Additional information regarding these waivers are available through the department from which the waivers are offered.

**Academic Scholarship Programs:** Some academic departments offer scholarships to continuing students based on academic accomplishments. Your major or minor is used for eligibility. You can explore the availability of these scholarships by visiting the Financial Aid Office Website at [www.financialaid.ilstu.edu/scholarships/](http://www.financialaid.ilstu.edu/scholarships/).

**Community College Transfer Scholarships:** Scholarships are available for academically talented, first-time community college transfer students at Illinois State. In order to be considered for the scholarship, students must have earned a minimum 3.50 cumulative grade point average at the time of application. In addition, students must complete an Associate in Arts or Associate in Science degree prior to enrolling at the University. The awards are valued at \$750 per semester for two academic years. One award is designated for a member of Phi Theta Kappa, the academic honor society of community colleges. Applications are mailed in March to qualified admitted students enrolling for

summer or fall terms and those attending the spring term. Recent award winners have an average community college grade point average of a 4.00 on a 4.00 scale. For more information, contact the Office of Admissions at (800) 366-2478 or visit the Office of Admissions Website at [IllinoisState.edu/admissions](http://IllinoisState.edu/admissions).

## LOANS

**Federal Direct Student Loan Program:** You must complete the Free Application for Federal Student Aid (FAFSA) to receive a loan. The Financial Aid Office will determine your eligibility for all other aid programs prior to processing your loan. Because Illinois State is a participant in the Federal Direct Loan program, a loan application from a bank or other lender is not required.

There are two kinds of direct loans: subsidized and unsubsidized. If you are eligible for the subsidized loan based on financial need, the interest on the loan is paid for you as long as you are enrolled half-time (a minimum of 6 hours per semester). The unsubsidized loan is not based on financial need and requires that you make quarterly interest payments on the loan while you are enrolled. If you choose to defer payments while you are in school, the interest will be added to the principal of your loan (capitalized).

After your loan is processed, you will receive an award letter and information on completing an electronic Master Promissory Note (EMPN), if you have not already done so. Read the information carefully. Before loan proceeds will be credited to your account, the EMPN and loan counseling (see below) must be completed.

Because of its participation in the Direct Loan program, Illinois State receives loan proceeds directly from the U.S. Department of Education. Your loan proceeds will be applied to your university charges.

**Loan Counseling:** Students who are first-time Direct Loan borrowers are required to attend Federal Direct Loan entrance loan counseling before loan proceeds are credited to the student's account. You may meet this requirement by completing loan entrance counseling on the Web at [IllinoisState.edu/financialaid](http://IllinoisState.edu/financialaid).

If you attended entrance counseling at another school, you must sign a statement verifying that you previously met the requirement. The purpose of entrance counseling is to inform you of your responsibilities and rights as a borrower.

**Exit Information:** Before you graduate, or if your enrollment status drops below 6 hours per semester, you will be sent information concerning Direct Loan exit counseling, which outlines loan repayment, consolidation, and deferment options. You may also get this information from the Exit Counseling link from the Financial Aid Office Website, [IllinoisState.edu/financialaid](http://IllinoisState.edu/financialaid). Repayment of your Direct Loan begins six months after you leave the University or drop below half-time status.

**Federal Perkins Loan:** The Federal Perkins Loan program is for students enrolled at least half-time in a degree program and gives priority to those students with exceptional financial need. For new borrowers after July 1, 1987, repayment and interest begins nine months after the student graduates, leaves school, or drops below half-time. The cumulative loan limit is \$20,000 for undergraduates and \$30,000 for graduate students. The interest rate is five percent. These funds are awarded on a first-come basis to qualified applicants.

**Nursing Student Loan:** Students enrolled at least half-time in the Nursing Program and who demonstrate need by filling the FAFSA are eligible for a Nursing Student Loan. The cumulative loan limit is \$13,000 and repayment begins 9 months after the student ceases to be enrolled at least half-time. Interest during repayment includes 5 percent interest and the maximum repayment period is 10 years.

**Federal Direct PLUS Loan:** Parents of dependent students may apply for the Parent Loan for Undergraduate Students (PLUS); application forms are available upon request from the Financial Aid Office. You may also print an application from [IllinoisState.edu/financialaid](http://IllinoisState.edu/financialaid). A parent may borrow up to the cost of attendance less any other financial aid the student is receiving. In order to determine eligibility, parents must file the Free Application for Federal Student Aid (FAFSA).

Before PLUS loan proceeds will be credited to the student's account, the parent completing the PLUS application must also complete a Master Promissory Note and undergo a successful credit check by the Department of Education. An electronic version of the promissory note is available at [IllinoisState.edu/financialaid](http://IllinoisState.edu/financialaid).

**"Alternative" Loans:** Alternative or private loans are for students and parents who are not eligible for the federal programs of financial aid, or who need additional funds to meet educational expenses. In order to determine eligibility, students/parents must file the Free Application for Federal Student Aid (FAFSA). If you have any questions about your eligibility for financial aid to attend Illinois State, contact your financial aid counselor.

## FINANCIAL AID DISBURSEMENT

If the amount of financial aid exceeds charges, you will receive a refund of the balance. Refund checks are mailed from the Student Accounts Office throughout the academic year for aid in excess of amounts owed the University. You should be prepared to buy books and have "start up" funds for the beginning of the semester.

It is important to keep your local and permanent address information current with the Office of the University Registrar. University offices use this information to contact you (i.e., the Student Accounts Office will use your local address to send a refund check to you). If there is no local address on file with the Registrar, correspondence will be sent to your permanent home address.

You may update your address in person at the Office of the University Registrar Service Center, Office of the University Registrar, 107 Moulton Hall, or by accessing the iCampus Portal at [IllinoisState.edu/icampus](http://IllinoisState.edu/icampus).

## SATISFACTORY ACADEMIC PROGRESS

All students who receive federal and state financial aid must meet federal and institutional standards for academic progress in order to establish and retain aid eligibility. Students receiving athletic or other university administered awards must also meet the satisfactory academic progress standards that have been established by the awarding entity.

Satisfactory academic progress for federal and state financial aid programs is based on three measures: cumulative grade-point average, completion rate based on credit hours completed compared to credit hours attempted, and a maximum time frame for degree completion. The following describes the university's standards for each of these three measures, and when they are reviewed:

**Cumulative Grade Point Average:** Undergraduate students must maintain a minimum cumulative grade point average (GPA) of 2.00 based on credits earned at Illinois State University. The first time a student's GPA is below 2.00, the student is placed on Academic Probation and continues to be eligible to receive financial aid. If the student does not raise the GPA to 2.00 in the following semester of attendance, or the GPA falls below 2.00 in a subsequent semester, the student is Academically Dismissed and loses financial aid eligibility (see Academic Policies and Practices).

**Completion Rate:** All students are required to complete a minimum of 67 percent of the credit hours attempted at Illinois State University. Courses with a grade of D or higher, as well as "CR" or "CT", count as completed. Credit hours attempted includes audits, incompletes, withdrawals, and repeated or failed classes. A student who does not complete a minimum of 67 percent of credit hours attempted will be suspended from financial aid eligibility until his or her completion rate improves to at least 67 percent.

**Maximum Time Frame:** The maximum time frame for the completion of a degree is limited by federal regulations to 150 percent of the published length of the degree program. This is equivalent to a maximum number of credit hours that includes transfer credits and all attempted credits at Illinois State University. Credit hours attempted include audits, incompletes, withdrawals, and repeated or failed classes. The maximum number of credit hours for which a student is eligible to receive financial aid is 180. The University also requires that all students have a declared major upon completion of 75 hours of coursework, including transfer credits. At 75 hours earned, students without a declared major are not automatically eligible to continue their enrollment or receive financial aid.

**Review of Progress Standards:** Cumulative GPA is reviewed at the end of each semester—fall semester and spring semester—for both financial aid eligibility and for continued enrollment at Illinois State University.

Completion rate is reviewed upon submission of a financial aid application (the FAFSA), and at the end of each period of enrollment, including the summer session. The Financial Aid Office sends a “warning letter” to any aid recipient who has not completed 67 percent of hours attempted at the end of the summer session or fall semester. Aid eligibility is suspended at the end of the spring semester for any aid recipient who does not meet the 67 percent completion standard.

Maximum timeframe is reviewed upon submission of a financial aid application (the FAFSA), and at the end of each period of enrollment, including the summer session. The Financial Aid Office sends a “warning letter” to any aid recipient who is within 15 hours of reaching the maximum attempted hours for his or her degree program.

**Notification/Appeals:** If financial aid eligibility is suspended as a result of failure to meet the completion rate or maximum timeframe standard, the Financial Aid Office sends a letter to the student including a Satisfactory Academic Progress Appeal Form. The Satisfactory Academic Progress Appeal Form must include reasons for failure to achieve good academic standing and any applicable documentation. Appeal Forms must be submitted to the Financial Aid Office within 30 days of the date of the letter and are reviewed by The Satisfactory Academic Progress Committee. For the Completion Rate standard, students can also restore aid eligibility by earning enough additional hours to meet the 67 percent requirement.

If the student is not meeting the Cumulative Grade Point Average standard necessary for Financial Aid Satisfactory Academic Progress, the Office of Enrollment Management and Academic Services will communicate this information as part of a student's official notification of academic probation, dismissal or reinstatement. For more information about Financial Aid Satisfactory Academic Progress contact the Financial Aid Office.

## ENROLLMENT CHANGES AND FINANCIAL AID ELIGIBILITY

**Reduction in Hours:** Reducing your credit hours has implications for both your aid eligibility for the current semester and future terms. Your aid eligibility is based on the number of credit hours for which you are enrolled on census day, usually the Friday of the second week of classes. If your aid was distributed based on full-time enrollment (12 credits undergraduate; 9 credits graduate) and you drop to part-time on or before census day, your aid may be reduced. If you drop after the day withdrawal grades are assigned, the withdrawal grades will reduce your percentage completion rate, which is part of the standards of Satisfactory Academic Progress for the receipt of financial

aid. These standards are posted on the financial aid Website: [www.IllinoisState.edu/financialaid](http://www.IllinoisState.edu/financialaid).

**Withdrawal:** Federal regulations state that financial aid is earned by attending class. You have not earned 100% of your financial aid until you have attended 60 percent of the term. If you withdraw before this date, a portion of your financial aid has not been earned. The unearned portion is equal to the percentage of the term remaining on the date of withdrawal. Your financial aid eligibility will be recalculated based on your actual period of attendance - **you may be asked to repay a portion of the aid that had been distributed to you.**

**Failure to Earn Credit:** If you fail to earn credit for any of your classes (receive grades of F, W, I and/or NC), federal regulations require the Financial Aid Office to assume you stopped attending your classes. In order to retain any of your financial aid, you must provide proof that you attended classes. If you did stop attending class, you are treated as an unofficial withdrawal. This means that the midpoint of the term is used as your last date of attendance and your aid eligibility is reduced by up to 50%. **This will result in you owing funds back to the university unless you can provide documentation of attendance past the 60% point of the term.**

## CONFIDENTIALITY AND THE RELEASE OF INFORMATION

The Financial Aid Office will release information from your financial aid application file to parties within the University if their inquiry is related to your attendance at Illinois State. Inquiries from off-campus agencies and/or landlords will be answered by Financial Aid Office staff only if you have completed and signed a "Consent to Release Information" form from the Financial Aid Office. To protect the confidentiality of your records, the Financial Aid Office will require proper identification from the requesting party before releasing any of your information. Appropriate documentation of any release of information will be placed in your financial aid file.

## STUDENT EMPLOYMENT

Students enrolled for six or more semester hours may work part-time at Illinois State University. Eligible student employees usually work 10 to 15 hours per week while classes are in session. Students working at Illinois State University earn a minimum of \$7.50 per hour. This pay range is subject to change by action of the federal government, the state, or the institution.

**Federal Work-Study Program:** This federally sponsored program enables students with demonstrated financial need to earn a portion of their expenses while they are enrolled at Illinois State. To be initially awarded Federal Work-Study the applicant must indicate an interest in “work-study” on the FAFSA and demonstrate need. The federal government pays 70 percent of a Work-Study student's earnings, while the employer pays the balance. A stu-

dent employed 10-15 hours per week can expect to earn between \$1,500 and \$2,000 a year. Work-Study students find work on-campus (food service, library, Bone Student Center, departmental offices) or in nonprofit, off-campus agencies (hospitals, youth centers, charitable agencies and libraries). Another Federal Work-Study program is the "America Reads" initiative in which students are employed as reading tutors in local elementary schools.

Students go directly to the employer for an interview and, if hired, must complete state and federal withholding tax forms in the Payroll Office, 101 Hovey Hall. The student is not permitted to earn more than the Work-Study eligibility determined by federal regulations.

**Regular Student Employment:** Those students who desire to work on or off campus may seek part-time employment with the University or off campus. These jobs generally pay the minimum wage. Hours vary, and may be less flexible than Federal Work-Study positions.

**Finding a Job:** Both Federal Work Study and regular student employment part-time job openings are accessible through student employment at [IllinoisState.edu/jobs](http://IllinoisState.edu/jobs). The Financial Aid Office, located in Fell 238, can offer assistance with off-campus part-time job searches. Call (309) 438-2236 for an appointment with the coordinator of part-time employment.

## Tuition and Fees

### ESTIMATED TOTAL YEARLY EXPENSES

Tuition, fees, and on-campus housing charges are subject to change by action of the Board of Trustees. For the most up to date rates and information, please refer to our Website at: [www.comptroller.ilstu.edu/studentaccounts](http://www.comptroller.ilstu.edu/studentaccounts).

### UNDERGRADUATE TUITION AND FEES FOR NEW STUDENTS

Tuition and fees other than health insurance are assessed at per semester hour rates. Health insurance is assessed to all students enrolled in nine or more semester hours. Upon being first enrolled in a degree program at Illinois State University, tuition and general fee rates for undergraduate students will be locked for a four-year period. Certain degree programs qualify for the locked rate to be extended beyond the four-year period. For additional information, refer to the Student Accounts Web page at [IllinoisState.edu/studentaccounts](http://IllinoisState.edu/studentaccounts).

**Audit Costs:** Students taking only audit courses (courses without credit) are charged tuition rates the same as any other course.

**Residents and Non-Residents:** An applicant or enrolled student is classified either as a resident of Illinois, a non-resident, or a foreign student. Residency for tuition purposes

is different from residency for voting, taxing purposes, or residency requirements of on-campus doctoral programs.

A student must be a U.S. citizen or have been approved for U.S. Permanent Resident status in order to be considered as an Illinois resident. An individual's residency status is based on information from the admission application. A student who is not a resident of Illinois pays the non-resident tuition fee. All other fees are the same for non-residents. A student under 18 years of age is considered a non-resident if the student's parents are not legal residents of Illinois. A student over 18 years of age is considered a non-resident if the student is not a legal resident of Illinois. Personnel within the Office of the University Registrar are responsible for determining residency.

An individual will be considered an Illinois resident if all of the following conditions are met:

1. The individual resided with his or her parent or guardian while attending public or private high school in this State.
2. The individual graduated from a public or private high school or received the equivalent of a high school diploma in this State.
3. The individual attended school in this State for at least 3 years as of the date the individual graduated from high school or received the equivalent of a high school diploma.
4. The individual registers as an entering student in the University not earlier than the 2004 fall semester.
5. In the case of an individual who is not a citizen or a permanent resident of the United States, the individual provides the University with an affidavit stating that the individual will file an application to become a permanent resident of the United States at the earliest opportunity the individual is eligible to do so.

**Tuition and fees are subject to change by action of the Board of Trustees and the General Assembly.**

**Reduction of Tuition and Fees Policy:** A registered student who officially withdraws from the University may receive a reduction of tuition and fees, including any advance deposit according to the following schedule:

1. If withdrawal is prior to the first regularly scheduled class day, all tuition and fees are deleted.
2. If withdrawal is within the first 15 calendar days after the first regularly scheduled class day, all tuition and fees minus a service charge of \$30 are refunded.
3. If withdrawal is after the 15th calendar day but within the sixty percent point in time of the period of enrollment—a refund equal to the portion of the period of enrollment remaining, rounded downward to the nearest ten percent, less an administrative fee not to exceed the lesser of five percent of the initial tuition, fees, and other charges assessed the student or \$100.

4. If withdrawal is after the sixty percent point in time of the period of enrollment—no refund shall be made. The University may designate shorter refund periods for summer session, special courses, and short courses.

All notifications of withdrawal or cancellation and requests for refunds must be in writing and addressed to Office of the University Registrar, Illinois State University, Campus Box 2202, Normal, IL 61790-2202, or faxed to: (309) 438-3193.

A student who changes from full- to part-time status or a part-time student who reduces the number of credit hours carried may receive a reduction of tuition and fees according to the following schedule:

1. If the reduction is on or before the 15th calendar day after the first regularly scheduled class day, all tuition and fees not applicable to the new part-time status are reduced. A service charge is not applicable to a student who changes from full-time to part-time status.
2. If the reduction is after the 15th but no later than the 30th calendar day after the first regularly scheduled class day, 25 percent of the difference in tuition charge only is reduced.

A student may receive a refund of insurance fees if the student demonstrates equal or better insurance coverage and completes the written application on or before the 15th calendar day after the first regularly scheduled class day.

A student whose course of study requires absence from campus for the entire term shall, upon proper application, receive refunds of Activity, Health Service, and Athletic fees. The application for the refund must be made to the Office of University Registrar on or before the 15th calendar day after the first regularly scheduled class day.

Part or all of a student's tuition and fees may be refunded because of the student's death or disability, extreme hardship, or institutional error.

A student may receive a refund of tuition and fees if a scholarship is awarded that covers those fees. The application for refund must be made no later than 60 days after the close of the session.

A student may receive a refund of tuition and fees if the University declares him or her ineligible for enrolled status prior to the first day of regularly scheduled class.

The statement of the refund policy for University housing is a part of the housing contract. Information on the refund policy may be obtained from the Student Accounts Office.

Students or parents who believe that individual circumstances warrant exceptions from published policy may appeal to the Associate Vice President for Student Affairs by calling (309) 438-5451.

**Housing Costs:** For information, contact University Housing Services or visit [www.housing.ilstu.edu](http://www.housing.ilstu.edu)

## TRANSCRIPTS

Transcripts are issued only after all student financial obligations have been met. Students should make a written, signed request to Office of the University Registrar, Campus Box 2202, Normal, IL 61790-2202. A \$6.00 charge (fee subject to change) is made for each official transcript. Requests should include identification number, birthdate, and complete address, including zip code, to which the transcript is to be sent. When possible, transcript requests are processed within five working days.

## MATERIALS CHARGES

A materials charge is an optional fee charged to a student for consumable materials used in a course. A student may supply his or her own material and submit a written request to the instructor to waive the charge. Courses with material charges are listed in the *Undergraduate Catalog* and *Graduate Catalog*.

Office of Residential Life Building

[www.Housing.ilstu.edu](http://www.Housing.ilstu.edu)

(309) 438-8611; TTY (309) 438-8177

Students with disabilities are requested to contact the Director of Disability Concerns, 350 Fell Hall at (309) 438-5853—Voice, (309) 438-8620—TTY.

### RESIDENCE HALLS

The University owns and operates 10 residence halls, providing living accommodations for approximately 6,500 students. These facilities include spaces accessible to students with disabilities. The residence halls have been designed to provide not only basic living requirements, but also counseling, advisement, educational, and cocurricular programs. The University regards residence hall living as an important part of university life and requires that certain students reside in the residence halls as a condition of enrollment.

Professional staff, aided by undergraduate Resident Assistants, is responsible for educational programs, policies, and facilities within the residence halls.

In the spring, residence hall information about the contract application process and the room selection process will be mailed to the students who have been admitted to the University for the following academic year. If all regular residence hall rooms become filled, new applicants may be offered accommodations in supplemental housing. (Supplemental housing rooms are like regular rooms in their furnishings but are used as study lounges when not being used for supplemental housing and may house up to six students.) Room and meal plan rates for supplemental housing are the same as for regular housing. Acceptance of a supplemental housing offer is optional, however all terms and conditions become enforceable upon receipt of the supplemental housing contract addendum by the University.

The room rate in the residence halls for the 2009-2010 academic year ranged from \$4,190 to \$7,164 for multiple

occupancy room. A limited number of single, super single, and suite rooms are available at an additional cost. Manchester Hall will remain open during all university breaks during the academic year. All students assigned to Manchester Hall are required to pay an additional mandatory, nonrefundable charge above and beyond the basic room rate. A deposit is required at the time a student completes his/her online application contract. The deposit covers a security deposit, which is retained until the final period of occupancy, a nonrefundable application fee, and a payment which is applied toward room charges. In 2009-2010, the deposit was \$300. Students may elect to pay each semester's room and meal plan charges in one lump sum or in installments. There is a \$30 refund for paying in one lump sum. Students are expected to furnish linens, towels, blankets, pillows, bedspreads, and waste baskets. **Rates for the 2010-2011 and 2011-2012 academic years were not available at the time this catalog was printed.** Visit [www.Housing.ilstu.edu](http://www.Housing.ilstu.edu) for additional information.

**University On-Campus Housing Policy:** Entering freshmen who have not previously attended this University must reside in university-operated residence halls for their first four semesters. Students transferring to this University as sophomores (as classified by the Office of Admissions) must reside in university-operated residence halls for their first two semesters. These policies are applicable to all students insofar as space is available in university residence halls. Residence hall living for two summer sessions is equivalent to one semester. Visit [www.Housing.ilstu.edu](http://www.Housing.ilstu.edu) for more complete information about the On-Campus Housing Policy.

The University may make exceptions for certain categories of students based upon guidelines related to marital status, proximity of home to campus, age, and other pertinent factors. The deadline for requesting an exemption to the requirement is July 15 immediately prior to the academic year. Consideration also will be given to applications for exemption received prior to July 15 from sophomore students who are members of fraternities or sororities who will be residing in their organization's official house. Those fraternities and sororities must be members of Interfraternity Council Panhellenic Association and National Panhellenic Council, Inc. and approved by the Dean of Students Office. Students who wish to appeal a decision concerning their petition for an exemption to the University On-Campus Housing Agreement, they may obtain information on the appeals procedure from University Housing Services, (309) 438-8611 or at [www.Housing.ilstu.edu](http://www.Housing.ilstu.edu).

### APARTMENT LIVING

Two university-owned apartment complexes provide residents with an environment conducive to both personal and academic growth. Qualifying upper-class students, students who are married or in domestic partnerships, students with dependents, and graduate students are eligible to reside in these units.

There are 292 unfurnished apartments in the two complexes, Cardinal Court and 300 Shelbourne Drive, offering residents a quiet environment, community atmosphere, excellent maintenance service, and spacious grounds. Rental rates for 2009-2010 ranged from \$400 to \$547 per month, including water service. All other utilities are paid by the resident. A security deposit is required and is held until after occupancy is terminated. In 2009-2010 the security deposit was \$250. For additional information and an application contact University Housing Services at (309) 438-8611 or visit [www.Housing.ilstu.edu](http://www.Housing.ilstu.edu).

**Off-Campus Housing:** The University does not participate in housing contracts issued to students renting space in private housing and does not participate in the inspection of any off-campus housing. However, Off-Campus Services, a unit of the Dean of Students Office, provides Illinois State students with support and services to help enhance their off-campus living experience. ### DISABILITY CONCERNS

**350 Fell Hall, (309) 438-5853—Voice**  
**(309) 438-8620—TTY**  
**[www.DisabilityConcerns.ilstu.edu](http://www.DisabilityConcerns.ilstu.edu)**

Disability Concerns, a unit of the Division of Student Affairs, is the office that is designated to provide reasonable accommodation services for students and visitors with disabilities.

The mission of Disability Concerns is to ensure full and equal participation for persons with disabilities in the Illinois State University community through:

- empowering individuals,
- promoting equal access,
- encouraging self-advocacy,
- reducing attitudinal, physical and communications barriers, and
- providing appropriate accommodations.

Disability Concerns provides accommodation services that support people with disabilities in:

- the realization of academic goals,
- reaching professional goals, and
- becoming contributing members of society and lifelong learners.

To receive services from Disability Concerns, appropriate medical/psychoeducational documentation must be provided. Upon acceptance of the documentation by the Documentation Review Committee, the case coordinator works with the student on a case-by-case basis to determine the impact of the disability and the appropriate accommodation(s). Disability Concerns offers a variety of services to accommodate persons with disabilities. Accommodations provided may include, but are not limited to, exam accommodations, sign language interpreters, notetakers, assistive technologies and materials in alternative formats.

Disability Concerns provides many of its services through a volunteer model. This is promoted to diminish attitudinal barriers and to promote understanding and respect for persons with disabilities. All students, faculty, staff, and alumni of the University are encouraged to volunteer their time and talents. This volunteer program offers the opportunity to obtain volunteer hours, develop experience to enhance a resume, and perhaps most importantly, develop skills that encourage and promote diversity. Persons interested in providing volunteer assistance should inquire at Disability Concerns.

## STUDENT HEALTH PROGRAM

**Student Health Services: (309) 438-8655**

**Website: [www.shs.ilstu.edu](http://www.shs.ilstu.edu)**

**Student Insurance: (309) 438-2515**

The Student Health Services and Student Insurance Office are located on the second floor of the Student Services Building on the corner of College Avenue and University Street, just west of the Bone Student Center.

The Student Health program consists of two components (1) the on-campus Student Health Service and (2) a comprehensive low-cost Student Health and Accident Insurance Plan that supplements services available through the Student Health Services.

**Eligibility and Fees:** Regarding the Student Health Services, all students who register for one or more credit hours and are assessed general fees are entitled to use all the services at the on-campus clinic for the entire semester or session. There will be a \$5 Front Door Fee assessed to the user's University account for each visit to the Student Health Services. Spring semester students, who do not plan to attend summer session classes, may obtain summer health care if they pay the appropriate health fee. Enrolled students may purchase Student Health Services access for spouses/domestic partners if they pay the fee. An eligible student who graduates may purchase one additional term prior to the expiration of the current term. All optional health fees are payable at the Student Health Services Business Office.

Regarding Student Health Insurance, all students who register for nine or more credit hours during the fall and spring semesters by the fifteenth calendar day of classes (or for six or more hours by the eighth day of the first summer session) and are assessed general fees, are also assessed a health insurance premium.

**On-Campus Student Health Services:** The clinic is fully accredited by the Accreditation Association for Ambulatory Health Care, Inc. Services at the clinic are comparable to those offered by most private community physicians. The clinic is staffed by licensed physicians, nurse practitioners, physician assistants and nurses. Services available include a medical clinic, women's health clinic, psychiatry, diagnostic laboratory, radiology, pharmacy, allergy injections, immunizations, etc. Students wanting to use the clinic may schedule an appointment via the Website at [www.shs.ilstu.edu](http://www.shs.ilstu.edu) or call the appointment line at (309) 438-2778 to schedule an appointment. Students need to bring their Illinois State Student I.D. card at check-in.

Complicated illnesses or injuries requiring surgery or long-term care usually will be referred to an outside specialist. New students who have chronic medical conditions such as asthma, diabetes, or epilepsy, which require continuous monitoring and treatment, should retain the services of private physicians for the continuing supervision and management of their condition. The Student Health Services staff will furnish supportive care and assist the student's private physician in the student's care if the private physician fur-

nishes written instructions. There are medical specialists plus two hospitals in the Bloomington-Normal area that are equipped to handle medical problems should they arise. Information regarding medical services can be obtained by contacting the Student Health Services main reception area in the Student Services Building, or by calling (309) 438-8655.

**Student Health and Accident Insurance:** The Student Health Insurance Fee provides a health and accident insurance policy intended to meet the needs of students without other insurance or to provide 100 percent coverage for insured expenses by coordinating with a family policy. The policy includes world-wide coverage, with a \$1,000,000 maximum, a \$1,000 stop-loss provision designed to provide catastrophic coverage while limiting out-of-pocket expenses, and a \$50 deductible. This deductible is waived if other insurance is also in force. The schedule of benefits includes services for hospital inpatient and outpatient use, including emergencies, surgical and anesthesia fees, physicians' charges, consultation expenses, laboratory and radiology expenses, and ambulance services. A complete schedule of benefits may be obtained from the Office of Student Insurance, Room 230, in the Student Services Building.

Student insurance coverage (and eligibility to use clinic services) begins the Monday prior to the first day of regularly scheduled fall classes; the Thursday before spring classes; and on the first day of the first summer session classes. This coverage is terminated on the first day of classes of the next regularly scheduled term. Continuous year-round coverage is available if the student maintains university registration at nine or more hours during the fall and spring semesters and applies for summer coverage prior to the expiration of spring coverage. A summer insurance fee is assessed automatically when registration of 6 or more credit hours is completed by the 8<sup>th</sup> calendar day. An insured student who graduates may purchase one additional term at the group rate by the last day of the covered period. This policy contains no extension of benefits into a non-covered semester for any condition. Extension of coverage for existing conditions, such as maternity, is available through the continuation option, details of which can be obtained from the Student Insurance Office. Although dependent coverage is not included in the Student Plan, the Student Insurance Office can provide suggested alternatives for students needing dependent coverage.

It is strongly recommended that students remain enrolled in this plan even if other health insurance is present. A request to cancel this insurance plan is permitted during the first 15 calendar days of each semester (eight days during the summer session) for those students who prove they have comparable insurance coverage (insurance ID card or copy of policy) and complete the required petition in the Student Insurance Office. However, experience often has shown that the premium for the Illinois State University plan is less than out-of-pocket bills that many have to pay because of higher deductibles and coinsurance

provisions in their own policy. Additionally, students sometimes lose coverage through their parents' plan because of age limitations, changes in dependent status, or changes in employment of parents. Thus, it can be more economical to remain enrolled in the Illinois State plan.

The previous information is a summary of benefits and enrollment procedures. Persons desiring specific information about the Illinois State University Student Health Insurance Plan should contact the Student Health Insurance Office, Room 230, Student Services Building, or call (309) 438-2515.

## Career Planning

### CAREER CENTER

**185 Student Services Building, (309) 438-2200**  
[www.CareerCenter.ilstu.edu](http://www.CareerCenter.ilstu.edu) and [CareerCenter@ilstu.edu](mailto:CareerCenter@ilstu.edu)

The Career Center is a valuable central resource for our students, alumni, faculty, and employers who are seeking qualified candidates. Students may receive guidance in many areas from deciding on a major to exploring career options that match their talents, interests, and career goals. The Career Center Staff also assists students in developing job search skills that will give them a competitive edge when applying for internships and full-time positions.

Students may take advantage of individualized career planning assistance by making an appointment with their career advisor or by utilizing other career services such as the online job search tool (eRecruiting), an extensive Website containing quality job search information and materials; on-campus interview opportunities with employers; and a variety of events offered throughout the academic year to facilitate students and alumni meeting with employers from business, industry, government, education and the not-for-profit sector. Staff is also available to assist students and

alumni at any stage of their career search process including assessment of interests and abilities; choosing a major; clarifying career goals; and providing information about the labor market, job outlook and salaries.

A key component leading to a student's success when applying for the first career position after graduation is having participated in one or more internships while an undergraduate. Internships give students the advantage of having career-related experience immediately upon graduation from college. Internships are professionally monitored work or service experience for students that provide intentional learning goals and reflect actively on the learning experience. They can be part- or full-time and paid or unpaid. Tuition and fees are assessed in the usual manner for all credit earned in internship experiences. Students are encouraged to work with the Internship Coordinator in their college along with the Career Center's Assistant Director of Professional Practice or their career advisor to find internships that will provide the professional experiences needed to be competitive in the job market.

Illinois State University's nationally recognized Professional Practice Program offers academically qualified students an opportunity to integrate classroom study with one or more terms of paid or unpaid internship experience in a work environment related to the student's academic and career goals. Many organizations in the U.S. and abroad have served as learning sites. Students interested in enrolling in internships (typically 198, 298, 398 courses in the catalog) should contact the internship coordinator in their department/school or the Career Center early in their undergraduate program to ensure proper arrangement.

**Appropriate Use Policy:** The University's Appropriate Use Policy establishes the appropriate use of computing and telecommunication networks, computing equipment, and technology resources. Users must agree to abide by this policy prior to gaining access to Illinois State resources. The policy includes provisions for the observance of all copyright laws. The full text of the appropriate use policy is available at the following Website: [www.policy.ilstu.edu](http://www.policy.ilstu.edu).

**Student Computer Ownership Initiative:** All new students to the University are required to bring a personal computer that meets the University's published minimum hardware and software standards. For mobility and flexibility reasons, laptops are strongly recommended. No student will be prevented from attending classes based on an inability to purchase a computer. Different financial resources are available to students including adding the cost of a computer to a student's "total cost of attendance." The cost of attendance is one of the factors that determines the amount of financial aid offered. Assistance, help, specifications, and more information on the policy can be found at TechZone, Bone Student Center 2nd floor, or [www.techzone.ilstu.org](http://www.techzone.ilstu.org).

**iCampus Portal:** The iCampus portal, at [www.icampus.ilstu.edu](http://www.icampus.ilstu.edu), allows students to plan and register for classes, view the Course Registration Directory and Planner; and view their grades, schedule, textbooks, financial aid status, email, Redbird card balance, view student paycheck stubs, sign up for direct deposit and more through a Web browser from anywhere in the world.

**Email account and storage space:** Each student is given an Illinois State University email account for use in contacting faculty and classmates, as well as keeping in touch with friends and family at home. Students are responsible for checking their Illinois State account regularly, as the University uses it for official correspondence. Email is accessible on the Web at either [webmail.ilstu.edu](http://webmail.ilstu.edu) or [www.icampus.ilstu.edu](http://www.icampus.ilstu.edu). In addition, each Illinois State student is given personal web and file storage space on a secure University server (Datastore01), available from an Internet-connected computer anywhere in the world. More information about Datastore01 and how to configure your computer to access it is available at [IllinoisState.edu/helpdesk](http://IllinoisState.edu/helpdesk).

**Internet Access:** There are many convenient methods for connecting to Illinois State University over the Internet. All residence halls provide high-speed Ethernet access. There are also public network jacks and wireless connectivity available in many locations on campus for mobile laptop users, including areas in Milner Library, the Bone Student Center, and all residence hall dining areas. The University Computer Help Desk maintains a download site, which provides Illinois State students with browsers, email clients, virus protection, spyware detection, mobile printing software, and other useful tools, all configured to reach Illinois State resources. These software tools are available free of charge with a University login (ULID) and password at [IllinoisState.edu/helpdesk](http://IllinoisState.edu/helpdesk).

**Computer Security:** To protect your computer and the campus network from viruses, worms, trojans, and the like, you must install the free anti-virus software provided by the University and set it to automatically update the virus definition files. You must insure that your computer presents no risk to the campus community by installing free critical updates to the operating system. Computers vulnerable to

viruses and the like will be blocked from accessing the network. Further information on computer security requirements is available at [www.helpdesk.ilstu.edu/security](http://www.helpdesk.ilstu.edu/security).

The nationally recognized Honors Program at Illinois State University provides enriching educational opportunities for academically talented students. Excellent students committed to their own personal development and to rewarding professional careers find that their Illinois State Honors education prepares them well for professional schools, graduate schools, and for satisfying employment after they graduate. Honors students enjoy the benefits of a small college in the rich context of a large multipurpose university. The University offers Honors students early registration; special courses, taught by distinguished teachers and scholars; close, caring personal advisement by Honors Program advisors; unique opportunities for undergraduate research with world-class faculty scholars; special living accommodations which bring them into close acquaintance with other Honors students in academic and social programs; special awards and recognition; and other benefits.

Successful graduates of the Honors Program attend top law schools, medical schools, and graduate schools. They also obtain outstanding employment in a wide array of professions and careers.

## ADMISSION TO THE HONORS PROGRAM

Admission to the Honors Program is based on a variety of parameters. In keeping with the Illinois State University mission which describes us as a “diverse community of scholars,” we are looking for highly motivated students who are committed to their careers and their community; who have demonstrated success in and out of the classroom; who are determined to have a positive impact on the university during their tenure here and on their society after they graduate; and who offer the University diversity of discipline, background, and thinking. Applications require a personal statement designed to give the Honors Admissions Committee a sense of how motivated an applicant is to pursue academic work and to participate in the cultural life of the University. Students already enrolled in the University and incoming transfer students interested in Honors experience and participation may also apply for admission to the Program, and must also submit a personal statement. Acceptance into the program is based on the analysis of all information submitted in applications.

## ACADEMIC SCHOLARSHIPS FOR NEW STUDENTS

Illinois State University offers scholarship programs to support academically talented new freshmen and transfer

students. University-wide scholarship programs are listed below, but various departments, schools, and colleges offer their own academic scholarships, many of which are for new students. For further information, contact the Office of Admissions, the Honors Program, the Scholarship Resource Office within the Financial Aid Office, or the college or department/school associated with the program of study in which the student is interested. See also the Financial Assistance section of this catalog, which details additional academic scholarship programs.

**Presidential Scholarships:** Presidential Scholarships are awarded to outstanding students based on academic performance, without regard to financial need. Recipients of these scholarships are chosen on the basis of academic accomplishments, scores on college admissions tests (ACT/SAT), demonstrated leadership qualities, evidence of commitment to service as well as an on-campus interview. Presidential Scholars receive an annual \$8,000 award, renewable for up to four years contingent on the student’s continued attainment of a 3.30 cumulative grade point average (GPA) and satisfactory progress in the Presidential Scholars Program. Finalists in National Merit and National Achievement Program competitions who enroll as Presidential Scholars and who list Illinois State as their first-choice school receive an additional \$2,000 for the freshman year.

The application for admission to the University will determine eligibility to apply for the Presidential Scholarship. Qualified applicants will be sent an invitation to apply for the scholarship on a rolling basis beginning mid October.

Recent Presidential Scholars have an average grade point average of 4.30 on a 4.00 scale, have ACT composite scores in the lower 30s and higher, and demonstrate other meritorious traits as evidenced by their overall high school records.

Presidential Scholarship winners are automatically admitted to the University’s Honors Program and the Presidential Scholars Program, an exclusive academic program combining some of the best courses in the University with a student-selected course of study, involving Honors Program advisors and selected professors around the University. The program is designed to offer participants the advantages of a small liberal arts college within the framework of an outstanding multipurpose university. This program is international in character, requiring an international studies experience and foreign language study. It also has a service learning component, which enables students to earn academic credit for community service by bringing them into contact with local professionals, depending on student interest and career goals.

**Honors Scholarship:** The Honors Program maintains a program of academic scholarships to support talented new freshmen in the Honors Program. These are tuition scholarships only for full-time study during the freshman year. Students are eligible to be considered for these scholarships when they have applied for and been accepted into the Honors Program. To ensure full consideration,

students should submit their applications, available from the Honors Program, no later than March 1st. Students who have applied for a Presidential Scholarship are automatically considered for the Honors Scholarship and do not need to submit a separate application.

Honors students already enrolled at Illinois State are invited each spring to apply for tuition scholarships for the following summer and academic year.

## ACADEMIC PROGRAMS IN HONORS

**Honors Courses:** Honors students enjoy special sections of regular university courses, including courses in the General Education Program. They may also enroll in special courses taught by the university's distinguished scholars and teachers, including Advanced Colloquia on various topics, Independent Honors Study, Honors Undergraduate Research, and Honors Service Learning. Among the courses offered by the Honors Program are those listed at the end of this section of the catalog.

Students may also complete an "In-Course" contract, negotiated with the faculty member, specifying requirements for Honors credit. Work completed in an Honors section or through an approved In-Course contract will result in an "H" on the transcript, reflecting Honors credit, for students enrolled in the Honors Program.

**Opportunities for Undergraduate Research and Scholarship:** The Honors Program sponsors several programs designed to help students pursue research and scholarship as undergraduates. This is an especially important opportunity for students aiming for advanced study in graduate or professional schools. Honors students have used such research opportunities as a basis for publishing articles, networking with professors in their disciplines, and receiving national scholarships and academic prizes. The Program provides financial support for research through two programs: Honors Research Mentorships and the summer Undergraduate Research Grants. Contact the Program for information about special curricular options involving undergraduate research.

**Senior Professionals of Illinois State University:** The Honors Program works with an organization of retired professionals in Central Illinois and Senior Professionals of Illinois State University to offer a mentoring experience for Honors students at the University. The organization consists of retired individuals from various professions, including lawyers, judges, university faculty and administrators, business executives, accountants, physicians, dentists, and numerous other professionals. These professionals mentor honors students, helping them make connections in their chosen fields, offering them advice regarding their professional aspirations, providing social opportunities for them, and making scholarships available to them. This is a great opportunity, available only to Illinois State Honors students. Honors students may apply to participate in Senior Professionals Program at any time during their academic careers at Illinois State.

**Individually Designed Curricula:** Honors students may, with the advice of select faculty members and Honors Program advisors, participate in the design of their own educational curricula, reflecting their special interests and goals. This option, called the Faculty Colleague Program, includes individualized curricula for academic majors and minors and for General Education. It allows outstanding students the ability to shape for themselves useful curricular options that might not be available at any other university.

**Presidential Scholars Program:** The Presidential Scholars Program is an exclusive and unique academic program which offers students holding Presidential Scholarships special curricula both in General Education and in their major course of study; opportunities for study abroad; and select service learning experiences. Presidential Scholars in this program enjoy special social activities, such as dinners with the President, and special advisement. For more information, see the section about Academic Scholarships in the Honors section of this catalog.

**Residential Programs for Honors Students:** Students in the Honors Program may choose to live in Honors House in Hewett-Manchester Halls. Honors House offers select social, cultural, and intellectual programs for students. The sense of community found in Honors House makes it a popular residence for Honors students.

**Competitive National and International Scholarships:** The Honors Program maintains information about prestigious national and international scholarships. Many Illinois State students are eligible and can compete successfully for these scholarships. The Program assists students in applying for scholarships such as the Rhodes, Fulbright, Goldwater, Truman, Marshall, and Udall Scholarships, and many others. Students interested should attend scholarship informational workshops scheduled by the Honors Program, and they should contact the Honors Office for further information.

## CONTINUATION REQUIREMENTS

Honors students are required to maintain a minimum cumulative Grade Point Average of 3.30 and are required to complete three hours of Honors credit each semester (excluding summer term).

**Honors Probation:** Students whose cumulative GPA falls between 3.00 and 3.29 will be placed on Honors Probation, which allows them the opportunity to raise their GPA while enjoying the benefits of the Honors Program. Students must earn a minimum GPA of 3.30 each semester they are on Honors Probation and must raise their cumulative GPA to 3.30 within two semesters. First semester freshmen will be placed on Honors Probation if their GPA falls between 2.70 and 3.29 and must also earn a minimum semester GPA of 3.30 for each semester they are on Honors Probation. First semester freshmen have until the end of their fourth semester to raise their cumulative GPA to 3.30. Students who fail to meet these requirements will be dropped from the program.

**Participation Requirements:** Full-time Honors students must complete three credit hours of Honors coursework each fall and spring semester. Part-time Honors students must complete three credit hours of Honors coursework for every 15 credit hours completed during the fall and spring semesters. Students who complete more than three hours of honors credit may use these hours toward the fulfillment of this participation requirement in a later semester. Honors students who complete 24 hours of Honors coursework are exempt from further participation requirements. Students can meet these participation requirements by enrolling in Honors sections of regular courses, Honors Colloquia, Independent Honors Study, Honors Thesis, Undergraduate Research Participation or through an In-Course Honors Contract. Details about applying for In-Course Honors Contracts are available through the Honors Office. All In-Course Contracts are due in the Honors Office no later than the 15th day of the fall or spring semester.

**Suspension for Non-Participation:** Honors students who do not meet the participation requirement for the fall or spring semester will be placed on Honors Suspension for the upcoming semester. Honors students on suspension may not participate in the early registration period and will be assigned to a later registration date. To regain good standing, suspended Honors students must complete three hours of Honors credit during the semester they are on Honors Suspension. Honors students who do not meet this requirement, or who subsequently fail to meet the participation requirement will be dropped from the program and will not be eligible for readmission.

## ACADEMIC HONORS

**Dean's Lists:** Undergraduates who meet high academic standards, as established by the college of their major, are included in a Dean's List issued each semester. Eligible students must complete 12 or more graded hours during the semester. Courses completed after the official end of the semester and courses taken with a CT/NC option will not be counted for this purpose.

The Dean's List for the Colleges of Applied Science and Technology, Arts and Sciences, Education, Fine Arts, and Mennonite College of Nursing will include those students whose grade point averages place them among the top ten percent of those students majoring within the college based on their semester GPA. The Dean's List in the College of Business will include only undergraduate students majoring in business who have completed 12 or more semester hours with an overall semester grade point in the top ten percent, and at least a 3.33 GPA for all courses taken during the semester. Courses completed after the official end of the semester and courses taken with a credit/no credit option will not be counted for this purpose. Students whose major does not place them in one of the six colleges that offer classes and whose semester grade point average is within the top ten percent of the University are identified on the list of the Vice President and Provost.

**Robert G. Bone Scholarship:** Bone Scholarships are the highest academic honor awarded to undergraduates, and many of them are awarded to Honors students. The University each year names 14 outstanding junior undergraduates as Robert G. Bone Scholars. Robert G. Bone was president of Illinois State from 1956 to 1967, and was so highly regarded by the University community that these special scholarships were established to honor his memory. Undergraduates can receive no higher honor from the University than to be awarded the Bone Scholarship. These scholarships recognize superior academic records, broad academic achievement, notable community and campus service, and demonstrated leadership. Students must be nominated during spring semester of their junior year in order to apply for this award, and they must complete a rigorous application process in order to be selected. A university-wide committee, organized by the Honors Program, reviews applications and makes selections.

**Charles W. Bolen Senior Professionals Honors Student Award:** Honors students mentored by Senior Professionals are eligible to apply for the \$1,000 Charles W. Bolen Award. Awards are given each spring based on applicants' involvement with the Senior Professionals Program, academic accomplishments, and campus and community involvement.

## Additional Academic Opportunities

### UNDERGRADUATE TEACHING ASSISTANTS

Undergraduate Teaching Assistantships (UTA) are available in nearly all departments of the University to juniors and seniors who have demonstrated excellence in a particular discipline and high overall scholastic achievement. The purpose of the program is to assist the faculty in the improvement of instruction and to provide UTAs with a valuable learning opportunity.

Undergraduate Research Assistantships (URA) are available in selected departments for students who have

demonstrated excellence in a particular discipline with significant potential in research. The purpose of the program is to work closely with faculty members and to provide students valuable opportunities for research.

The responsibilities and nature of the UTA and URA assignments are determined by the departments and colleges. Some departments provide the opportunity for credit to be earned by the UTA under a General Offerings course (291 Seminar: Undergraduate Teaching Assistants). Three hours is the maximum amount of this credit that may be allowed for graduation. Tuition and fees are assessed in the usual manner for all credit earned in the UTA and URA experiences. Application forms are available in the departmental and college offices.

### UNDERGRADUATE RESEARCH

Research is considered a vital component in the development of undergraduates at Illinois State. All students have the opportunity and are encouraged to participate in scholarly research during their university experience.

Illinois State explicitly views research as more than the traditional concept of expanding basic knowledge, favoring a definition that requires the application of such knowledge in resolving societal problems. Students have the opportunity to work in collaboration with Distinguished Professors and Outstanding University Researchers. As is true for all research, undergraduate students should ensure that any research projects involving living human subjects have been approved by the Institutional Review Board (IRB). Research projects involving living animals require the approval of the Institutional Animal Care and Use Committee (IACUC). Research involving biohazards must be reviewed by the Institutional Biosafety Committee (IBC). If questions exist, discuss this with your faculty supervisor or contact Research Ethics and Compliance, Professional Development Building at (309) 438-8451.

Student research, scholarship, and creative accomplishment are showcased each spring in the Undergraduate Research Symposium sponsored by the Graduate School, Research and Sponsored Programs, Milner Library, and the Honors Program. Students must be enrolled and engaged in research under the direction of a faculty mentor.

The symposium recognizes and promotes student research, scholarship and creative achievement by providing a professional setting in which students present. For more information about the Research Symposium, please visit [www.grad.ilstu.edu/symposium](http://www.grad.ilstu.edu/symposium).

In addition to recognizing and encouraging research at the undergraduate level, this event will also provide professional advancement experience. Presenters at the symposium are eligible to apply for travel reimbursement for research presented at off-campus professional conferences. Funds are available through the Graduate School when matched by department/school funding.

Illinois State is one of only three universities in the State of Illinois that participates in the NSE program. Such exchanges offer students the opportunity for cross-cultural interaction and exposure to geographic, economic and political diversity, as well as personal growth.

## ENGLISH LANGUAGE INSTITUTE

English Language Institute is part of the College of Arts and Sciences. International student immigration and advising are coordinated through International Studies and Programs.

**Intensive English Program at  
English Language Institute (Hudelson Building),  
(309) 438-2072; email: ELI@IllinoisState.edu; or  
Website: www.ELI.ilstu.edu**

Illinois State University's English Language Institute (ELI) provides a special non-degree intensive program (20-hours per week) in English as a Second Language with equal emphasis on both communicative and academic needs for international students who wish to increase their English proficiency for college-level work or for international students on exchange programs. After the first semester, qualifying students can enroll in one regular University class in addition to their ELI program. In general, students enroll at ELI as full-time students for a semester or more.

Although admission to ELI does not guarantee subsequent admission to a degree program at the University, ELI students who attain a satisfactory TOEFL score can be

admitted to a degree program at the University, provided they also meet the other requirements for admission. Hence, international students who do not have the minimum TOEFL score for admission to a degree program are encouraged to attend ELI first to prepare for admission to such a program at the University. Most students live in the University's campus housing, which gives them a chance to interact with students of all backgrounds.

International applicants who meet all other academic criteria for admission but whose TOEFL score is less than 550 (paper-based), 213 (computer-based), or 79 (iBT) may be admitted to a degree program. In such cases, students will be *required* to attend courses at the English Language Institute (ELI) at their own expense and remain in the program until their English proficiency improves to the level required for University enrollment.

For further information, contact English Language Institute, Campus Box 6123; Fax: (309) 438-3031; phone: (309) 438-2072; Website: [www.ELI.ilstu.edu](http://www.ELI.ilstu.edu); or email: [ELI@IllinoisState.edu](mailto:ELI@IllinoisState.edu).

## Preparation for Graduate School

### PREPARATION FOR GRADUATE STUDY

While many graduates proceed immediately to the working world upon receipt of their bachelor's degree, others choose to pursue their education further.

Requirements for admission to advanced study vary according to the profession as well as among the schools. Thus, a student planning to enter a professional school should seek specific admission information from the school he or she plans to attend. Preparation for admission to a professional or graduate school consists of (1) a broad educational experience, (2) courses that meet the specific admission requirements of the school the student plans to attend, (3) major and minor subjects that allow for concentrated study in a field of interest and that provide an alternative career direction if it becomes desirable, (4) relevant work or research experience, and (5) standardized test scores, such as the GRE, GMAT, LSAT, MCAT, etc.

### GRADUATE SCHOOL

**309 Hovey Hall, (309) 438-2583**

The Graduate School offers master's degree programs in most fields in which undergraduate programs are available. Doctoral degree programs are available in Audiology, Biological Sciences, Curriculum and Instruction, Educational Administration, English Studies, Mathematics Education, Nursing, School Psychology, and Special Education. A Specialist in School Psychology degree is offered as well as over 15 graduate certificates.

Students interested in graduate study at Illinois State should consult the *Graduate Catalog* for admission requirements and available programs. It is recommended

that undergraduates contemplating future education take the necessary standardized test in the early part of their senior year. These test scores, along with transcripts, usually are necessary not only for admission but to attain various forms of financial support, e.g., Graduate Assistantships. Further information also may be obtained from departmental/school offices or at [www.grad.ilstu.edu](http://www.grad.ilstu.edu).

## Preparation for Professional Study

### ENGINEERING

Illinois State University Physics Department directs a joint Engineering/Physics program shared with a partner engineering university such as the University of Illinois or Bradley University. Students begin at Illinois State and transfer to their chosen partner engineering university after completing 90 semester hours. Students receive a B.S. in Engineering from the partner university upon completion of their Engineering requirements. They receive a second B.S. in Physics from Illinois State upon transferring back 30 approved hours from the engineering university. Students major in Engineering Physics while at Illinois State.

The Engineering Physics program is listed under the Physics programs section of the Undergraduate Catalog. Engineering Physics majors benefit from small class size and close student-faculty interactions in the Physics Department. This five-year program offers greater depth than the average engineering curriculum and provides students with the additional problem solving and scientific foundations needed to design the rapidly changing technologies of the future. Due to the sequential nature of engineering curricula, it is important that appropriate course selections be made. Interested students should contact the Department of Physics at (309) 438-8756 or [info@phy.ilstu.edu](mailto:info@phy.ilstu.edu) early in their academic careers for help in developing an appropriate plan of study.

### LAW

Law schools do not require any specific courses or undergraduate majors. A committee of the Association of American Law Schools has recommended that the prelaw student keep in mind three basic objectives in planning an undergraduate program: education for articulate oral and written expression; education for greater understanding of human institutions and values; and education to develop the skills of conceptual analysis. The committee has emphasized the need for a broad, liberal education that develops the student's intellectual interests rather than an education directed too pointedly toward later professional training and practice.

Students planning to apply for admission to law school should consult the University's prelaw advisor, Dr. Robert C. Bradley, Department of Politics and Government, (309) 438-8944, for information about the Law School Admissions Test and for assistance in selecting and applying to suitable law schools.

## HEALTH PROFESSIONS

Students who plan to apply to professional school usually major in one of the departments in the College of Arts and Sciences, but they can major in any subject with careful planning. Majors in Biological Sciences or Chemistry usually are elected because several specific preprofessional course requirements can be applied toward a major in these fields. However, a major in any one of a number of other departments in the College is appropriate for many students who have a specific career goal in mind. Economics, foreign languages, mathematics, physics, psychology, sociology, and speech pathology and audiology are several examples of academic areas that have application to specialties within the health professions.

Minimum admission requirements to colleges of medicine, dentistry, and veterinary medicine are discussed below. Further information about admission procedures to these and other health-related professional colleges can be obtained by contacting the preprofessional advisor in the School of Biological Sciences, (309) 438-8252 or by going on line to [www.bio.ilstu.edu](http://www.bio.ilstu.edu).

**Medicine:** Admission requirements of individual medical colleges are set forth in *Medical School Admissions Requirements—United States and Canada*. Orders for this book should be addressed to:

Association of American Medical Colleges  
2450 N. Street, NW  
Publications Department  
Washington, DC 20037-1129

To order by phone: (202) 828-0416, fax (202) 828-1123, or on the Website: at [www.aamc.org](http://www.aamc.org).

Specific course requirements of medical schools in the state of Illinois can be met by taking the following courses:

Chemistry 140, 141, 230, 231, 232, and 233  
Biological Sciences 196, 197  
Physics 108, 109  
Behavior Sciences (9 hours)  
English and Speech (9 hours)  
Mathematics 145, 146 are recommended

Other specific course requirements usually are met by completion of the General Education program. It should be understood that a careful selection of general education and elective courses beyond the specific admission requirements can make the applicant more competitive.

Although a few students are accepted for enrollment in medical college after completion of 90 semester hours, they are distinct exceptions. Most students should anticipate the completion of the requirements for a bachelor's degree with the following approximate timetable:

1. Completion of specific course requirements by the end of the junior year.
2. Medical College Admission Test taken in the spring of or the summer following the junior year.

3. Medical College application process begun in June, preceding senior year.

**Dentistry:** Admission policies of individual dental schools are set forth in *Official Guide to Dental Schools*. Book orders should be addressed to:

American Dental Education Association  
1625 Massachusetts Avenue, NW  
Washington, DC 20036-2212

To order by phone: (202) 667-9433 or on the Website:  
www.adea.org

In addition to the completion of the General Education program, the following courses would meet the minimum specific course requirements for Illinois dental schools:

Chemistry 140, 141; CHE 230, 231; 232-233; 242 or 342.  
Biological Sciences 196, 197  
Physics 108, 109

Most students enter dental school after three or four years of preprofessional studies. The minimum requirement for admission to dental schools in the state of Illinois is two years of college, even though most such applicants are unsuccessful. It is therefore advised that students anticipate at least a three-year program with the following timetable:

1. Completion of biology and chemistry course requirements by the end of the sophomore year.
2. Dental Admission Test taken in April of the sophomore year or by October of the junior year.
3. Dental college application process is begun in the summer preceding the junior year.

**Veterinary Medicine:** Illinois residents find it exceedingly difficult to gain admission to colleges of veterinary medicine outside the state. Students should therefore direct their attention largely to the admission policies of the University of Illinois College of Veterinary Medicine.

Specific course requirements: 5 semesters of biology with laboratory, including 3 semesters of 200- or 300-level courses; 4 semesters of chemistry, including organic chemistry and biochemistry; 2 semesters of physics; 2 semesters of English; 4 semesters of humanities and social sciences. One semester of animal science is recommended. Some two-year students are accepted, but the majority of successful candidates have 3 or 4 years of preprofessional study. Students are therefore advised to plan their program for completion of the requirements for admission to veterinary college by the end of the sophomore year. A four-year program leading to a bachelor's degree should be anticipated in the event that early application to veterinary college is not successful.

# ACADEMIC POLICIES AND PRACTICES

## Degree Requirements

### GENERAL REQUIREMENTS FOR GRADUATION

The following graduation requirements apply to all students. Meeting graduation requirements is the individual responsibility of each student. The student and advisor should check the student's program of courses frequently to ensure that the student is fulfilling the following graduation requirements (all references to hours indicate semester credit hours).

- A. **Total Hours:** The actual hour requirement for an undergraduate degree varies by the program or combination of programs that a student elects. A student must have a minimum of 120 hours of credit acceptable toward graduation. Some courses may not count toward graduation. These restrictions are noted in the course descriptions. Some curricula or combinations of fields require additional hours. If all specified requirements are completed with fewer than 120 hours, a student must elect sufficient additional course work to total at least 120 hours.
- B. **Specific B.A./B.S. Requirements:** There are a variety of baccalaureate degrees. Students graduating from B.A. or B.S. degree programs must meet specific requirements beyond major and other graduation requirements. A student pursuing the B.A. degree will acquire knowledge of a foreign language as demonstrated by successful completion of LAN 115 (or the equivalent). A student seeking a B.A. degree takes LAN 115 in place of Middle Core Quantitative Reasoning. A student pursuing the B.S. degree will complete a three-hour natural science, mathematics, statistics, or technology (SMT) course beyond General Education requirements. (See Degree Programs.)
- NOTE:** All graduates of the College of Arts and Sciences must satisfy a foreign language graduation requirement that may be met by: 3 years of one foreign language in high school or completion of the second semester or higher of college-level foreign language with a passing grade or equivalent proficiency as determined by examination. Students who have successfully completed one semester of college foreign language credit may elect to satisfy this requirement by studying abroad in an approved program in a non-English speaking country. American Sign Language may be used to fulfill this requirement by transfer credit or by proficiency.
- C. **General Education:** There are three ways to complete General Education requirements at Illinois

State University. The first way is to complete Illinois State's General Education Program. The second way is to complete the Illinois Transferable General Education Core Curriculum available through the Illinois Articulation Initiative (IAI). This program, designed for transfer students, is a statewide agreement between participating colleges and universities and some private schools that is designed to facilitate timely degree completion. The third way is to complete a baccalaureate-oriented Associates Degree (A.A. or A.S.) from a regionally accredited post secondary institution. The holder of an A.A. or A.S. degree is admitted to Illinois State University with junior standing and all General Education requirements completed. (see Degree Programs)

- D. **Major-Minor Options:** Each candidate for B.S. or B.A. degrees must complete a major field of study. Completion of a second major, a minor, or a second minor is optional unless specified by the student's major. A teacher education student who is a candidate for a B.S., B.A., B.S. in Ed., or B.M.E. degree must complete professional education requirements and a major approved for teacher education. Some teacher education programs require the completion of requirements for a second teaching field. A student may count no more than nine hours from a major toward a minor within the same department or school. This policy applies to both first and second majors and minors.
- Note:** Students completing requirements for two majors concurrently are eligible to receive only one degree. The degree awarded is based on the degree corresponding to the primary major. One diploma is issued to the student upon completion of both majors and all other degree requirements.
- E. **Senior College Hours:** The senior college hours (courses numbered 200 or above) must total at least 42 hours. Coursework transferred from other colleges and universities is not counted as senior college credit if freshmen and sophomores are regularly permitted to enroll in such work. No credit from two-year colleges may be counted as senior level.
- F. **Grade Point Average:** The grade point average for all courses taken at Illinois State University must be 2.00 (C) or higher. In addition, the student must have a grade point average of 2.00 (C) (or higher as required by certain programs) in the courses required in the major, and the minor if the student has a minor.
- G. **Removal of Incompletes:** A student may not graduate with incomplete grades. Each Incomplete grade (I) must be removed at least six weeks before December or May graduation, or two weeks before August graduation.

- H. **Residence Requirements:** Unless otherwise specified in a specific program, at least 30 of the last 60 hours completed toward the baccalaureate degree must be earned at Illinois State.
- I. **Time Limit for Courses as Prerequisites:** Because disciplinary knowledge advances and course content changes as a consequence, some courses taken seven or more years prior to an advance registration period will not automatically be accepted as prerequisites for other courses. When a department or school determines that applicability of a course will lapse, it will designate this in the prerequisite listing as “taken within x years.” For example, for MAT 146, the prerequisites might read “C or better in MAT 145 taken within 10 years required.”
- J. **Global Studies Requirement:** Every student graduating from Illinois State University must have successfully completed a course designated as a course in the cultures and traditions of societies or peoples from Asia, the Middle East, Africa, Latin America, or Indigenous Peoples of the World. Such designations are located in course descriptions.
- K. **Professional Practice and Independent Study:** A student may count no more than 16 hours of professional practice courses (198, 298, 398) toward graduation. Some programs allow fewer than 16 hours. A student may count no more than 6 hours of independent study (287) credit toward graduation.

## GRADUATION PROCEDURES

**Application for Graduation:** During the early part of his or her senior year, the student must submit an Undergraduate Application for Graduation to Student Accounts, Campus Box 1210, Normal, IL., downloaded from the following website address: [IllinoisState.edu/icampus](http://IllinoisState.edu/icampus). Each student should apply for graduation on or before the date specified in the Office of the University Registrar Calendar found at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu). The student pays a \$25 graduation fee when applying for graduation, unless the fee is covered by an approved scholarship.

**Academic Progress Summary:** The Academic Progress Summary (APS) is an assessment of the undergraduate student's academic progress toward completion of requirements for the bachelor's degree. This summary may be requested by the student with a photo I.D. at the University Registrar Service Center, 107 Moulton Hall, Campus Box 2202 or by viewing *Progress Towards My Degree* on iCampus.

For those programs requiring special audit considerations, a senior evaluation will be prepared after the student has submitted the Undergraduate Application for Graduation.

To determine specific program requirements (in addition to the general requirements for graduation stated above), students should consult the following sections of the *Undergraduate Catalog*: (1) the General Education requirements; (2) the specific requirements for the major and minor fields of study; and, if the student seeks teacher certification, (3) the University-wide Teacher Education program requirements in the *Undergraduate Catalog*.

**Double Majors:** Students completing requirements for two majors concurrently are eligible to receive only one degree. The degree awarded is based on the degree corresponding to the primary major. One diploma is issued to the student upon completion of both majors and all other degree requirements.

**Commencement:** Degrees are conferred and diplomas awarded after the close of each semester and the summer session. Commencement exercises are held in December and May at the end of the semester. Undergraduate students completing degree requirements during the fall semester participate in Commencement exercises in December; students completing degree requirements during the spring semester or at the close of the summer session following May Commencement may participate in Commencement exercises in May. Undergraduate students who are eligible to graduate and want to walk across the stage in their commencement ceremony must check YES on the Undergraduate Application for Graduation and submit it by the published deadline. An application must be on file and the graduation fee paid by the deadline to participate in the commencement ceremony. **Note:** Students participating in Commencement will walk with the college in which their primary major resides.

For more information regarding Commencement, please visit the Commencement Website at [www.commencement.ilstu.edu](http://www.commencement.ilstu.edu).

**Degrees with Honor Distinction:** A student must have completed at least 50 semester hours at Illinois State University to be eligible for a degree with honor distinction. Students who have an accumulated GPA of 3.90 through 4.00 are graduated summa cum laude; those with a GPA of 3.80 through 3.89 are graduated magna cum laude; and those with a GPA of 3.65 through 3.79 are graduated cum laude. Diploma and transcript notations of graduation with cum laude, magna cum laude, and summa cum laude honors are based on the cumulative GPA after the student's final graded semester.

**Honor Distinction at Commencement:** In order to be recognized with an academic honor (summa, magna, cum laude) distinction at Commencement, students must have completed at least 50 semester hours at Illinois State University and have a qualifying GPA (refer to Degrees with Honor Distinction), both based on the semester prior to Commencement. For example, students graduating in May or August must have both hours and GPA completed in the previous fall semester. Students meeting these requirements wear an honor cord as part of their academic regalia at Commencement, and their names will appear in the Commencement program with the honor denoted. Diploma and transcript notations of graduation with cum laude, magna cum laude, and summa cum laude honors are based on the cumulative GPA after the student's final graded semester.

**Honors Program Designation at Commencement:** The following Honors Program designations are recognized in the Commencement program: Honors Program Scholar, Presidential Scholar, Honors Program Scholar with Distinction, and Departmental Honors.

Students are recognized for these awards in the Commencement program if they fulfill individual designation requirements; the cumulative GPA from the semester prior to graduation is used to evaluate eligibility for the designations as well as course and hour requirements that have been completed or are in progress. Students graduating in May or August who participate in May Commencement are evaluated based on the cumulative GPA at the end of the previous fall semester; students graduating in December who participate in the December Commencement are evaluated based on the cumulative GPA at the end of the previous summer session.

Transcript and diploma (as applicable) notations of these designations are based on the cumulative GPA after the student's final semester and the successful completion of designation requirements.

Students who have been awarded the Robert G. Bone Scholarship are also recognized in the Commencement program.

**Diplomas:** Diplomas are issued to students after completion of all degree requirements, including major(s), minor(s), general education, professional education, if

applicable, and other specific degree requirements. Students completing requirements for two majors concurrently are eligible to receive only one degree. The degree awarded is based on the degree corresponding to the primary major. One diploma is issued to the student upon completion of both majors and all other degree requirements. Majors are not printed on the diploma; however, all majors and minors are printed on the official transcript.

## General Academic Policies

### COURSE REGISTRATION AND WITHDRAWAL

**Course Registration:** Students at Illinois State University register through the iCampus Portal at [www.icampus.ilstu.edu](http://www.icampus.ilstu.edu). Help with registration may be obtained at the University Registrar Service Center, 107 Moulton Hall, or by calling (309) 438-2188. For office hours visit the Website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu).

A student at Illinois State University is responsible for following registration procedures to assure valid registration for courses. Work taken in a given session must be registered for in that session. A student may not attend a class for which they are not properly registered. A correct registration is each student's individual responsibility. The University reserves the right to void the registration of any student who becomes ineligible for enrollment.

Registration may be accomplished during the advance registration period or the additional registration periods prior to the start of the semester. New freshman may register during the summer Preview Program and new transfer students may register during the Transfer Days Program. Students are encouraged to register during these programs because of the wider selection of courses open to them at that time. They may also register just before the opening of the semester. For advance registration, the date and time of registration will be available on the iCampus Portal approximately one week prior to advance registration.

**Course Registration Changes:** A student who is already registered for a particular semester and desires to change his or her schedule before the deadline for doing so should follow the instructions available on the Registrar's Website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu).

**Withdrawal Policy—Dropping a Course or Courses:** Students are strongly advised to complete all courses in which they enroll and are encouraged to avoid withdrawing from any course after the program change period unless absolutely necessary.

The following policy applies to students who drop a course or courses but maintain an enrolled status within the University: A student may withdraw from a course during the program change period without the withdrawal being shown on the transcript. (A student should consult the Registrar's website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu) to obtain specific dates.)

After the tenth day of classes, but prior to the end of the eighth week of classes during any regular semester, a student with photo identification may withdraw from a full semester course by reporting to the the University Registrar Service Center, 107 Moulton Hall. Course withdrawal deadline information can be found on the Registrar's website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu).

A student should consult the University Registrar Service Center for questions regarding refunds and for specific withdrawal dates during any instructional term. For courses taken during a term lasting less than a regular semester, a proportional withdrawal period will apply.

A grade of F will be given to students who (1) fail to withdraw officially from a course in compliance with the above procedure, or (2) register for a course but do not complete course requirements.

Upon the written recommendation of a licensed physician or clinical psychologist, or in other unusual circumstances, a student may be granted permission to withdraw officially from a course for medical, psychological, or other similar reasons after the official withdrawal period upon receiving approval from the University Registrar, or his designee. If approval is granted, a grade of WX will be awarded.

**Withdrawal Policy—Dropping All Courses:** The following policy applies when a student drops all courses in which he or she is enrolled, which is known as withdrawal from the University. Students are strongly advised to complete courses in which they are enrolled and not to withdraw from the University unless absolutely necessary.

Before the end of the twelfth week of classes during any regular semester, a student reports to the University Registrar Service Center in 107 Moulton Hall or writes to the Office of the University Registrar at Campus Box 2202 to withdraw from the University.

If a student's written request to withdraw from the University is granted, all grades will be assigned in the same manner and under the same provisions as the regular course withdrawal guidelines. The instructor of each course assigns a WX or letter grade as appropriate depending on the date and circumstances of withdrawal. If medical or other reasons make it impossible for the student to follow the usual procedures, a letter requesting withdrawal that explains the situation, with appropriate documentation and the student's signature, will be sufficient. Withdrawals made by mail are addressed to Office of the University Registrar, Illinois State University, Campus Box 2202, Normal, IL 61790-2202, or by fax to (309) 438-8652.

Regardless of the circumstances of withdrawal, the student is responsible for returning any laboratory equipment and library materials and paying for any parking fines. The student must contact the University Housing Services to obtain clearance from room and board obligations and to arrange for vacating the residence hall room. The student should arrange with the Financial Aid Office

to place any scholarship on leave or cancel it and make arrangements for future financial assistance. Arrangements for payment of loans must be made in the Office of Student Accounts. Consult the Office of Student Accounts for information on refunds.

A grade of F will be given to students who (1) do not attend their courses but fail to withdraw from the University before the specified final withdrawal date, and to students who (2) register for a course but do not complete course requirements. In unusual cases, exceptions may be granted by the University Registrar.

**Repetition of Course(s) Requirements:** If a student completes a course, or drops a course after the tenth day of classes receiving a grade of WX, he or she may repeat that course once. For students receiving a letter grade of B, C, D, or F, the course repetition must occur at Illinois State University and may not be taken under the credit/no credit (pass/fail) option.

Students seeking to repeat a course a second time (a third enrollment) must obtain permission from their academic advisor who will submit a substitution waiver form to the University Registrar for final approval. When a course has been repeated at Illinois State University, the most recent grade (A, B, C, D, F) that the student earns will replace the previous grade in the cumulative GPA calculation. A grade of WX will not replace the previous grade.

The previous grade(s) will not be removed from the student's transcript, and the credit hours from only the last attempt can be used toward meeting minimum hourly requirements. Students repeating a course to improve their GPA should be aware that many professional and graduate schools recalculate GPAs to include all courses attempted.

**Cross-listed Course Policy:** Cross-listed courses are offered by more than one department or school, but treated as one course for credit purposes. A cross-listed course will be considered as one course regardless of the department or school through which the student registered for the course. This is a general rule that applies to all cross-listed courses taken for any purpose.

**Course Load Requirements:** A full-time undergraduate student carries between 12 and 17 hours. For enrollment verification purposes, 12 hours is considered full-time for undergraduate students. A student wishing to carry more than 17 hours in a semester may seek permission to do so from the chairperson or director of his or her major department or school (or their designees). The granting of this permission will depend on the student's scholastic record. A freshman may not carry over 17 hours during his or her first semester.

A student considering enrolling in any classes, including extension or correspondence, at another college or university with concurrent registration at Illinois State University should consult with his or her advisor.

**Summer Academic Opportunities:** The University is operated on the semester plan and provides, in addition

to its fall and spring semesters, a summer session with courses of varying lengths, and a variety of short-term offerings. Courses are also offered off campus. Limited student teaching and internship positions are available during the summer session. Prospective students may obtain information on summer course availability, and other information for the session at the Registrar's website. Summer session students should refer to the *Undergraduate Catalog* and *Graduate Catalog* for academic requirements. Admission to the University can be arranged on a summer only basis. Further information can be obtained by writing to the Office of Admissions, Illinois State University, Campus Box 2200, Normal, IL 61790-2200, or by calling (800) 366-2478.

**Evening and Off-Campus Classes:** In addition to courses offered during the regular school day, evening and weekend classes are scheduled both on campus and off campus. For courses offered by Illinois State University, no differentiation is made between credits earned on campus and off campus. Inquiries concerning off-campus classes should be directed to the Office of the Provost, (309) 438-7018. Non-credit workshops, seminars, and conferences are scheduled by the Illinois State Conferencing Unit, (309) 438-2160.

## FINAL EXAMINATIONS

Students who have no more than two final examinations on the same day will be expected to take these examinations as scheduled. A student concerned about having more than two examinations scheduled for the same day should address this concern prior to finals week: (1) The student brings a photo ID to the University Registrar Service Center, Moulton Hall 107, to request a form verifying that more than two finals are scheduled on the same day, and (2) the student then shares this form with the instructor when requesting an exam be moved to a different date.

Students who are unable to take an examination due to emergencies such as illness or injury, or religious reasons should notify their instructor as soon as possible (in advance, in the case of religious reasons) and make acceptable alternative arrangements. If an instructor does not consider an excuse for missing a scheduled examination for the student, the student may appeal the action to the department chair.

## UNIVERSITY GRADING SYSTEM

**Course Grades:** Instructors assign a grade in each course for which the student is registered. The course instructor is responsible for correcting any error in grading.

The grade point equivalents are 4 for A, 3 for B, 2 for C, 1 for D, and 0 for all other grades. The 0 value of F as well as WF is computed in the student's grade point average (GPA). The 0 value of grades I, AU, CR, CT, NC, and WX is not computed in the student's GPA. University grades assigned undergraduate courses are:

- A Excellent
- B Good
- C Satisfactory

- D Poor, But Passing
- F Failing—Assigned to students who are (1) enrolled in a course all semester but fail to earn a passing grade, or who (2) stop attending a class without officially withdrawing
- WX Withdrawal—Assigned to students who officially withdraw from a course before the quality of work can be determined and before the dates specified in the withdrawal policy
- I Incomplete
- AU Audit
- CR Credit—Assigned to students who do satisfactory work in a course which is offered on a Credit/No Credit basis only
- CT Credit—Assigned to students who earn an A, B, or C grade in a course which they have elected to take under the Credit/No Credit (CT/NC) option
- NC No Credit—Assigned to students who (1) do not do satisfactory work in a course which is offered on a Credit/No Credit (CR/NC) basis only and to students (2) who do not earn an A, B, or C grade in a course that they have elected to take under the Credit/No Credit (CT/NC) option

**Incomplete:** An incomplete (I) will be assigned to a student who is doing passing work but finds it impossible, because of reasons beyond her or his control (such as illness), to complete the required work by the end of the term. The student must have attended class to within three weeks of the close of the semester or to within one week of the close of the summer session.

The instructor may specify the time by which the required work must be completed, which may be no later than the final class day of the corresponding term of the following academic year. For graduating students, an incomplete grade must be removed at least six weeks before December or May commencement or two weeks before August graduation. **Students will not be allowed to graduate with Incompletes on their record.**

When the Incomplete is assigned, the student, faculty member, and the department chairperson or school director must sign an Incomplete Permit form. The form will specify the date by which the work must be completed, the default grade (A, B, C, D, or F) that will be assigned if the work is not completed by the specified date, and the nature of the required work. If the instructor fails to file the appropriate grade change by the specified date, the Incomplete will lapse to the default grade specified. Exceptions to this policy may be granted by the University Registrar.

**Auditors:** An auditor does not participate in the activity of the class but is expected to attend regularly. A student may register as an auditor in a class or classes if space is available. An Audit (AU) designation will appear on the student's transcript when the instructor certifies that the student has attended the class on a regular basis. If the student has not attended regularly, a WX will be recorded on the tran-

script after the instructor has notified the Registrar's Office in writing that the student has not attended regularly. To audit, a student must obtain a Request for Auditor Registration from the University Registrar Service Center or download it at [www.registrar.ilstu.edu/forms](http://www.registrar.ilstu.edu/forms), have the instructor sign it and present the form at the University Registrar Service Center. Students must register to audit a course by the tenth day of classes in the semester, with any exception having the approval of the chairperson of the department or director of the school in which the course is offered and the University Registrar. There is a fee for auditing. Audited courses are considered part of the student's total load.

**Credit/No Credit Courses:** Certain courses in the University are offered on a Credit/No Credit (CR/NC) basis only. For these courses, students receive a grade of CR (Credit) or NC (No Credit). The offering of a particular course on a CR/NC basis only must be approved in advance by the Office of the Provost.

**Credit/No Credit Student Option (commonly called Pass/Fail):** An undergraduate student (except a first-semester freshman) who is not on academic probation may choose to register in some courses under the option that allows the student to be graded on the basis of CT (Credit) or NC (No Credit) rather than on the basis of A, B, C, D, or F grades.

This CT/NC option is designed to encourage students to enroll in courses they otherwise would not take. Some courses, therefore, including those in a student's major or minor, may not be taken on the CT/NC option. Exceptions include courses in the student's major or minor field that are offered only as credit/no credit (CR/NC) courses. No more than six semester hours of work under the CT/NC option may be taken each semester, with a maximum of 25 semester hours under the CT/NC option presented for graduation. Although an entry of CT (credit earned under the option) or NC (no credit earned under the option) will be entered on the student's record, these entries are not used in computing the student's GPA.

No Inner Core or Middle Core course in the General Education Program may be taken under the CT/NC option.

Students who plan to enter graduate or professional schools should exercise caution in taking courses under the CT/NC option because courses completed on a pass-fail basis may adversely affect graduate admission opportunities. Such students should consult their academic advisor prior to taking courses on a pass/fail basis.

A grade of CT is recorded when the grade submitted by the instructor is A, B, or C. A grade of NC is recorded when the grade submitted by the instructor is D or F.

Students electing the CT/NC option should do so as part of the regular registration process. Students may not elect the option after the tenth day of classes in the semester. Students who have elected the CT/NC option may return to the letter basis of grading before the last date for withdrawing from a course, as specified on the Registrar's Website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu).

**Grade Point Average:** To be eligible for graduation, a student must have a minimum grade point average (GPA) of 2.00 (C) in all courses taken at Illinois State University for which grades of A, B, C, D, F, or WF are assigned. Failures are considered in the total number of semester hours taken in computing the GPA. The table below illustrates how grade points are counted to determine the GPA.

Grade Course	Grade	Sem. Hrs. Enrolled	Sem. Hrs. Earned	Sem. Hrs. For GPA	Grade Points
POL 105	D	3	3	3	3
BSC 145	CT	2	2	0	0
COM 110	A	3	3	3	12
MUS 139	I	1	0	0	0
CHE 102	B	3	3	3	9
KNR 133	WX	1	0	0	0
IDS 106	NC	1	0	0	0
Totals		14	11	9	24

The GPA is computed by dividing grade points earned by semester hours counted for GPA. In the case above, a GPA of 2.66 is calculated by dividing 24 (total grade points) by 9 (semester hours for GPA). Grades of WX, WP, CT, CR, I, and NC do not affect the GPA.

**Academic Progress Alert:** The Academic Progress Alert is an assessment of the undergraduate student's performance in each full-semester, 100-level course in which the student is enrolled. This assessment is available through the iCampus Portal at [IllinoisState.edu/icampus](http://IllinoisState.edu/icampus) at the end of the first half of the semester.

## ADDITIONAL ACADEMIC REQUIREMENTS

**Class Attendance:** The attendance regulation of the University is based on two principles. First, students are expected to attend class regularly; and second, students are primarily responsible to the instructor in matters pertaining to class attendance. Every student will be held responsible for class attendance and successful completion of academic work. Attendance regulations are intended to encourage student maturity and are based on the assumption that academic success is the student's primary goal in college.

Illinois State University deeply values and supports the required participation of students in Sanctioned University Activities. Instructors will provide such students with reasonable accommodations for completing missed exams, quizzes, and the like. The Office of the Vice President of Student Affairs will determine Sanctioned University Activities. It is the responsibility of the student to (1) inform instructors of scheduled absences in advance, (2) where possible and as soon as possible, provide a schedule of all semester absences, and (3) arrange to complete missed classroom work. Ultimately, students are responsible for material covered in class. In the event of disagreement regarding this policy, the issue will be directed to the appropriate Associate Vice President for Academic Affairs for arbitration.

The University will accommodate, within reason, students whose religious obligations require absence from class.

Students who are unable to attend class or take examinations for religious reasons should consult their instructors in advance about alternative arrangements.

**Class Standing:** Students in a bachelor's degree program are classified as freshmen, sophomores, juniors, and seniors. A student must have completed 30 semester hours to be classified as a sophomore, 60 hours to be classified as a junior, and 90 hours to be classified as a senior. Students not working toward a degree at Illinois State are listed as Unclassified Students.

**75 Hour Limit on Undeclared Student Status:** Illinois State University requires all students to have a declared major upon completion of 75 hours of college-level coursework, including transfer credit. At 75 hours earned, students who are undeclared will have their next semester's schedule dropped unless they successfully complete an appeal process through the Office of Enrollment Management and Academic Services. To be eligible for financial aid and in order to be consistent with federal financial aid guidelines, Illinois State students with 75 hours or more must be enrolled in a major program leading to a degree. For further information on this policy and on finding and declaring a major, see [FindYourMajor.IllinoisState.edu](http://FindYourMajor.IllinoisState.edu).

**Major Field(s) of Study:** Students may select a major field of study at the time of admission unless the field they choose has special admissions standards. Students who are undeclared majors are encouraged to select a major field of study as soon as possible. The major and minor fields of study available at Illinois State are described later in this catalog. A student may complete the requirements for two majors, both of which will be identified on the student's transcript provided all requirements are completed in both majors and the degree is awarded. When a student double majors, the student indicates only one major for purposes of registration. Unless otherwise specified in a particular program, students may use a specific course to meet requirements for a major and a second major. **Note:** Students completing requirements for two majors are eligible to receive one degree. The degree awarded is based on the degree for the primary major. One diploma is issued to the student upon completion of both majors and all other degree requirements.

**Change of Primary or Secondary Major:** A student wishing to enter a second major or change majors must consult the chairperson of the department or director of the school (or their designees) offering the major.

**Program Specific Admission Criteria:** Illinois State University regulates admission to designated programs when the number of students seeking admission exceeds the available educational resources of the department or school. Supplementary selection criteria for admission may need to be met for specific majors. These criteria may be based on scholastic achievement, prerequisite course work and/or may consist of auditions, portfolios, work experience, etc. Selection criteria can be obtained from [FindYourMajor.IllinoisState.edu](http://FindYourMajor.IllinoisState.edu), the Office of Admissions (for new students) or the intended major department or school advisor.

**Dismissal from Major:** A student who is academically dismissed from the University will be dropped automatically from his or her major. The student dropped from the major will be classified as undeclared and will receive academic advisement from the University College Academic Advisement Center. In order to declare a major in a department or school after being dropped, the student must be accepted by the department or school in which he or she desires to be a major.

**Minor Field(s) of Study:** Students often elect a minor field of study. A student may elect to complete the requirements for two minors, both of which will be identified on the student's transcript upon receipt of degree. A student wishing to enter a minor, second minor or change minors consults with the academic department(s) offering the minor. Unless otherwise specified in a particular program, students may use a specific course to meet requirements for a minor and a second minor.

**Certification Programs:** Students who fail to maintain the specific grade point average required by their teaching or other certification program may be dismissed from that program. At the option of the department or school, students dropped from the program may pursue a degree in their major or be classified as undeclared and will receive academic advisement from University College Academic Advisement. To become a candidate for a certification program after being dropped, students must be accepted by the department or school in which they desire to pursue a certification program.

**Academic Good Standing:** To maintain academic good standing, a student must achieve a minimum cumulative GPA of 2.00. The number of semester hours completed includes all college work done by the student. However, only the grades earned at Illinois State are used in computing the GPA.

“Academic Good Standing” status is necessary for continued enrollment in the University and may be necessary for eligibility to serve on various University committees and for participation in some co-curricular activities. Academic Good Standing status does not guarantee admission to, or retention in, specific departments, schools, or programs. Information concerning admission to and retention in specific programs is listed in this *Undergraduate Catalog* under the appropriate department, school or program descriptions.

For satisfactory progress for financial aid purposes, see Satisfactory Progress Policy in this catalog.

**Academic Warning:** Each semester (fall and spring), the University identifies students that appear to be in jeopardy of being placed on academic probation. These students will be notified that they are on Academic Warning. Students on Academic Warning can contact the Julia N. Visor Academic Center for guidance on programs and services geared toward improving their academic standing. Information about Academic Warning can be obtained from Julia N. Visor Academic Center,

12 Vrooman Center, Campus Box 4070, at EMAS.IllinoisState.edu, or at (309) 438-7100.

**Academic Probation:** When a student's cumulative grade point average falls below a 2.00 on a 4.00 scale, they are placed on academic probation. Students on academic probation are required to participate in Project Success - a program designed to assist students in returning to good academic standing. Information about Academic Probation and Project Success can be obtained from the Julia N. Visor Academic Center, 12 Vrooman Center, Campus Box 4070, at EMAS.IllinoisState.edu, or at (309) 438-7100.

**Academic Dismissal:** At the end of any semester, except for summer session, when a student's cumulative grade point average is below a 2.00 a second or subsequent time, he or she is dismissed from the University.

**Academic Reinstatement:** Students dismissed from the University may petition the Reinstatement Committee for permission to continue. Petitions must be received by the appropriate deadlines to be considered. Additionally, students can access petition information via the iCampus Portal at IllinoisState.edu/icampus or by visiting the Office of Enrollment Management and Academic Services Website at EMAS.IllinoisState.edu. Students who are reinstated and elect to postpone their enrollment for a future term must reapply for that term.

Only students who have extenuating circumstances or errors in their academic records should plan to petition for reinstatement for the semester following their dismissal.

**Former Illinois State Students Seeking Reinstatement After Dismissal:** Students wishing to return to Illinois State after being away for one or more semesters must (1) meet university-wide readmission requirements and deadlines; and (2) be reinstated by the University Reinstatement Committee. Application procedures, reinstatement information and deadlines can be found at the Office of Admissions Website at IllinoisState.edu/admissions. Students who are reinstated and elect to postpone their enrollment for a future term must reapply for that term. Reinstated students are required to participate in Project Success - a program designed to assist students in returning to Academic Good Standing.

If a student attends any other higher educational institution after dismissal from Illinois State, he or she must indicate such attendance on the readmission application and supply an official transcript from the other school(s). Students must have earned a C average (2.00/4.00) or higher for all course work taken since last attending Illinois State and have been in good academic standing at the last institution attended as a full- or part-time student.

Repeated failures to do satisfactory work may result in permanent exclusion from the University.

**New Start Policy:** Students who leave Illinois State in a degree program with less than a 2.00 cumulative grade-point average (GPA) may be considered for readmission through the New Start Policy. Applicants admitted through this poli-

cy will begin with a new cumulative GPA calculated from the point of their reentry.

Students may be considered for readmission through the New Start Policy after being away from the University for one full year (Example: A student who last attended the University the Fall 2009 term cannot reenroll through the New Start Policy until the Spring 2011 term.) and only when the requirements of one of the following New Start categories are met:

1. **Non-Traditional Student Option:** Former Illinois State students at least 25 years of age may be considered for readmission through this option. If they have attended any college (including Illinois State) in the three calendar years preceding re-enrollment at Illinois State, they must have achieved at least a 2.50 GPA for that college work. Transfer credit will be evaluated and appropriately awarded.
2. **Veterans' Option:** Students who complete at least a one-year tour of duty and present a discharge for reasons other than dishonorable, and whose first attendance at a college or university after discharge is at Illinois State, may be considered for readmission through this option.
3. **Community College Transfer Option:** Former Illinois State students who earned 60 or fewer hours at Illinois State prior to enrolling at a community college and who subsequently earn at least 24 hours after being away for one full year and earn a currently accepted associate degree (A.A. or A.S.) from a community college with at least a 2.50 GPA may be considered for readmission through this option. Transfer credit will be evaluated and appropriately awarded.

The application process includes the submission of the application for admission, official academic transcripts from all schools attended since leaving Illinois State, and a statement describing your potential to do well academically as described on the application. In some cases, additional supporting documents may be requested from the University in order to complete your application. NOTE: Meeting the minimum requirements does not guarantee re-admission. Students are strongly encouraged to file an application as soon as possible during the priority-filing period for the term for which they are applying. Application deadlines are posted on the Admissions Website at [IllinoisState.edu/admissions](http://IllinoisState.edu/admissions) and on the application for admission.

Students may exercise the New Start Option only once. Such students will have "New Start" indicated on their transcript. New Start will affect only the cumulative GPA. All grades earned at Illinois State, regardless of when earned, will be used in the calculation of the major GPA, the minor GPA, and graduation honors. Students who are admitted through the New Start Policy will be admitted on academic probation. Students who reenter under the New Start Policy must follow the *Undergraduate Catalog* in effect at the time of reentry. To be eligible for graduation, a student must earn at least 30 semester hours at Illinois State University after exercising New Start.

## ADMINISTRATIVE WITHDRAWAL

In the rare event that a student exhibits serious psychological/medical problems that rise to the level of a direct threat (high probability of substantial harm to self, others, or property), the University will make an individualized and objective assessment of the student's ability to safely participate in University classes and activities and/or to reside in University housing. In such instances, the University reserves the right to take such actions as may be required including asking a student to withdraw or administratively withdraw a student from the University community. A student may also be restricted from University property and/or participation in University activities as a condition of the administrative withdrawal.

## ACADEMIC INTEGRITY

Students are expected to be honest in all academic work. A student's name on any academic exercise (theme, report, notebook, paper, examination) shall be regarded as assurance that the work is the result of the student's own thought and study. Offenses involving academic dishonesty include, but are not limited to the following:

- a. Cheating on quizzes or examinations occurs when any student is found using or attempting to use any book, paper, or other article, or assistance from any individual intending to deceive the person in charge of the quiz or examination with reference to his or her work. No books, notes, papers or related articles shall be used at any quiz or examination unless specifically authorized by the person in charge. Conversation or other communication between individuals in examinations and quizzes is forbidden except as authorized by the instructor.
- b. Computer dishonesty is the unacknowledged or unauthorized appropriation of another's program, or the results of that program, in whole or in part, for a computer-related exercise or assignment.
- c. Plagiarism is the unacknowledged appropriation of another's work, words, or ideas in any themes, outlines, papers, reports, or computer programs. Students must ascertain from the instructor in each course the appropriate means of documentation. Submitting the same paper for more than one course is considered a breach of academic integrity unless prior approval is given by the instructors.
- d. Grade falsification is any attempt to falsify an assigned grade in an examination, quiz, report, program, grade book, or any other record or document.
- e. Collusion occurs when students willfully give or receive unauthorized or unacknowledged assistance on any assignment. This may include the reproduction and/or dissemination of test materials. Both parties to the collusion are considered responsible. No individual may substitute for another in any quiz or examination.

## PROFICIENCY AND PLACEMENT EXAMINATIONS

Students at Illinois State University may receive credit by examination through the following programs: College Level Examination Program (CLEP) General Examinations, Departmental Proficiency Examinations, CLEP Subject Examinations, and the Advanced Placement program. Students and prospective students are advised to plan their course work and examination attempts carefully because they may not receive credit by examination for a course in which they have been enrolled on the tenth day of classes.

**CLEP General Examinations:** Illinois State University grants credit by examination toward General Education requirements for the College Level Examination Program under the following guidelines:

1. A student may receive credit for a maximum of 18 semester hours credit through CLEP General Examinations.
2. A student who desires to take the CLEP General Examinations should do so before enrolling for classes at the University.
3. Credit earned through the CLEP General Examinations shall count toward General Education and graduation requirements only. A student may not use the CLEP General Examinations to raise grades or remove failures in courses already taken. All credit for CLEP General Examinations shall be considered credit at the 100-level.
4. A student who is awarded credit in one or more areas of the General Examinations should consult with his or her advisor to select other appropriate basic and advanced courses.
5. A student may not receive credit for both an area of the CLEP General Examinations and previously earned course credit in the same area. For example, a student who earned course credit in the Fine Arts (Art, Music, Theatre) may not receive credit for a General Examination in the Fine Arts area. Also, credit will not be awarded for the General Examination areas in which credit is earned through Departmental Proficiency Examinations, Advanced Placement Examinations, or CLEP Subject Examinations.
6. Students may take the CLEP General Examinations at Illinois State at times scheduled by the University Testing Office or at any CLEP Open Test Center. Students may contact the University Testing Office, 346B Fell Hall, Campus Box 4060, (309) 438-2100, for further information. Students who take the CLEP examinations are responsible for the cost of the examination.
7. FOR STUDENTS WHO HAVE TAKEN THE CLEP GENERAL EXAMINATIONS PRIOR TO JULY 1, 2001. A student will be awarded 6 semester hours credit toward graduation and General Education requirements for a score of 570 on the Humanities, a score of 610 on the Natural Sciences, and a score of 550 on the Social Sciences and History general examinations passed. Credit will be awarded as follows:

### Humanities

3 hours	Fine Arts	(Outer Core)
and 3 hours	Language in the Humanities	(Middle Core)

### Natural Sciences\*

3 hours	Biological Sciences	(Inner Core)
and 3 hours	Physical Sciences	(Inner Core)

### Social Sciences and History

3 hours	Individuals and Society	(Middle Core)
and 3 hours	U.S. Traditions	(Middle Core)

\*If CLEP credit is received in both Biological and Physical Sciences the General Education lab requirement will be waived.

**NOTE:** Credit is not available for the English Composition or Mathematics General Examination.

8. FOR STUDENTS WHO HAVE TAKEN THE CLEP GENERAL EXAMINATIONS JULY 1, 2001, OR AFTER. A student will be awarded 6 semester hours credit toward graduation and General Education requirements for a score of 56 on the Humanities, a score of 65 (56 after May 22, 2006) on the Natural Sciences, and a score of 56 on the Social Sciences and History general examinations passed. Credit will be awarded as follows:

### Humanities

3 hours	Fine Arts	(Outer Core)
and 3 hours	Language in the Humanities	(Middle Core)

### Natural Sciences\*

3 hours	Biological Sciences	(Inner Core)
and 3 hours	Physical Sciences	(Inner Core)

### Social Sciences and History

3 hours	Individuals and Society	(Middle Core)
and 3 hours	U.S. Traditions	(Middle Core)

\*If CLEP credit is received in both Biological and Physical Sciences the General Education lab requirement will be waived.

**NOTE:** Credit is not available for the English Composition or Mathematics General Examination.

Students who have taken CLEP General Examinations at another institution may request that scores be submitted to Illinois State by contacting CLEP, P.O. Box 6600, Princeton, NJ 08541-6600 or telephone (609) 771-7865.

**CLEP Subject Examinations:** In addition to the previously described opportunities provided by the CLEP General Examinations, several departments or schools grant credit by examination in specific subject areas covered by CLEP Subject Examinations. Courses approved for credit under this program are HIS 101 and 102, MAT 145 and 146, POL 105 or 106 (includes U.S. Constitution only), PSY 111, and SOC 106. The University Testing Office, 346 Fell Hall, Campus Box 4060, (309) 438-2100 provides information about test dates and fees.

**Departmental Proficiency Examinations:** Departmental proficiency examinations are offered in most 100-level and in a limited number of 200-level courses. The purposes of the examinations are to allow students to receive credit for knowledge acquired previously and to allow students to enroll in more advanced courses or to add breadth to their academic programs. Proficiency examinations are optional and recommended only for students who are unusually skilled in the discipline in which the examination is taken. Specific information about the nature of a given examination should be obtained directly from the appropriate departmental or school office. Below are University guidelines and procedures relating to proficiency examinations:

1. The nature and content of each proficiency examination shall be determined by the department or school in which the course is offered. Standards of performance required for receiving credit in a given course also shall be determined by the department/school offering the course; the level and quality of work required for satisfactory performance on a proficiency examination is equivalent to that required for a grade of C in the course.
2. Academic departments shall provide proficiency examinations in most 100-level courses that are regularly listed in the *Undergraduate Catalog*. Students will find a list of courses in which proficiency examinations are offered on the Office of University Registrar’s website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu).
3. A description of each proficiency examination should be available in the department or school offering the examination. Students should contact the appropriate department chairperson or school director for information about a specific examination, including qualifying experiences.
4. All Illinois State University students are eligible to take proficiency examinations.
5. Letter grades will not be assigned for proficiency examinations; therefore, the GPA will not be affected.
6. Credit earned in proficiency examinations may not be used to raise grades or remove failures in courses in which a student has been enrolled previously.
7. No course credit will be awarded for a proficiency examination which is at a lower level than a course previously enrolled in or one that substantially duplicates the content of a course taken previously.
8. Students may take a proficiency examination only once.
9. Students may register for only one departmental proficiency examination each semester unless examinations are approved in writing by the chairs or directors of the departments/schools where the courses are being offered.
10. Students with disabilities should notify the appropriate departmental office of the need for any special accommodations prior to the date of the examination.
11. Students should register for an examination online at the Registrar’s Website at [www.registrar.ilstu.edu](http://www.registrar.ilstu.edu).

**Credit for Military Service:** Students who have served at least one year of active duty and received an honorable discharge may receive six semester hours of elective credit. To qualify for this credit, a copy of the DD214 should be presented with the application for admission.

**Advanced Placement Program:** The Advanced Placement Program is sponsored by the College Entrance Board. The examinations are administered at designated high school testing centers. Students will be awarded credit or exemption as indicated.

# UNIVERSITY-WIDE PROGRAMS

## General Education

General Education provides students with a broad, common foundation of study upon which to build an undergraduate education. The program develops skills of oral and written communication, logical and scientific reasoning, computer usage, and quantitative analysis. Courses in General Education explore ways of knowing in the various disciplines through examination of significant historical, social, cultural, and scientific issues. Students will take most General Education courses during their freshman and sophomore years, along with some courses in their major or other elective courses.

Illinois State University is committed to continuous assessment of the General Education program in an effort to gain valuable information so that necessary improvements can be made to the curriculum. As a part of the General Education assessment process on our campus, students may be asked by a faculty member to submit a copy of their work to be included in the General Education Institutional Artifact Portfolio [IAP]. Submitting an artifact of student work for the General Education IAP will in no way affect a student's final grade on the assignment. Faculty will grade the assignment independent of the General Education IAP system. Results from the General Education IAP process are reported in aggregate to the Council for General Education for the primary purpose of improving the General Education program. The artifacts provided for the General Education IAP are in no way linked to individual students. For the purpose of General Education assessment the unit of analysis is the institution, not an individual student, faculty member, or class.

The University Assessment Office coordinates the General Education Institutional Artifact Portfolio. If a student desires not to participate in the General Education Institutional Artifact Portfolio they may complete the Decline to Participate – Student Form which can be accessed at [www.assessment.ilstu.edu/generaleducation](http://www.assessment.ilstu.edu/generaleducation). Students or faculty with any questions about the Institutional Artifact Portfolio should contact the University Assessment Office at (309) 438-2135. If you have any questions about your rights as a subject/participant in the assessment process, or if you feel you have been placed at risk, you can contact the Research Ethics and Compliance Office, Illinois State University, at (309) 438-8451.

## GENERAL EDUCATION REQUIREMENT OPTIONS

There are three ways to complete general education requirements for Illinois State University. These three general education programs have different requirements and affect only certain types of students.

**I.** The first way is to complete Illinois State University's General Education Program. The General Education Program requires 14 courses (42 semester hours) within a structured three-tiered system, explained fully in the section, General Education Program-Illinois State University.

*The following categories of students must complete the Illinois State University General Education Program requirements:*

1. Beginning Freshmen (see Admissions section of this catalog for complete definition).
2. Students who were admitted as beginning freshmen at Illinois State University, who were readmitted and who have not completed a baccalaureate-oriented associates degree (A.A. or A.S.) from an Illinois public community college and are not eligible for an earlier catalog.
3. Transfer Students who have not completed a baccalaureate-oriented associates degree (A.A. or A.S.) from a regionally accredited post secondary institution and who are not eligible to complete the Illinois Transferable General Education core curriculum described below.

**II.** The second way is to complete the Illinois Transferable General Education Core Curriculum available through the Illinois Articulation Initiative (IAI). This program is a statewide agreement between participating public colleges and universities and some private schools that is designed to facilitate timely degree completion for students who transfer between institutions. The Illinois Transferable General Education Core Curriculum structure consists of 12 to 13 courses (37 to 41 semester credits) distributed among five subject areas. Completion of these courses at any participating institution satisfies general education requirements. The IAI Transferable Core is presented in the section entitled General Education - Illinois Articulation Initiative (IAI). (More information about this system and participating institutions can be found at the following Website address: [www.iTransfer.org](http://www.iTransfer.org).)

*The following category of students may complete the Illinois Transferable General Education Core Curriculum:*

1. Transfer students (See Admissions section of this catalog for a complete description) who began the Illinois Transferable General Education Core Curriculum at a participating IAI institution and transferred to Illinois State may choose to complete the program by enrolling in Illinois State approved IAI courses presented in the section entitled Illinois Articulation Initiative Courses at Illinois State. Transfer students should note, however, that IAI course availability is quite limited.
2. Transfer students who have completed at least one transfer course that is articulated to an IAI core requirement.

## 64 University-Wide Programs

3. Students who have completed the Illinois Transferable General Education Core Curriculum at a participating IAI institution are considered to have met Illinois State University's General Education requirement.

III. There is also a third way in which general education requirements can be met.

Students who transfer with a completed baccalaureate-oriented associates degree (A.A. or A.S.) from a regionally accredited post secondary institution are considered to have satisfied Illinois State University's General Education Program requirements. Illinois State University accepts the AAT degree as a baccalaureate-oriented degree when the AAT degree includes the IAI transferable core.

Any transfer student may choose to complete Illinois State University's General Education Program.

Illinois State University offers several study abroad programs that feature a wide variety of General Education classes. Interested students should contact their academic advisor or the Office of International Studies and Programs.

### GENERAL EDUCATION PROGRAM — ILLINOIS STATE UNIVERSITY

The General Education Program at Illinois State University is an integrated set of courses that focuses on the development of communication and problem-solving skills and abilities, such as persuasion, listening, and argumentation; logical and quantitative thinking; and understanding varying perspectives on issues. These skills and abilities provide an essential grounding for work in the student's major.

The premise of the General Education Program is that education should be a developmental process and not simply an assimilation of a prescribed set of facts. The program's overall structure is designed to ensure that developmental objectives are achieved through the coherent and sequential interrelationship of courses. Inner Core courses provide basic knowledge and skills upon which Middle Core courses build, and those courses in turn prepare students for courses in the Outer Core.

The complete General Education Program consists of 14 courses (42 semester hours), which is approximately one-third of the total credits required for graduation.

Because of laboratory or recitation requirements, some courses are listed as four credit hours in this catalog. All four hours will be credited as graduation requirements, but only three hours will be credited in General Education for these courses.

**Students will take most General Education courses during their freshman and sophomore years, along with some courses in their major or other elective courses. While some specific courses are important to take as part of preparation for a major (such as certain mathematics or science courses), the choice of which course to take in each category is a decision for *students* to make. Students**

**are encouraged to choose courses that will give them the broadest possible general education and to explore and challenge themselves through their course choices.**

The Illinois State University General Education Program consists of a 14-course requirement outlined as the following:

#### Inner Core (5 courses):

- a 2-course, first-year sequence integrating composition, communication, critical thinking, and information literacy;
- 1 course chosen from the inner-core mathematics category; and
- 2 courses chosen from a four-course natural science category or an alternative science course required by certain majors.

#### Middle Core (5 course categories):

- 5 courses, one chosen from each course category.

#### Outer Core (4 courses; one from each of four discipline groups):

- 4 courses, one chosen from each category. Most students not taking a course in their major or minor that satisfies the Global Studies graduation requirement will also take one Outer-Core course whose content focuses on the cultures of Asia, the Middle East, Africa, Latin America, or the indigenous peoples of the world (See Global Studies requirement).

#### Students must comply with the following requirements:

- Complete the General Education Program through completion of at least 14 courses (42 semester hours), as designated in the program description.
- Students may count one General Education Middle- or Outer-Core course from their first major department or school toward the total of 14 courses. Additionally, depending on their major, students may be exempted from one General Education category (maximum of one course) because of disciplinary expertise gained in their major listed below:

**Transferring General Education Courses—Illinois Articulation Initiative**

The Illinois Articulation Initiative (IAI) is a statewide agreement among the more than 100 public and some selected private four-year and two-year higher education institutions. The agreement is designed to facilitate students transferring between the colleges and universities in Illinois. The Illinois Transferable General Education Core curriculum consists of 12 to 13 courses (37 to 41 hours of credit) within a five-category designation. The general requirements are as follows:

Communication:	3 courses (9 credits)
Humanities and Fine Arts:	3 courses (9 credits)
Mathematics:	1 to 2 courses (3 to 6 credits)
Physical and Life Sciences:	2 courses (7 to 8 credits)
Social and Behavioral Sciences:	3 courses (9 credits)

IAI policy is presented on the Website, [www.iTransfer.org](http://www.iTransfer.org), and Illinois State University's implementation requirements are published below. Students who transfer out of Illinois State will be held to the requirements of their transfer institution.

**General Education Options For Transferring Students**

New transfer students have the option of completing either Illinois State's General Education program or the Illinois Transferable General Education Core Program (IAI). NOTE: To be eligible for IAI, at least one transfer course must have been articulated to an IAI core requirement. Transfer students who have satisfactorily completed at least one course within the Illinois Transferable General Education Core are allowed to complete this program by enrolling in approved IAI courses at Illinois State University. Students should note, however, that IAI course availability is quite limited.

**CLEP**

Illinois State policies on CLEP credit will be used to meet Illinois Transferable General Education Core requirements.

**WAIVERS**

If a student satisfactorily completes the objectives of a General Education Core area but earns fewer hours than required, the remaining hours for that area can be waived. However, students must complete the minimum of 12 courses, 37 hours, and the number of courses required in each area of the Core. Fractional hours can also be waived, but the minimum 37 hour total is still enforced.

For those students eligible to complete the Core, a transfer course articulated as an Illinois State University course approved for the Illinois Transferable General Education Core Curriculum will be utilized toward the Core. Any course from a participating school approved by an IAI curriculum panel may be used even if not articulated to an Illinois State course. Acceptance and placement of transfer credit as an elective from a non-participating IAI institution is only applicable to meet Illinois Transferable General Education Core (IAI) requirements at Illinois State University.

Effective May 1999, a student transferring to another institution, who has completed at least 37 semester hours, may request an audit, via a transcript request, of his or her records for completion of the Illinois Transferable General Education Core Curriculum. If complete, the University will certify completion of the Illinois Transferable General Education Core requirements on the Illinois State transcript.

Students transferring to Illinois State are required to fulfill all University graduation requirements.

**Illinois Articulation Initiative Course Requirements:**

**Regardless of category placement, a student may count no more than two courses from a single discipline to fulfill the General Education Core Curriculum requirements. Only one course assigned to an IAI course number may be used to fulfill a requirement (For example, since HIS 104.01 and HIS 104.03 both carry the IAI number of H2 903N, only one may be used).**

**Illinois State University courses approved for the IAI General Education Core are listed officially on the IAI Website, [www.iTransfer.org](http://www.iTransfer.org). The following list of courses is provided for convenience only. Some courses may have been added or deleted since the publication of this catalog.**

### Realizing the Democratic Ideal: Teacher Education at Illinois State University

Illinois State University has a historic and enduring commitment to prepare teachers and other school personnel who will be responsive to the ethical and intellectual demands of a democratic society. To teach in a democracy is self-consciously to take up the challenge of improving the ethical and intellectual quality of our societal dialogue by including in it as many educated voices as possible.

The democratic ideal unites caring and knowing: the more voices we call into thoughtful dialogue, and the less fettered the mutual exchange among those voices becomes, the truer our convictions and conclusions will be. This is the foundation a democratic society, and it is why Illinois State graduates aspire to teach everyone, especially those on the margins, those who have been or are in danger of being excluded.

This democratic conception of education informs all aspects of teacher education at Illinois State University. Graduates who are ready to meet the challenges and rewards of serving students in a democratic society embody the ethical and intellectual commitments of teaching and learning in order to realize the democratic ideal.

The ethical commitments are:

- Sensitivity toward the varieties of individual and cultural diversity
- Disposition and ability to collaborate effectively with others
- High regard for learning and seriousness of personal, professional, and public purpose

## 70 University-Wide Programs

- Respect for learners of all ages, with special regard for children and adolescents.

The intellectual commitments are:

- Wide general knowledge and deep knowledge of the content to be taught
- Knowledge and appreciation of the diversity among learners
- Understanding of the factors that affect learning and appropriate teaching strategies
- Interest in and ability to seek out informational, technological, and collegial resources
- Contagious intellectual enthusiasm and courage enough to be creative.

Of the challenges facing teachers and other school personnel in the 21st century, none is more pressing than the need for them to develop and maintain a strong sense of their ethical and intellectual commitments—a professional identity. Toward this end, Illinois State University prepares teachers and other school personnel who have a dynamic, reflective sense of themselves and their mission; through caring and knowing they realize the democratic ideal.

Undergraduate students interested in preparing for teaching careers in the public schools should consult this *Undergraduate Catalog* or contact the Teacher Education Coordinator of the department or school in which they desire certification. Contact the Cecilia J. Lauby Teacher Education Center, 56 DeGarmo Hall, (309) 438-5416, for information about admission to the Teacher Education programs of the University and certification requirements. Students interested in preparing for teaching careers in colleges and universities should consult academic advisors in the discipline that they plan to teach for information concerning appropriate graduate degree preparation.

Federal regulations require that all Illinois teacher preparation programs report candidate test scores to the Illinois State Board of Education annually on April 7; the state in turn reports scores to the United States Department of Education annually on October 7. The following April 7, the Secretary of Education prepares a report for Congress on the quality of the nation's teacher preparation programs.

Illinois State University reported the following scores on February 23, 2009:

- 2007-2008 Program Completers: 1,100
- Basic Skills: 1,085 tested, 1,085 passed = 100% pass rate
- Assessment of Professional Teaching: 1,080 tested, 1,076 passed = 99.6 % pass rate
- Academic Content Areas: 1,003 tested, 1,003 passed = 100% pass rate
- Other Content Areas: 65 tested, 65 passed = 100% pass rate
- Teaching Special Populations: 158 tested, 158 passed = 100% pass rate
- Summary Totals and Pass Rate: 1,100 tested, 1,096 passed = 99.6 % pass rate

### Performance-Based Assessment System

Effective Fall 2002, the Council for Teacher Education began implementation of its newly adopted Teacher Education Performance-Based Assessment System. This system meets accreditation standards, as stipulated by the Illinois State Board of Education (ISBE) and the National Council for the Accreditation of Teacher Education (NCATE).

The performance-based assessment system is reviewed by the University Teacher Education Assessment Committee, which reports to the Council for Teacher Education. The Council for Teacher Education approves changes to the system.

The system establishes critical points at which candidates for teacher certification will be assessed: Admission to Professional Studies, Admission to Student Teaching (clinical practice), Exit from Student Teaching (clinical practice), and Exit from the Program. This system ensures that candidates possess the knowledge, skills, performances, and dispositions requisite for successful teaching careers. When Illinois State University recommends a candidate for teacher certification, the entire university has prepared that teacher.

For Admission to Professional Studies, candidates will, in addition to meeting all program requirements as noted in applicable sections of this catalog:

- complete 30 hours of course work successfully;
- present documented evidence of successful experiences with children and youth;
- submit a reflective essay on entry-level dispositions to teach relative to "Realizing the Democratic Ideal," to be retained in an electronic portfolio;
- pass the basic skills test required for ISBE teacher certification;
- attain and retain a minimum cumulative and major GPA as designated by the selected teacher certification program, typically no less than 2.50;
- complete the Assessment of Legal and Ethical Conduct form;
- complete English 101 and Communication 110, with a grade of C or better;
- meet other performance indicators as determined by the Council for Teacher Education and/or individual teacher preparation programs;
- attain departmental approval;
- criminal history check;
- complete select Instructional Technology Passport System requirements;
- demonstrate dispositions that align with the *Realizing the Democratic Ideal* conceptual framework;
- demonstrate appropriate communications skills;

- complete a safety education assessment; and
- complete a teacher education orientation and an ePortfolio fundamentals workshop;
- some programs require a negative TB test (check with your advisor).

For Admission to Student Teaching/Clinical Practice, successful candidates will:

- pass the ISBE Content Area Test(s) to ensure content knowledge;
- complete a criminal history records check;
- file verification of a negative TB test;
- retain a minimum cumulative and major GPA as designated by the selected teacher education program;
- verify having completed clinical experiences commensurate with attaining local, state, and national standards (a minimum of 100 hours is required);
- complete additional technology competencies and add to the electronic portfolio;
- demonstrate dispositions that align with the *Realizing the Democratic Ideal* conceptual framework;
- demonstrate appropriate communications skills;
- complete the Language Arts Assessment; and
- meet other performance indicators as determined by the Council for Teacher Education and/or individual teacher preparation programs.

For Exit from Student Teaching/Clinical Practice, candidates will:

- complete student teaching/clinical practice with a grade of C or better;
- meet all requirements of the final unit-wide student teaching assessment;
- complete the teacher education electronic portfolio;
- demonstrate dispositions that align with the *Realizing the Democratic Ideal* conceptual framework;
- demonstrate appropriate communications skills;
- revise the reflective essay on dispositions;
- pass any additional tests for certification required by the state;
- complete all technology competencies as specified by the Performance Based Assessment System;
- complete the Multicultural/Diversity Assessment; and,
- meet other performance indicators as determined by Council for Teacher Education and/or individual teacher preparation programs.

For Exit from the Program the successful candidates will:

- meet all university graduation requirements as noted in the applicable sections of this catalog;
- meet all program graduation requirements as noted in the applicable sections of this catalog; and,
- meet other performance indicators as determined by the Council for Teacher Education and/or individual teacher preparation programs.

The information on Performance-Based Assessment supplements additional information already present in the catalog, found under University-Wide Teacher Education

and with information for each individual teacher education program. The Council for Teacher Education reserves the right to modify performance assessment indicators in response to state and national accreditation mandates. Candidates should consult their program advisors for specific requirements and updates on state or national mandates.

Details regarding the performance-based assessment system are available at the teacher education website

### Program Requirements

This section of the *Undergraduate Catalog* provides information needed by students in Teacher Education programs. Students seeking further information or clarification of information presented here should contact the Office of Clinical Experiences and Certification Processes (CECP), located in the Cecilia J. Lauby Teacher Education Center in DeGarmo Hall. Information pertaining to requirements for admission and retention in Teacher Education and matters related to certification through Illinois State University graduate programs is provided by the CECP Office. Matters related to certification at the undergraduate level are handled in the Evaluations Office. For additional information on Teacher Education at Illinois State University, see requirements in this catalog.

Each student who completes a bachelor's degree program in an approved Teacher Education program, and who is recommended for certification by the Dean of the College of Education as having completed all requirements (General Education, Professional Education, and field of study or area of specialization) is recommended for a teaching certificate in the State of Illinois. When a student has completed all of the requirements for a degree, including a recommendation from the Dean of the College of Education, the Evaluations Office at Illinois State University will send to the student the documentation necessary to apply for the appropriate Illinois Teaching Certificate. In order to satisfy Illinois certification requirements, all candidates must pass a test of basic skills (reading, writing, language arts, and mathematics), a subject matter knowledge test, and an assessment of professional teaching test all administered by the Illinois State Board of Education. In addition, effective February 1, 2012 students who are applying for their initial teaching certification or additional endorsements must have a grade of C or above in all coursework required as part of their certification program. This includes all endorsement areas, major courses and professional education.

Students who have already completed one or more non-teaching degrees and who now seek admission to a teacher education program are advised to seek admission to the University as a candidate for a second bachelor's degree, certification only. Subsequent transcript analysis may determine that a second degree is not required. In this instance, the student who received a degree from a state Teacher Education approved institution will be allowed to complete the requirements for certification without completing the requirements of the second bachelor's degree. Students are

advised that the Teacher Education certification requirements provided here are for Illinois and that they should check certification requirements for other states if they desire to be certified for teaching elsewhere.

Students who complete a bachelor's degree program in Teacher Education at Illinois State University also have their transcripts stamped, "Student has completed a state and NCATE approved program in Teacher Education." (NCATE is the National Council for Accreditation of Teacher Education.) This statement indicates that the program has received state approval and national accreditation. This status usually makes it easier to obtain a teaching certificate in another state.

**NOTE:** Certified teachers may be eligible for endorsements from the Illinois State Board of Education by transcript evaluation. For previously certified teachers seeking a subsequent certificate, this individual should apply to Illinois State University as a second bachelors' degree, certificate only candidate.

Individuals convicted of a felony or any sex, narcotics, or drug offense should contact the Office of Clinical Experiences prior to application for Admission to Professional Studies. *Applicants convicted of certain types of crimes may not be approved for certification by the Illinois State Board of Education.*

### Certification Programs

Students who fail to maintain the specific GPA required by their teaching or other certification program may be dismissed from that program. At the option of the department, students dropped from the program may pursue a degree in their major or be classified as Undeclared and will receive academic advisement from the Academic Advisement Center. In order to become candidates for a certification program after being dropped, students must be accepted by the department or school in which they desire to pursue a certification program.

### Council for Teacher Education

The Council for Teacher Education is responsible for developing requirements for Teacher Education and for providing avenues of communication among all of the areas of the University concerned with Teacher Education. The Dean of the College of Education serves as the University's certification officer and is responsible for maintaining the relationship between campus programs and state certification officials.

### Admission Procedures:

Students may monitor and assess their status regarding Admission to Professional Studies through the use of the *iCampus* portal. For specific directions and accompanying documents, please contact the Cecilia J. Lauby Teacher Education Center in DeGarmo Hall. Students should check with the major department or school regarding specific departmental procedures and requirements for Admission to Professional Studies.

### Selective Retention

Students are required to maintain the qualification requirements for Admission to Professional Studies from the point of admission to the point of certification.

Admission to Professional Studies is a prerequisite for enrollment in certain courses of the program. The prerequisite is listed in this *Undergraduate Catalog* for each of the specified courses.

A student must be formally admitted to Professional Studies and have satisfied all stipulated prerequisites prior to being assigned to student teaching.

## APPROVED TEACHER EDUCATION PROGRAMS

The following list includes all undergraduate Teacher Education programs approved by the State of Illinois and the National Council for Accreditation of Teacher Education (NCATE).

**Early Childhood Education:** (This certificate extends from Birth through Grade 3).

**Elementary (K-9):** Elementary Education; Middle Level; Bilingual Elementary Education.

**Secondary (6-12):** Agriculture; Biological Sciences; Chemistry; Communication Studies; Dance; Earth and Space Science; English; Family and Consumer Sciences; Geography; Health; History-Social Science; Technology; Mathematics; Physics; Theatre.

**Special (K-12):** Art; Business Education; French; German; Music; Physical Education; Spanish; Specialist in Learning Behavior (LBS1); Specialist in Deaf and Hard of Hearing; Specialist in Low Vision and Blindness.

**NOTE:** Teaching certificates are available at the graduate level for Reading Specialist, Alternative Route for secondary teaching certification and Learning Behavior Specialist II. Graduate level certification programs are also available for School Psychology, Speech and Language Impaired, and School Administration.

### Teacher Education Major and Minor:

To receive a certificate a student must complete a Teacher Education sequence for one of the majors listed previously. A student may also complete requirements for any other major or minor.

Students seeking a high school teaching certificate through one of the following fields must also complete the requirements for a second teaching field: Dance, Health and Theatre.

Program grade point requirements must be met in both the first and second teaching fields. The respective department or school will provide information on course work needed to complete the second teaching field.

**Endorsements:** The minimum course requirements for teaching fields for elementary and high school certificates are defined by the State of Illinois and are listed on the certificate as an endorsement. One or more endorsements may be earned by completing requirements for the elementary or high school certification programs at Illinois State University. Additional endorsements may be earned through the completion of the specified course work and, in most cases, by passing the State content test in the endorsement area. The Illinois Board of Education determines this process. Students should contact an advisor for information on requirements for endorsements.

**General Education:** To meet certification requirements of the Illinois State Board of Education, all Teacher Education programs must meet general education requirements defined for the institution's approved entitlement programs. Effective fall 1998, all native students entering Illinois State University will complete the University's General Education Program. For teacher education students, completion of Illinois State University's General Education Program ensures that the general education requirements for teacher certification have been met.

#### **Transfer Students:**

Several options satisfy general education requirements for certification relative to transfer students. The Illinois Articulation Initiative General Education program, including a global perspective course, may be the general education component for Illinois State entitlement programs for the transfer student who does not choose to complete the University's general education program. Other options include Illinois State's University Studies general education (97-98 or earlier catalogs), an approved baccalaureate-oriented A.A., A.S., A.A.T. or a bachelor's degree from a regional accredited institution, including a global perspective course. All of these options must include at least one global perspective course (Non-Western Studies). Completion of a course for the Global Studies graduation requirement will meet this requirement.

Completion of General Education Program requirements does not ensure that the requirements for certification have been met. Students are reminded that some courses are required by specific programs: Introductory Psychology is a prerequisite for Educational Psychology; a grade of C or better in an English Composition course and a Speech course are required for Admission to Professional Studies.

## STUDENT TEACHING REQUIREMENTS

The following applies to all those student teaching:

The number of semester hours of student teaching required varies with the student's curriculum. A student does student teaching in his or her major field of study. A student must meet all eligibility requirements for student teaching in that major field.

The following requirements must be met prior to participation in student teaching. Students may be removed from the student teaching assignment if at any time these requirements are not met.

1. Approval for student teaching by the Director of Clinical Experiences and Certification Processes (CECP) Office. This approval will include verification of all of the following:

## 76 University-Wide Programs

- a. formal Admission to Professional Studies at least 1 semester prior to the beginning of the student teaching semester;
  - b. successful completion at Illinois State University of at least 4 hours of Professional Education approved by the appropriate education department;
  - c. a minimum of 85 hours of college credit earned;
  - d. completion of pre-student teaching field experiences commensurate with attaining local, state, and national standards;
  - e. an application for student teaching filed in the Office of CECP at least 6 months prior to the planned student teaching semester;
  - f. satisfactory completion of prerequisite courses to STT 399 (listed under University-wide Courses);
  - g. meeting all requirements of Admission to Professional Studies and Admission to Student Teaching as stated in the Performance-based Assessment System;
2. Approval for student teaching by the student's major department chairperson or school director or designee. This approval will be based on the following criteria. The student:
- a. has demonstrated content knowledge in the student's major area of study;
  - b. possesses professional knowledge necessary for performing teaching responsibilities;
  - c. has performed at an acceptable level during the pre-student teaching clinical experiences;
  - d. shows evidence of professional characteristics and interpersonal skills necessary for working with children and youth;
  - e. has completed all other departmental/school requirements, including minimum major GPA (see major department or school for additional requirements).

### Student Teaching Assignments

The University will assign student teachers to selected schools or professional development schools (PDS) in Illinois during regular semesters. Personnel of the Office of Clinical Experiences and Certification Processes, in cooperation with the head of the student's major department or school, make the student teaching assignments and perform procedures related to student teaching. Teacher candidates may not self-place. Student teachers are assigned only to classrooms that have regularly employed full time and fully qualified teachers. Assignments are not made to a school in which the teacher candidate or a family member is currently or has been employed. A student teacher may not receive a salary or an income for student teaching.

During this period in the school, the student teacher works with one or more cooperating teachers who are responsible for teaching a specific group or groups of pupils. These cooperating teachers, along with the University supervisors, have responsibility for guiding and evaluating the work of the student teacher. During this experience, the student becomes a member of the school staff and of the community in which he or she is working.

Any student who has a prolonged illness or temporary disability and who is unable to continue in his/her student teaching assignment should consult with the Associate Director of the Office of Clinical Experiences. A clearance from a physician will be required stating that the student is again able to continue in his/her student teaching assignment without any contingencies.

The Associate Director of Clinical Experiences, upon the recommendation of the college supervisor, chairperson, or director of the student's major department or school, may remove a student from the assignment or require a student to do additional work and continue student teaching until the student is sufficiently competent to be recommended for certification. Entitlement for certification is not an automatic procedure.

Student teaching assignments begin and end on the dates indicated in the student's official notice of assignment. Ordinarily, the student is expected to follow the school calendar of the school in which student teaching is done insofar as vacations and school holidays are concerned. Changes in dates involved in an assignment must receive the prior permission of the Associate Director of Clinical Experiences.

A teacher education candidate for initial certification must earn a grade of C or better in student teaching in order for the Dean of the College of Education to recommend that the Evaluations Office send to the candidate the proper documentation to apply for the appropriate Illinois Teaching Certificate to be issued by the Illinois State Board of Education.

### Complaints Regarding Teacher Education Matters:

For information on how to appeal department and college decisions regarding admission, retention, evaluation, and certification relative to Teacher Education, contact the Cecilia J. Lauby Teacher Education Center, 56 DeGarmo Hall. All appeals regarding teacher education will be reviewed only by the Teacher Education Review Board/Council for Teacher Education.

### Certification for Persons Who Have Been Convicted of a Crime:

Students who have been convicted of felonies or any sex, narcotics or drug offenses may be ineligible for certification in the State of Illinois. If candidates can answer "yes" to any of the following questions, they must contact the Associate Director of the Cecilia J. Lauby Teacher Education Center, DeGarmo Hall prior to application for Admission to Professional Studies:

Have you ever been convicted of a felony, or any sex, narcotics or drug offense in Illinois or any other state? Have you ever been named by a state agency responsible for child welfare as a perpetrator in an indicated report of child abuse or neglect if such report was not reversed after exhaustion of any appeal? Are you in default on an Illinois student loan for which you have

failed to establish a satisfactory repayment plan with the Illinois Student Assistance Commission? Have you ever had a certificate denied, suspended or revoked in Illinois or any other state? Have you failed to file a tax return with the Illinois Department of Revenue, or failed to pay any tax, penalty, or interest owed or any final assessment of same for any tax as required by law administered by that Department was not subsequently resolved to the Department's satisfaction?

In many cases such offenders may become certified as teachers in the State of Illinois if the offense is not one which bars the person from certification and employment in public schools and if the institution has followed certain procedures. According to the Illinois State Board of Education, institutions should have information regarding convictions at the beginning of a student's career in teacher education. This allows the institution time to observe the student's performance and the State Board time to determine whether the conviction is one which would bar an individual from employment in a public school or from certification. The Council for Teacher Education at Illinois State University has established strong standards for admission and retention in teacher education programs. Beyond the criteria listed above for state certification issues related to criminal convictions, any teacher candidate who has two or more criminal convictions in the preceding three years may be refused progress through a teacher education program at Illinois State University. If there is any question about these standards, please contact the Associate Director of the Cecilia J. Lauby Teacher Education Center, Room 56, DeGarmo Hall, as early as possible.

### MAJOR IN INTERDISCIPLINARY STUDIES

**Program Coordinator:** Jim Weinzierl

(309) 438-8579

**Web address:** [IDS.IllinoisState.edu](http://IDS.IllinoisState.edu)

Degrees Offered: B.A., B.S.

### General Information

Under the Major in Interdisciplinary Studies, a student may construct one of three individualized programs of study that differ from the University's regular major programs. These options use existing University courses and lead to the Bachelor of Arts or Bachelor of Science degree in Interdisciplinary Studies. Each sequence addresses a different set of educational objectives.

- I. The Individualized Sequence of the Major in Interdisciplinary Studies allows a student to design, with the help of a faculty sponsor, a specialized program of study that is not offered by the University. This program is intended for the student whose specific interests cannot be accommodated within existing programs. Some topics recently chosen by students include Classical Civilization, Agricultural Communication, Three-Dimensional Design, Human Services and Needs, International Public Administration, and Theatre Management. The Individualized Sequence is often a second or auxiliary major but may be proposed as a primary major.
- II. The Multidisciplinary Studies Sequence of the Major in Interdisciplinary Studies is built around the offerings of two or more departments or schools. It is intended for the student who is seeking a baccalaureate degree without the specialization of a traditional major. The student chooses the focus of the program, with the help of a faculty advisor, by determining the departments or schools in which he or she wishes to pursue advanced work.
- III. The Human and Educational Services Sequence recognizes work that students have completed in working

## 78 University-Wide Programs

toward a degree in Special Education (SED) or Curriculum and Instruction (C&I). Completion of this degree program does not allow for certification as a teacher.

**Please note:** The major in Interdisciplinary Studies does not prepare a student for a specific professional career or graduate field, nor does it satisfy the requirements for Teacher Certification. Because of its general nature, this program may require graduates to convince prospective employers or graduate schools that the students' degree preparation will enable them to succeed in a particular job or educational endeavor.

### Procedure:

1. Admission to the Individualized and Multidisciplinary Studies Sequences of the Major in Interdisciplinary Studies may be requested after the completion of 15 semester hours of course work and before the completion of 75 semester hours. Applications must be submitted during September and February.
2. Information on the application process is available in 336 Schroeder Hall. Applicants should select an appropriate faculty advisor. The proposed plan of study must be approved by the faculty advisor, the Interdisciplinary Studies Major Committee, and the Office of the Provost. For the Human and Educational Services Sequence, students must be majors in either Special Education or Curriculum and Instruction and will receive advisement from their departmental advisor.
3. Except for the Human and Educational Services Sequence, at least one-half of the course work in the sequence must be taken after the proposal has been approved. No more than one-sixth of the course work in the sequence may be transferred from another institution of higher education.
4. Changes in an approved plan of study must be authorized in advance. A letter outlining the proposed change, and countersigned by the faculty advisor, should be submitted to Jim Weinzierl, Campus Box 4660, 336 Schroeder Hall. Requests for changes in more than one-sixth of the approved program constitute a new proposal and must be resubmitted subject to all the conditions of an initial application.
5. If the Individualized Sequence is a student's primary major, courses included in the approved program may not be used to meet General Education requirements. Only one course from the departments or schools specified in the Multidisciplinary Sequence may be used to meet the General Education requirements.

### MINOR IN CIVIC ENGAGEMENT AND RESPONSIBILITY

**Advisor:** Dr. Lance Lippert, School of Communication 424 Fell Hall, Campus Box 4480 (309) 438-8869; llipper@ilstu.edu

In teaching civic engagement at Illinois State University, we strive to develop civically responsible individuals who embrace their membership in communities and society by owning social issues and working to be a part of the solution, which requires ethical and civic judgements and actions when appropriate. Illinois State University's values are at the core of this minor as students will prepare to participate in social change as well as develop an awareness of personal social responsibility. This minor is intended to prepare students to engage actively in their citizenship. The interdisciplinary minor is open to all students of any ideological viewpoint and can be positively matched with any major as a way to broaden the student's learning experience and career perspectives. A civically educated individual (1) gains a sense of self-awareness as a citizen, (2) actively participates in community service, (3) develops an appreciation of diversity, (4) comprehends the interdependence within communities, societies, and the world, (5) grows an understanding of the democratic process, (6) displays critical thinking within the arena of democratic conversations and social issues, (7) becomes effective at problem-solving and change, and (8) is able to personally integrate reflection on service, social issues, and course content. This minor will provide students with opportunities to sharpen critical analysis, skill development, and personal reflection as well as substantive opportunities to study and perform civic engagement in their communities.

*Associate Professors:* Califf, Li, Mahatanankoon, Qaddour, Rariden.

*Assistant Professors:* Chou, Hosack, Jong, Sagers, Shesh, Suh, Tang, Twitchell, Wolf.

## General School Information

The School of Information Technology (ITK) offers three degree programs: Information Systems, Computer Science, and Telecommunications Management. All three require substantial interpersonal communication skills as well as technical skills in computing, information technology and networking. The curricula have a strong practical emphasis on the application of computers, systems, and networking techniques to real world problems. Practical skills and applications are balanced with exposure to the knowledge base that underlies the field of computing. A core of 3 courses (10 hours) provides a common foundation for each degree program.

Both the Information Systems and Computer Science programs prepare a student for an application development oriented computing career, but, there are important differences in the context of the work to be performed, the types of problems to be solved, and the types of systems to be designed and built. Starting positions for either program include such job titles as programmer or programmer/analyst. The Telecommunications Management program prepares undergraduate students to enter the telecommunications industry in entry-level positions with adequate preparation to assume management positions once work experience is gained.

Department minors are intended to help majors in other departments focus on specific skills and electives which are relevant for their career needs. Minors are available in Information Systems and in Computer Science.

### Academic Requirements:

For any student who enrolls in a course in the School of Information Technology, a grade of C or better is required in all prerequisite courses. For majors, only courses in which the student has received a grade of C or better may be counted toward the hours required in the major, including supporting requirements.

A student cannot pursue a double major in any two programs in the School of Information Technology. Also, a student cannot pursue both a major and a minor in Information Technology.

### Admission Requirements:

A student may enter a major or minor in the School of Information Technology as a new freshman, a transfer student, or as a change of major at Illinois State University. Students should contact the Information Technology undergraduate advisor or University Admissions for minimum admission requirements.

### Transfer Students:

Proficiency with the Java programming language is expected in 200- and 300-level Information Technology courses and is usually obtained by completing ITK 168 or 177 and one of 178, 179, 277; or ITK 275.

**HONORS IN INFORMATION TECHNOLOGY**

The School offers honors work in all programs to highly qualified juniors and seniors. Candidates must have a 3.30 overall GPA and a 3.50 GPA in Information Technology. Honors requirements involve honors course work and the preparation of a substantial research paper or the completion of a significant application project prepared under the guidance of a faculty advisor. For further information contact the Director of Honors.

**PROFESSIONAL PRACTICE**

Each degree program requires a practical experience that may be satisfied by a directed project or an internship. An internship experience is the usual way for students to satisfy this requirement. ITK 191 (1 hour) is required and prepares students for fulfilling this requirement. It is recommended that ITK 191 be taken no later than the sophomore year.

The six (6) hours of Professional Practice credit counted toward the major will be graded. Any additional Professional Practice credit will be earned on a CR/NC basis. A maximum of 16 hours of Professional Practice credit (ITK 391, 398) may be applied toward graduation. Students may not register for ITK 398 during the last semester of their studies.

**MINOR IN COGNITIVE SCIENCE**

The School of Information Technology participates in the Minor in Cognitive Science program. Several courses offered by the School contribute to the minor. For further information, please consult the School undergraduate advisor as well as the section entitled "Minor in Cognitive Science" under University-Wide Curriculum in this *Undergraduate Catalog*.

**Information Systems Programs**

Degree Offered: B.S.

**MAJOR IN INFORMATION SYSTEMS**

The Information Systems (IS) Major is designed to prepare professionals in Information Systems including such areas as systems analysis and design and software engineering. This degree focuses on the use of computer technology and information management methods to solve business problems. This requires an understanding of both the organizational context of the problem and the technologies, methodologies, and tools typically utilized. There are four sequences within this program: the Information Assurance and Security Sequence, the Integration of Enterprise Systems Sequence, the Systems Development/Analyst Sequence, and the Web Application Development Sequence.

The Analyst sequence provides breadth and depth in analysis and design techniques preparing students to work in a variety of information technology environments, while the Web sequence emphasizes the development of Web/Internet-based business information systems. The Integration of

Enterprise Systems Sequence is designed for students who wish to pursue both technical and practical skills in large-scale, multi-platform enterprise computing systems. The Information Assurance and Security Sequence is designed to give students the knowledge and tools necessary for protecting information and information systems. The Information Systems program is accredited by the Computing Accreditation Commission (CAC) of the Accreditation Board for Engineering and Technology (ABET).

**Preparation for Graduate Study:**

The Information Systems major offers excellent preparation for a number of computer and management information systems master's programs. Students interested in an MBA program may want to combine this major with a Business Administration minor. Any student interested in graduate school should discuss options with faculty and an academic advisor during their junior year.

**Information Assurance and Security Sequence:**

The Information Assurance and Security Sequence is designed to give students the knowledge and tools necessary for protecting information and information systems. The sequence provides education for protecting the confidentiality, availability, and integrity of information using technology, people, and policy. A minor is not required.

**Military Science Program****General Department Information**

Reserve Officer Training Corps (ROTC) is designed to be completed concurrently with the student's academic degree. Students can complete the first two years of ROTC with absolutely no military service obligation. Veterans, National Guardsmen, Army Reservists, and students who complete a four week leadership course at Fort Knox, Kentucky receive constructive credit for the first two years (6 credit hours) of ROTC, and can complete the ROTC program in as few as two school years.

Freshman through senior ROTC courses are offered every semester. These academic courses progress from introducing the student to the Army's mission and organization, studying leadership principles and traits, to teaching students the duties and responsibilities required of officers in the twenty-first century. Each class has a leadership laboratory that meets once a week. At lab, freshmen through senior students train on basic military skills and receive the opportunity to develop leadership skills through hands-on application. Some of the skills learned during lab include rappelling, water survival training, rifle marksmanship, first aid and CPR, map reading and land navigation, and basic tactics.

In addition to regular on-campus training and activities, ROTC offers exciting and challenging weekend field training exercises during the school year. Trips include a staff ride, an orientation visit to Fort Knox, Kentucky, and trips to local National Guard training areas to practice marksmanship, land navigation, and tactical skills.

**FINANCIAL AID**

Military Science students can receive outstanding financial aid through Federal and State Army ROTC scholarships.

Federal ROTC scholarships are awarded for a four, three, or two-year period. Students compete at the national level for these scholarships. Each scholarship can pay up to the full tuition and fees each semester, provides a book allowance of \$1,200 a year, and a tax free monthly living allowance of \$300 for freshmen to \$500 for seniors, depending on scholarship status.

State ROTC tuition waivers are awarded by the Professor of Military Science at Illinois State University. The Redbird Battalion awards up to forty of these scholarships each semester to students in the ROTC program.

**EXTRACURRICULAR ACTIVITIES**

Several clubs complement the ROTC academic curriculum, and help students enjoy their college experience more.

Ranger Club trains intensively on military skills such as land navigation, patrolling, and rappelling. They sponsor the annual Ranger Challenge competition in which a group of ten cadets are tested on individual and team military skills. The Illinois State University Ranger Challenge team competes with nineteen other university ROTC Ranger Challenge teams from around the geographical region in an intercollegiate competition.

Rifle Club fires .22 caliber and precision air rifles weekly at an indoor rifle range. They also participate in marksmanship competitions with other university ROTC programs during the school year.

The Redbird Color Guard presents the national colors at home football and basketball games, as well as other local community events.

Drill Team trains and competes in exhibition drill competition with weapons. Exhibition drill normally involves spinning or tossing of the weapons and intricate precision marching.

**CAREER OPPORTUNITIES**

Students who complete the ROTC program receive a commission as a second lieutenant in the Army after graduation. The student has the option of serving in the National Guard or Army Reserve as a part time career, or on active duty in the Regular Army as a full time profession. ROTC graduates can also receive a minor in Military Science by applying through the Military Science Department.

Lieutenants in the Army lead soldiers, while managing equipment, vehicle fleets, and financial resources. New lieutenants are routinely put in charge of and lead groups of up to fifty soldiers immediately after college graduation.

Officer career specialties in the Army are as diverse as those found in the civilian sector. Some of the sixteen specialties students can request as an Army officer include: Engineering, Personnel Management, Nursing, Signal

Corps, Finance, Transportation, Medical Service Corps, Military Police, and Aviation. Except for the health professions, an officer’s specialty in the Army does not have to be related to his or her academic degree in college.

New lieutenants who go into the Regular Army serve on active duty for three or four years, and may then transfer into the reserves. Lieutenants commissioned in the National Guard or Army Reserve can opt to serve their entire tour in the Reserves.

**MINOR IN MILITARY SCIENCE**

Admission into the Military Science Minor program is by permission of the Department Chairperson following a special interview concerning eligibility and entry requirements. Interested students should make arrangements for an interview as early as possible but not later than the second semester of their sophomore year.

# COLLEGE OF ARTS AND SCIENCES

**Interim Dean:** James E. Payne 141 Stevenson Hall.

**Web address:** [www.CAS.ilstu.edu](http://www.CAS.ilstu.edu)

The College of Arts and Sciences provides the opportunity for a liberal education in addition to the attainment of career-oriented skills. The College includes the Departments of Chemistry; Communication Sciences and Disorders; Economics; English; Geography-Geology; History, Languages, Literatures, and Cultures; Mathematics; Philosophy; Physics; Politics and Government; Psychology; Sociology-Anthropology; and the Schools of Biological Sciences; Communication; and Social Work; as well as the program in Women's and Gender Studies. The College offers the core of the General Education Program required of all undergraduates, a wide range of academic major and minor programs for meeting baccalaureate degree requirements, master's programs in most disciplines and doctoral programs in Audiology, Biological Sciences, English Studies, Mathematics, and Psychology. Course offerings span the humanities, social and behavioral sciences, natural sciences, and mathematics.

## Foreign Language Requirement:

All graduates of the College of Arts and Sciences must satisfy a foreign language graduation requirement that may be met by: 3 years of one foreign language in high school or completion of the second semester or higher of college-level foreign language with a passing grade or equivalent proficiency as determined by examination. Students who have successfully completed one semester of college foreign language credit may elect to satisfy this requirement by studying abroad in an approved program in a non-English speaking country. American Sign Language may also be used to fulfill this requirement by transfer credit or by proficiency.

## ENGLISH LANGUAGE INSTITUTE

Under the auspices of the College of Arts and Sciences, the English Language Institute (ELI) provides a special non-degree intensive program (20 hours per week) in English as a Second Language for international students who wish to increase their English proficiency for college-level work or for international students on exchange programs. After the first semester, qualifying students can enroll in one regular University class in addition to their ELI program. In general, students enroll at ELI as full-time students for a semester or more.

Although admission to ELI does not guarantee subsequent admission to a degree program at the University, ELI students who attain a satisfactory TOEFL score can be admitted to a degree program at the University, provided they also meet the other requirements for admission. Hence, international students who do not have the minimum TOEFL score for admission to a degree program are encouraged to attend ELI first to prepare for admission to such a program at the University.

For further information, contact the English Language Institute, Campus Box 6123; Fax: (309) 438-3031; Phone: (309) 438-2072; Email: [ELI@IllinoisState.edu](mailto:ELI@IllinoisState.edu); Website: [www.ELI.ilstu.edu](http://www.ELI.ilstu.edu).

Majoring in Economics helps you develop important skills, including critical thinking and analytical reasoning. These general skills are valuable for any job or occupation. Thus, a degree in Economics provides you with the flexibility to adapt in a changing environment and take advantage of new opportunities. This flexibility is important because, if you are typical, you will change jobs or occupations about six times in your lifetime.

One of the main advantages of an Economics degree is the wide range of careers that are available to graduates.

Economics majors find jobs in a variety of settings, including private industry; federal, state, and local government; international organizations and education. Over the past several years, graduates of the Economics program at Illinois State University have pursued a variety of careers, including positions in entry-level business/management, sales, data processing, staff analysis and research, and teaching. An undergraduate degree in economics is also excellent preparation for students who plan to pursue graduate-level studies in economics, business, and law.

Besides providing flexibility in the job market, the Economics major provides you with flexibility in your academic career. Only 33 hours are required for the major and only 18 hours are required for the minor. Specific course requirements for the major and the minor are indicated below. The low number of hours required for the Economics major or minor gives you the flexibility to combine it with a major or minor in other disciplines to design your academic program to fit your life goals.

### INTERDISCIPLINARY MINORS

The Department of Economics participates in interdisciplinary minors at the University. Course work offered by the Department contributes to the Minor in Urban Studies. For further information, please consult the section entitled “University-Wide Curriculum” in this *Undergraduate Catalog*.

### HONORS IN ECONOMICS

Candidates for honors must fulfill the general requirements for participation in the University Honors Program and must be Economics majors with a GPA of 3.30 overall and 3.75 or higher in Economics courses. Students will be expected to complete 6 hours of coursework designated as honors coursework within the Department of Economics. These could include ECO 105 honors, or 2 in-course honors at the 200- or 300-level. In-course honors requires individual negotiation with the faculty member teaching the course. In addition, the achievement of honors requires the writing of a substantial original paper. The student will enroll in Independent Honors Study and will receive help from an assigned faculty member. At the end of the semester the student will make an oral presentation of the paper. One copy of the original paper will be kept in the Department office and be available for inspection. Honors credit will show on the official transcript and will be stated on the diploma.

## History Programs

Degrees Offered: B.A., B.S.

### MAJOR IN HISTORY

Admission to the History major, including the History-Social Sciences Teacher Certification Sequence, may be restricted by the lack of available Department resources.

The Department of History encourages students seeking bachelor's degrees to develop both global and multidisciplinary approaches to the study of history and to apply these methods to their studies in other disciplines. To develop their skills of historical analysis and to learn to think critically about historical accounts, students complete HIS 200 and 300. To acquire both a well-rounded and a global understanding of historical processes, students are required to take 6 hours each in the 3 fields of European, non-Western, and United States History.

The Department of History recognizes the value of language to the study of history from a global perspective. For this reason, the department recommends all students majoring in history complete a Bachelor of Arts program. Those students majoring in history but choosing to pursue a Bachelor of Sciences program must complete a minor program.

B.A. students are encouraged to improve their career opportunities by minoring in another discipline. B.A. students not opting for a minor must choose an area of concentration by taking a minimum of 9 hours in any field other than history or foreign language; at least 3 of these hours must be in 200- or 300-level courses. B.A. students are encouraged to continue their language studies beyond the 12 hours required by the Bachelor of Arts.

B.A. and B.S. students in either the History (non-teaching) or History-Social Sciences Teacher Certification Sequence must complete or be concurrently enrolled in HIS 200 before enrolling in any other 200-level History course and must complete HIS 200 before enrolling in any 300-level History course. HIS 300 is a capstone course to be taken in the student's last full semester on campus. For students in the History-Social Sciences Teacher Certification Sequence, this would be the semester just prior to student teaching.

Students must fulfill the following requirements:

#### Major in History, B.A.

- 36 hours in History required.
- Required courses: HIS 101, 102, 135, 136, 200, 300; 6 hours non-Western History listed in group 3 of "History Courses by Group for the Major." At least one of the non-Western electives must be at the senior level.
- 21 hours at the upper-division level (includes HIS 200 and 300). Of those 21 hours, 9 hours must be at the 300-level (includes HIS 300). HIS 200 is a prerequisite/co-requisite for all other 200-level and prerequisite for all 300-level History courses.

- Students must choose one of the following courses as an elective: HIS 104, 111, 112, or 131.
- Students are encouraged to complete a minor; but, if a minor is not selected, they must complete a 9-hour concentration in any field other than history or foreign language, with at least 3 hours at the upper-division level.

**INTEGRATED BACHELOR OF ARTS (B.A.) AND MASTER OF ARTS (M.A.) IN LANGUAGES, LITERATURES, AND CULTURES**

The Integrated Bachelor of Arts (B.A.) and Master of Arts (M.A.) in Languages, Literatures, and Cultures enables a student to complete the B.A. and M.A. degrees in five years. It is available to the most promising Illinois State Uni-

versity, non-teacher education majors in French, German, or Spanish. Students with a 3.50 G.P.A. or higher may apply after they have completed at least two 200-level courses. Applications must be made to Admissions. Two letters of recommendation and a writing sample should be sent to the Department of Languages, Literatures, and Cultures.

Students accepted into the program must have sufficient undergraduate credits (approximately 90 hours) by their senior year in order to take courses for graduate as well as undergraduate credit. They do not normally complete a second undergraduate major.

All regular undergraduate requirements for the B.A. degree outside of the major will apply to candidates for the integrated degree.

Candidates generally take nine hours of graduate credit during their senior year and eighteen (18) hours of graduate credit during their graduate (fifth) year, and one course for joint credit, for the equivalent of thirty (30) graduate hours. Fifteen (15) course hours must be at the 400 level and approved as part of the graduate plan of study. All courses required for the regular B.A. will be completed by the end of the senior year. Should a student decide to leave the integrated B.A./M.A. program and complete only a B.A., all regular undergraduate degree requirements will apply.

The two semesters of graduate study must take place at Illinois State University. B.A./M.A. students are eligible to receive a graduate assistantship during their graduate year and, if they have already completed 120 hours, during the last semester of their fourth year. One hundred forty-seven (147) hours are required for the integrated program. Upon completion of the program, both a Bachelor of Arts degree and a Master of Arts degree will be awarded.

**French Sequence:** In addition to the 27 hours of graduate study, the French Sequence requires 35 hours of undergraduate study, including French 115, 116, 213, 214, 220, 235 or 335, 305, and four additional 300-level courses approved by the Department.

**All sequences:** The 27 graduate hours for all sequences must be completed with an average GPA of 3.00 or higher in at least three of the following areas: culture, linguistics, literature, and pedagogy. Students must pass a comprehensive examination and may choose to write a master's thesis as part of their graduate requirements. Details about academic requirements may be obtained from the Department of Languages, Literatures, and Cultures.

Minor programs are also available. All eligible programs in the College of Business are accredited by the AACSB International—the Association to Advance Collegiate Schools of Business.

The College also offers graduate programs leading to the Master of Business Administration, Master of Science in Accountancy and Master of Professional Accountancy. Detailed information concerning these programs may be found in the *Graduate Catalog*.

Departments in the College of Business are: Accounting; Finance, Insurance and Law; Management and Quantitative Methods; and Marketing.

## Admission Requirements:

- A. Beginning freshmen must meet Illinois State University admission requirements prior to being considered into a College of Business major. Admission into the College of Business is selective and considers a prospective freshman's high school transcript (grade trends and rigor of courses completed), grade point average, ACT/SAT scores, personal statement, and in some cases letters of recommendation in the decision. Students are strongly encouraged to complete a rigorous high school math sequence as they prepare for admission into a College of Business major.
- B. Transfer students from other universities or colleges and internal transfers (transferring from majors within Illinois State University) are admitted into the College of Business through a competitive and selective process. Transfer students must have met all university admission requirements (transferring from other universities or colleges) or be in academic good standing (transferring from majors within Illinois State University). The College of Business reserves the right to maintain a balanced enrollment; the number of students who continue in the program may vary from year

to year depending on program capacity and the qualifications of students in the pool.

In addition transfer students must meet the following criteria:

1. Students desiring to transfer with fewer than 45 credits completed or in progress when they apply to become a business major are evaluated upon their college coursework, GPA (where an established GPA exists), and College of Business admission criteria for incoming freshmen.
2. Students desiring to transfer with between 45-59 credits completed or in progress when they apply to become a business major are evaluated based upon their college coursework, GPA, and College of Business admission criteria.
3. Students desiring to transfer with 60 credits or more completed or in progress when they apply to become a business major are evaluated based upon their college coursework, GPA, and College of Business admission criteria. The College requires that these transfers, in their first semester at Illinois State, complete BUS 100 with a grade of "C" or better and prove computer competency (spreadsheet usage, presentation software, and web page construction) through completion of one of the following courses or their equivalents:
  - ACC 167 and 168;
  - ACC 166;
  - ITK 150;
  - IAI BUS 902; or
  - By passing College administered competency exams in these areas (ACC 189.67 and ACC 189.68).

## Course Equivalent Transfer Policies:

In addition to the general requirements of the University and the College, the following policies apply to transfer students from other academic institutions seeking a business degree:

1. Credit for business and related courses from 2-year institutions may be transferred and applied to the business core but is limited to 100-level (lower-division freshman and sophomore) course placement.
2. Credit for business and related courses from baccalaureate degree granting institutions may be transferred and applied to the business core and to the major if the course for which the credit is being transferred is at the equivalent level of the Illinois State University course, contains the same course content and requires equivalent prerequisites.
3. Each student must successfully complete the college capstone course (MQM 385) and his or her major's designated capstone courses at Illinois State University and must earn at least 50 percent of the business credit hours

required for the degree at Illinois State University. Please contact an academic advisor for information concerning specific majors' capstone courses.

### Standards for Progress in the Major:

All students are limited to 24 credit hours of business course work which is strictly enforced by the College through registration restrictions. Business majors may exceed this limit once they have met Standards for Progress (i.e. continuance) as a business major. **Admission to the major does not imply the student will be accepted for continuance once they have completed 60 credit hours.**

The continuance requirements represent *minimum* standards for a student to continue as a business major. The College reserves the right to maintain a balanced enrollment; the number of students who continue in the program may vary from year to year depending on program capacity and the qualifications of students in the pool. Some students who satisfy the minimum standards may not be allowed to continue in a particular business major or program.

Minimum requirements which allow a student to qualify to continue as a business major are as follows:

1. Complete, with a grade of C or better, the following tool courses: ACC 131, 132; BUS 100; ECO 105; MQM 100 (or ECO 138, GEO 138, POL 138 or PSY 138); MAT 121 or 145. (**NOTE:** BTE majors must complete MAT 120 or 121 or 144 or 145.)
2. Prove computer competency (spreadsheet usage, presentation software, and Web page construction) through completion of the following: (ACC 167 and 168; ACC 166; ITK 150; IAI BUS 902); or by passing College-administered competency exams in these areas (ACC 189.67 and ACC 189.68).
3. Earn an overall Illinois State University GPA of 2.50 or higher on at least 12 completed hours.
4. Accountancy and Business Administration majors must earn a minimum B/C grade combination between ACC 131 and 132, including transfer courses.
5. Accountancy majors must also earn a minimum B/C grade combination between ACC 230 and 231.
6. Business Teacher Education majors must earn a 2.50 cumulative and major GPA for continuance in their major and Admission to Professional Education.

### Academic Requirements:

The academic requirements of the University apply to all of the programs in the College of Business. In addition, the following special academic requirements apply to all students in the College of Business:

1. Required courses in the major with grades below C will not count toward the graduation requirements of College of Business majors.
2. Students must have a 2.00 GPA or higher at Illinois State in order to graduate with a business

degree. Business Teacher Education majors must earn and maintain a 2.50 major and cumulative GPA through graduation.

3. Students majoring in business must complete their senior year (30 hours) in residence at Illinois State University. Under unusual circumstances the Dean of the College of Business may grant a modification of this requirement.

5. Enrollment in 200-level business courses requires 60 completed semester hours. Enrollment in 300-level business courses requires 75 completed semester hours. This policy is strictly enforced.
6. Students who go on probation a second or subsequent time will be dropped from the College of Business.
7. The College of Business only allows students to repeat a course once. Students who earn a W grade in either attempt must apply for permission to complete a third enrollment. A student may not enroll for a third time in a COB course if he or she has already received letter grades (A, B, C, D, or F) in two previous attempts.
8. Students-at-large and graduate students must apply for permission from the College of Business to register for business courses. Such students will be required to furnish official transcripts to show that prerequisite requirements have been fulfilled. Some courses in the College have restricted and/or limited enrollments and may not be an option. These students, as all non-business majors, are restricted to 24 hours of business course work.

**General Department Information**

The mission of the Department of Accounting is to provide high-quality, student-centered educational programs for students preparing for professional careers in accounting and information systems; to support research and other scholarly activities consistent with these programs; and to perform service activities for the Department, the College of Business, the University, and other organizations consistent with these programs. In addition, our mission includes establishing relationships with outside organizations that support our programs, students, and faculty. Providing introductory and other courses in accounting and information systems to non-major students, as a service to other departments within the College and University, is also fundamental to our mission.

The goals of the Department of Accounting are as follows:

1. Our first priority is to develop student potential through high quality pedagogy and educational experiences.
2. Our second priority is to perform applied, basic, and instructional research that complements our educational programs.
3. Our third priority is to participate in internal and external service activities which complement our educational programs and research activities, and build partnerships with key constituencies.

The curriculum is designed to provide students with the common body of knowledge established by the accounting profession for those entering the profession.

The Department of Accounting offers a 120-hour Bachelor of Science (B.S.) with a major in Accountancy and a 150-hour combined Bachelor of Science and Master of Professional Accountancy (B.S./M.P.A.) degrees. Both programs are described below. The B.S. has four sequences of study: Accounting Information Systems, Business Information Systems, Career Specialty, and Financial Accounting. The B.S./M.P.A. has two sequences: Accountancy and Information Systems and Professional Accountancy. Each sequence is intended to provide its graduates with the necessary foundation for a successful career, including the ability to pass professional examinations.

Students should select a sequence based upon their interests and career goals. Department advisors and faculty members are available to counsel students as they make this decision.

Courses completed in the Department of Accounting at this University with grades below C will not count toward the graduation requirements of either the Accountancy Major or Minor, but all grades of D, F, and WF in Accounting courses at this University will be included in computing the cumulative GPA.

### Honors Program Requirements:

The Department offers honors work in the different departmental programs to majors who have fulfilled the general requirements for participation in the University Honors Program and completed 60 semester hours with a cumulative Illinois State University GPA of 3.30 (A = 4.00) and a 3.50 GPA in Accounting courses. Students interested in the program should see the departmental advisor. Requirements for honors in the Accounting Honors Program are available in the departmental office.

### Program Admission Requirements for New and Continuing Students:

All majors in the Department of Accounting must meet the academic, admission, and transfer requirements of the College of Business. Non-majors must have the prerequisites, including the specific number of hours, to enroll in courses in the Department. Certain courses are restricted to Accountancy majors only.

Admission to this academic program is limited and is based on space availability and the competitiveness of the applicant pool. Factors that may be considered include, but are not limited to: courses completed, cumulative GPA, hours completed, personal interview or written statement, and samples of work completed. For additional information on minimum requirements for admission and the application and selection process, visit [www.FindYourMajor.ilstu.edu](http://www.FindYourMajor.ilstu.edu) or contact the undergraduate advisor for the intended major.

Students considering the separate Master of Science in Accountancy degree program should apply to Graduate School early in their senior year. Students who previously have completed a baccalaureate degree outside of Accounting should consider applying directly into the Master of Science in Accountancy program.

## Accountancy Programs

### MAJOR IN ACCOUNTANCY

Degree Offered: B.S.

After completing the 100-level Business Core courses, the Accountancy major must complete ACC 230 and 231 with a minimum grade of C in each and a 2.50 GPA in all attempts of these two courses. Prerequisites for ACC 230 and 231 require a minimum B/C grade combination of ACC 131 and 132.

In addition, an Accountancy major must complete requirements under one of the following sequences: Accounting Information Systems, Business Information Systems, Career Specialty, and Financial Accounting. Descriptions of each sequence follow.

### Accounting Information Systems Sequence:

This sequence is designed to provide entry-level accountants with information systems and technology skills and competencies as recommended by the International Federation of Accountants (IFAC). This sequence would prepare accountants to be a user of information technology and an evaluator of information systems (e.g., internal or external auditor).

- Students selecting the Accounting Information Systems (AIS) Sequence must complete the following 74 required hours: BUS 100; ACC 131, 132, 230, 231, 232, 233, 235, 260, 261, 263, 270, 363, 370; ECO 105; ENG 145.13; FIL 185, 240; MAT 121 or 145; MKT 230; MQM 100, 220, 227, 385.
- **NOTE:** MAT 120 is a prerequisite for MAT 121.

### Business Information Systems Accounting Sequence:

This sequence is designed to prepare students for entry level accounting positions requiring significant training in Business Information Systems. This preparation is particularly valuable in accounting consulting positions, certain auditing positions, and in many progressive industrial positions.

- Students selecting the Business Information Systems Accounting Sequence must complete the following 74 required hours: BUS 100; ACC 131, 132, 230, 231, 232, 233, 235, 261, 263, 270, (266 and 366) or (260 and 368), 362; ECO 105; ENG 145.13; FIL 185, 240; MAT 121 or 145; MKT 230; MQM 100, 220, 227, 385.
- **NOTE:** MAT 120 is a prerequisite for MAT 121.

### Career Specialty Sequence:

This sequence allows Accountancy majors to design a plan of study that meets their career goals. Students may elect up to 12 hours in another specialized area with advice and approval of academic advisors and Department Chair.

- Students selecting the Career Specialty Sequence must complete the following 62 required hours: BUS 100; ACC 131, 132, 230, 231, 232, 233, 235, 263, 270; ECO 105; ENG 145.13; FIL 185, 240; MAT 121 or 145; MKT 230; MQM 100, 220, 227, 385.
- **NOTE:** MAT 120 is a prerequisite for MAT 121.
- Of the 12 hours of career electives, most hours should consist of upper-division courses in a specialized area of study, typically in business, economics, or areas of information technology offered by Accounting (or, if not offered by Accounting, by other departments). A student's plan of specialized study for the Career Specialty Sequence must be:
  - a) developed in the semester following successful completion of ACC 230 and ACC 231;
  - b) must be approved by the Department Chair;
  - c) cannot include more than 6 hours of Accounting electives; and
  - d) will not include courses already completed before approval of the plan of study.

**Financial Accounting Sequence:**

This sequence is designed to meet the minimum formal accounting-content requirements for a student to sit for the Certified Public Accountant (CPA) examination. Students in this sequence may also prepare to sit for the Certified Management Accountant (CMA) examination and/or the Certified Internal Auditor (CIA) examination.

- Students selecting the Financial Accounting Sequence must complete the following 71 required hours: BUS 100; ACC 131, 132, 230, 231, 232, 233, 235, 263, 270; ECO 105; ENG 145.13; FIL 185, 240, 375; MAT 121 or 145; MKT 230; MQM 100, 220, 227, 385; and six hours from the following list of upper-division (200- or 300-level) Accounting electives: ACC 298, 330, 334, 336, 337, 340, 363, 375, 398.

**INTEGRATED BACHELOR OF SCIENCE (B.S.)  
MASTER OF PROFESSIONAL ACCOUNTANCY  
(M.P.A.):**

Degrees offered: B.S., M.P.A.

The integrated B.S./M.P.A. Degrees program is primarily oriented toward preparation for professional careers in accounting. Two sequences are offered: (1) Accountancy and Information Systems, and (2) Professional Accountancy. Both sequences permit graduates to meet minimum education requirements to sit for the Uniform Certified Public Accountant (CPA) Examination in Illinois. The Accountancy and Information Systems sequence permits students to emphasize study of information systems related to accounting and other business fields more than the Professional Accountancy sequence, which permits students to study further in such areas as taxation, auditing, financial accounting, managerial accounting, financial management, and information systems.

The 150-hour B.S./M.P.A. program generally includes 30 hours of graduate course work. Successful completion of the integrated program will culminate by granting simultaneously both B.S. and M.P.A. degrees. The B.S./M.P.A. integrated program is designed for students wishing to complete both degrees at Illinois State University. The program is not designed to admit students who have already completed a bachelor's degree.

Students must successfully apply for continuance in the B.S./M.P.A. program in their junior year (after 60 semester hours). Graduate admission would take place after the student has completed approximately 90 hours. Students will be admitted who meet graduate entrance requirements, which include satisfactory performance on the Graduate Management Admission Test (GMAT), their previous academic performance, and other evidence of their ability to successfully complete the program. Admission timing is very important to successfully complete the program so students should regularly consult with their Accounting undergraduate or graduate advisor.

**Core courses:** Students selecting either sequence must complete BUS 100, ACC 131, 132, 230, 231, 232,

233, 235, 260, 261, 263, 270, 430, 482, 497; FIL 185, 240, 375; MKT 230; MQM 100, 220, 227, 385; ECO 105; ENG 145.13, MAT 121 or 145. **NOTE:** MAT 120 is a prerequisite for MAT 121.

**Accountancy and Information Systems Sequence:**

In addition to core courses, students must complete (a) 9 hours from ACC 368, 468, and 472; (b) 9 hours of Accounting electives, of which 6 hours are chosen from ACC 431, 434, 435, 439, or 498, and 3 additional hours chosen from ACC 330, 334, 336, 337, 340, 431, 434, 435, 439, or 498; and (c) 6 additional hours of Accounting or business electives.

**Professional Accountancy Sequence:**

In addition to core courses, students must complete (a) 15 hours of Accounting electives, of which 6 hours are chosen from ACC 431, 434, 435, 439, or 498, and 9 additional hours are chosen from ACC 330, 334, 336, 337, 340, 431, 434, 435, 439; (b) 3 hours from FIL 440, ACC 468, 472, or other approved 400-level elective outside of the accounting discipline; and (c) 6 additional hours chosen from either courses listed in (a) of this paragraph or from ACC 375, 398, 468, 472, 498 (of which no more than 3 hours may be ACC 398 or 498).

**NOTE:** Students in either sequence who wish to enhance their chances of passing the CPA examination should include in their plan of study the following advanced accounting courses: ACC 330, 334, 336, 337.

**Requirements for CPA Examination:**

Academic requirements to sit for the CPA examination in Illinois include (1) 150 semester hours of college course work, and (2) a baccalaureate or higher degree, including at least 24 semester hours in accounting at the undergraduate and/or graduate level with at least one course each in financial accounting, auditing, taxation, and management accounting and at least 24 semester hours in business courses (other than accounting) at the undergraduate and/or graduate level.

Students planning to sit for the CPA examination are advised to complete, at a minimum, the Financial Accounting Sequence of the Accountancy B.S. program. Students should also give serious consideration to completing one or more of the following formal programs of study before leaving the Illinois State campus to begin their professional careers: The Bachelor of Science/Master of Professional Accountancy Program described above, a Master of Science degree in Accountancy, a Master of Business Administration degree, or one of the other sequences of the Accountancy B.S. ### MAJOR IN MIDDLE LEVEL TEACHER EDUCATION

#### Professional Requirements:

- 40 hours in Professional Education required. Part of entitlement program leading to certification: Elementary K-9.
- Required courses: C&I 130, 210, 233, 306, 333, 390, 395, 399.55 (12 hours of Student Teaching); EAF 228 or 231 or 235; PSY 302; PSY 346 or 347 or SED 101.
- In addition, effective February 1, 2012 students who are applying for their initial teaching certification or additional endorsements must have a grade of C or better in all coursework required as part of their certification program. This includes all endorsement areas, major courses and professional education.

#### Content Area Requirements:

- Appropriate preparation in 2 or more content areas listed below is required.

The major in Middle Level Teacher Education, a program of professional development for those who wish to teach at the middle school-level of education, consists of three broad areas of preparation. These are: General Education requirements for certification which are listed in the section on Teacher Education; Professional Requirements which are listed above; and Content Area Requirements, the character of which are described below. Upon satisfactorily completing this program, the student will meet the State of Illinois requirements for Elementary certification (K-9).

Curriculum and Instruction advisors will assist the Middle Level Teacher Education major in planning course work in both a primary and secondary content area.

#### Primary Content Area:

A student must complete specified hours from one of these content areas: Science, Industrial Technology,

Social Sciences, Mathematics, Reading, Language Arts, or Physical Education.

### Secondary Content Area:

In addition to the primary specialization, a student must complete a minimum of 18 hours (completes the State of Illinois minimum requirements for teaching in a second field) in another content area selected from those listed above, or from Health Education. **NOTE:** Middle Level majors must choose at least one of the four core curriculum areas (mathematics, science, social sciences, language arts) as either their primary or secondary content area.

Unlike preparation for senior high school teaching, the middle school demands broad preparation across the several disciplines that constitute a subject area at this level. To meet these broad field demands in their selected teaching areas, pre-service teachers in the Illinois State program are guided through coursework that is specifically attuned to the curriculum requirements of the middle school.

A primary feature of the Middle Level Teacher Education program is the experience that the pre-service teacher gains in working with young adolescent youth in the school environment. Simultaneously with the course work in the categories previously described, the student in the program engages in a variety of clinical experiences working with students in middle schools. Students that begin their last year in the program during the fall semester will be placed in a year-long partnership program for their senior year teacher education experience. Partnership schools may be located in any area of Illinois. In fulfilling its strong commitment to young adolescent education, Illinois State University works closely with these schools to provide maximal opportunities for majors in the development of teacher-student interaction skills. Students that begin their last year in the program during the spring semester will complete a four-week internship in local area schools and will complete student teaching requirements in the fall. The prescribed and voluntary internship activity aids the student in making the transition from pre-service to in-service teaching much more effectively and expeditiously. These activities and the other features of this specialized program combine to provide a comprehensive and thorough undergraduate program for teachers as specialists at a school level where few exist.

Certification standards and standards for school recognition by the Illinois State Board of Education relating to the qualifications of teachers as well as those for member schools of the North Central Association are met and considerably exceeded by graduates of the Middle Level Teacher Education program at Illinois State University.

A teacher education candidate for initial certification must earn a grade of C or better in student teaching in order for the Dean of the College of Education to recommend that the Evaluations Office send to the candidate the proper documentation to apply for the appropriate Illinois Teaching Certificate to be issued by the Illinois State Board of Education.

### Urban Education Study:

Students wishing preparation for working with urban populations may elect to complete Urban Education. Urban Education is not a certified area but is an elective option available to students in Elementary Education, Middle Level Education, Special K-12, High School, Early Childhood, and Special Education programs. Course content and Clinical Experiences are individually designed in keeping with the specific Teacher Education program of the student.

The following includes both on and off-campus course work experiences in both school and non-school educational settings, and in agency activities: C&I 110—Introduction to Multicultural Education (3 hours), C&I 232—Urban Education: An Introduction (3 hours), C&I 312—Urban Field Experiences (6 hours off campus), and C&I 398—Professional Practice: School/Community Involvement (3 hours).

5. Special Methods course(s) and student teaching as required by each academic department. Check with the advisor in your major department for specific course numbers. Students in Secondary Teacher Education may wish to obtain Middle Level endorsement so they are qualified to teach grades 6-12 instead of 9-12. To do so, students must take C&I 233.01 and PSY 302.

### CLINICAL EXPERIENCES IN TEACHER EDUCATION

## General Department Information

### Program Admission Requirements for New and Continuing Students:

Admission to this academic program is limited and is based on space availability and the competitiveness of the applicant pool. Factors that may be considered include, but are not limited to: courses completed, cumulative GPA, hours completed, personal interview or written statement, and samples of work completed. For additional information on minimum requirements for admission and the application and selection process, visit [FindYourMajor.IllinoisState.edu](http://FindYourMajor.IllinoisState.edu) or contact the undergraduate advisor for the intended major.

All Special Education undergraduates must have declared their sequence prior to Admission to Professional Studies. An overall GPA of 2.50 is required for retention in all Special Education programs.

Changes in major or sequence will be approved only if the student meets established program admission requirements and if there are openings in the sequence the student desires to enter. Students seeking to change their major to Special Education should follow the procedures described in this *Undergraduate Catalog*.

### New Transfer and Internal Transfer Admission Requirements:

Department advisors or [FindYourMajor.IllinoisState.edu](http://FindYourMajor.IllinoisState.edu) can provide information regarding additional requirements for transfer into a special education major. In order to manage course offerings and accommodate student demand for the major, it may be necessary to extend the plan of study for transfer students by one semester.

### Standards for Progress in the Major

A minimum GPA of 2.50 is required both overall and in major coursework for retention in all Special Education programs. Candidates must meet requirements for Admission to Professional Studies and Admission to Student Teaching to advance to experiences with these prerequisites.

### Professional Requirements Applicable to All Special Education Programs:

In addition to meeting University requirements for graduation and Admission to Professional Studies requirements, all students in Special Education must successfully complete:

- 1) 27-hour core of courses, which includes the knowledge standards central to the profession of special education. These courses includes: SED 101, 201, 202, 203, 204, 373; C&I 208; PSY 215; and EAF 228, or 231 or 235. (All of these courses must be completed with a grade of C or better.)
- 2) Sequence-specified course and experience requirements (see below) with minimum cumulative and major grade point averages of 2.50 for retention in program and continuation of major requirements.
- 3) Pre-student teaching experiences designed to meet professional performance standards. These experiences include successful completion of a minimum of 7 semester hours through enrollment in appropriate sections of SED 245 (see sequence-specific requirements). Additional teaching or related experiences may be included as a part of core or specific sequence requirements or in remedial experiences. Performance evaluations in each of these experiences must recommend that the student advance to the next level of experience prior to doing so. *Students are responsible for housing arrangements and transportation to clinical sites.*
- 4) A full semester of Student Teaching (STT 399) for which teacher candidates are awarded 14 semester hours of credit. In order to be recommended for initial certification, candidates must demonstrate during this capstone experience that they have obtained competence in the knowledge, performance, and disposition areas designated by the profession of special education and this department. *Students are responsible for housing arrangements and transportation to student teaching sites.*
- 5) An individual student portfolio: Student Performance-Based Assessment Portfolio documenting that all requirements established by the Teacher Education Unit and the Department of Special Education have been successfully met. This documentation includes multiple examples of evidence, gathered through courses and other experiences, of the acquisition of knowledge, per-

formance, and disposition required of the profession. A current listing of portfolio requirements can be obtained from the department.

## Art Programs

Degrees Offered: B.A., B.S., B.F.A.

### MAJOR IN ART (B.A., B.S.)

#### Academic Requirements:

Students seeking admission to the Major in Art must comply with criteria established by the School of Art, including submission of a portfolio of work for review by the School. Students interested in the Art History Sequence will submit a statement explaining their interest in the field, in lieu of the portfolio. Specific requirements for the portfolio and statement may be obtained from the School office.

To graduate with a Major in Art (B.A., B.S.) students must complete all requirements of one of the School of Art's

Sequences: Studio Arts, Graphic Design, Art History, or Teacher Education. They must also earn grades of C or better and maintain a 2.50 GPA in all courses taken in the School of Art, in addition to maintaining a cumulative GPA of at least 2.00. Individual sequences may have higher requirements. Courses in the Major may be repeated no more than once for the purpose of attaining the necessary minimum grade. Students may not enroll for the next course in a related series until the minimum grade in the prerequisite course is achieved. Incoming transfer students must retake courses considered equivalents to courses in the Major for which they earned lower than a grade of C. Students who do not meet these criteria will be placed on probation with the School of Art; a student placed on probation more than once will be dropped from the School.

**NOTE:** Admission to some Sequences in Art may be restricted by the lack of available School resources, especially in times of oversubscription.

All Sequences in the Major in Art require successful completion of the Art History Core, the Foundations program appropriate to that sequence, a series of courses specific to the chosen sequence, and electives in Art. Students must complete all Sequence Foundations courses before being permitted to continue in one of the sequences in the Art major; gifted students may be allowed to take 200-level courses in their areas of interest during the freshman year, pending approval of the School. Students must also complete all Art History Core courses before they may enroll in 300-level Art History courses. Requirements for each Sequence are described below. **NOTE:** Some Sequences, Graphic Design for example, have screening procedures that students must pass before being accepted; information on these may be found in the School of Art office.

Students must make every effort to complete the required Foundations courses in their first three semesters in the program. Under most circumstances students will formally declare intention to enter a particular sequence in the Art major in the second semester of the sophomore year. Students will arrange to participate in screening requirements for their preferred sequence; those not accepted into competitive sequences may be reconsidered the following semester and should consult with appropriate faculty for advice before rescreening. Also in the sophomore year, students will begin enrolling in courses appropriate to their sequence of interest. In the case of the Studio Arts Sequence, this also requires declaring a specific Discipline Area in consultation with the School's academic advisor. Required courses for the various Disciplines are listed below.

#### Studio Arts Sequence:

Degrees offered: B.A., B.S.

The Studio Arts Sequence emphasizes both breadth and depth of competence in Studio-based Art disciplines. It expands students' horizons beyond the Foundations level with work in a variety of media and disciplines. By requiring intensive study, it develops depth within at least one Studio discipline (ceramics, drawing, glass, intaglio, lithog-

raphy, metalwork and jewelry design, painting, photography, sculpture, video or wood). It likewise encourages exploration of new genres that break through traditional boundaries between disciplines and media. This sequence prepares students to work as visual arts professionals or pursue graduate studies.

- 54 hours in Art required as follows:
- 9 hours Art History Core: ART 155, 156, 257.
- 9 hours Studio Arts Foundations: ART 103, 104, 109.
- 36 hours of Sequence requirements and electives in Art, which must include:
  - (1) at least 9 hours in the chosen discipline area, along with any other courses listed below as appropriate to that discipline;
  - (2) at least 12 hours at the 200-level in various media and disciplines, including the specific courses recommended for each discipline area listed below;
  - (3) either ART 379 or 385 and at least one additional 300-level Art History course in a pre-20th century period;
  - (4) at least 6 hours in 300-level Studio courses.
- **NOTE:** ART 201, 207, 211, 307, 309 do not count toward the Studio Arts Sequence.
- **NOTE:** 300-level courses within the various Discipline Areas may be repeated.

**Discipline Areas in Studio Arts:** Students in the Studio Arts Sequence will choose one of the following disciplines as a means of developing extended awareness and competence through intensive engagement in a particular area of the Studio Arts. The groups of courses shown below for each discipline include: (1) the courses required within that discipline (students will normally enroll in the initial course in the sophomore year), and (2) additional courses deemed appropriate for the discipline, which students are expected to include when selecting electives. These additional courses include Studio courses that fulfill the requirements for electives in Art noted above; they may also include non-Studio or non-Art courses that serve as general electives. Students are encouraged to consult with faculty members in their Discipline Areas for advice on choosing electives that will complement their individual interests.

**Ceramics:** ART 228, 229 and 328; 232 and 234; 213 and 3 hours from drawing, intaglio, lithography, painting, photography, or video.

**Drawing:** ART 213, 214, 313 and 331; 6 hours from ceramics, glass, metalwork and jewelry design, sculpture or wood; either 235 or 252; either 245 or 246, and 261.

**Glass:** ART 255, 355 and 364; 232 and 3 hours from ceramics, metalwork and jewelry design, sculpture or wood; 6 hours from drawing, intaglio, lithography, painting, photography or video.

Recommended electives for these applications include: (A) ART 236, 349, 356; ATK 345; THE 153, 170, 261, 370; or (B) ART 232, 349; ATK 345; THE 170, 261, 370; or (C) ART 349, 356; ATK 260, 300, 302, 345, 380; THE 261.

**Wood:** ART 234, 344 and 351.45; 232 and 3 hours from ceramics, glass, metalwork and jewelry design, glass or sculpture; 6 hours from drawing, intaglio, lithography, painting, photography or video.

#### Restricted Admission to a Discipline Area:

In times of oversubscription and limitations on resources within the School of Art, some Discipline Areas may require faculty screening of students' supportive materials before allowing individual students to enroll in the second course in that Discipline.

#### Graphic Design Sequence:

Degrees offered: B.A. B.S.

The Graphic Design Sequence not only includes education in the fundamentals of Studio Art and Art History, but also a concentrated program of study that prepares students to enter the competitive field of Graphic Design.

Students will be allowed to remain in the Graphic Design Sequence if they continue to maintain a cumulative and major 2.50 GPA. Students whose cumulative or major GPA falls below 2.50 will not be allowed to register for Graphic Design courses until the GPA has been raised to a 2.50 or higher.

### Art History Sequence:

Degree offered: B.A.

The Art History Sequence provides students a solid grounding in the history of art on both introductory and advanced levels. In addition, the sequence includes exposure to related disciplines outside the visual arts, training in foreign language, and experience in advanced research and writing skills. Together, these requirements prepare students for effective graduate work in Art History or other fields and for positions in a variety of art- and non-art-related fields.

- **NOTE:** Students may combine Art History and Studio by declaring a second Sequence in Studio Arts and fulfilling all requirements for both sequences. This will include submitting a portfolio of art work for admission.

### Admission-Retention Requirements for Art History Sequence:

Students will be admitted to the Art History Sequence who achieve grades of B or better in ART 155, 156 and 257, then pass the sequence screening requirements. See the School of Art office for more information on screening requirements. Students will be allowed to continue in the sequence if they maintain a minimum cumulative and major GPA of 2.50.

### Teacher Education Sequence:

Degree offered: B.S

The Teacher Education Sequence is a program that emphasizes a comprehensive approach that supports state and national student learning standards and teaching performance standards in the visual arts. Also stressed are creative and critical thinking, studio techniques, understanding the learner and developing skills to become an effective teacher. Students completing this sequence are eligible to apply for K-12 teaching certification in art in the State of Illinois.

- 83 hours in Art and Professional Education required. Part of entitlement program leading to certification: Special K-12. All Art majors planning to become certified teachers must apply for and be admitted to the University Teacher Education program (see University-Wide Teacher Education Admission-Retention program section of this *Undergraduate Catalog*). Grades of C or better in all Art and Education courses, and a 2.80 cumulative and major GPA are required for admission and retention in this sequence. Students must submit a portfolio of 15-20 recent art works and be interviewed by art education faculty prior to acceptance into the Art Teacher Education Sequence. Acceptance is required before registering for ART 201 and C&I 212. Continuation in the Art Teacher Education Sequence is not automatic. Students' performance will be evaluated each semester.
- 57 hours in Art required, as follows:
  - 9 hours Art History Core: ART 155, 156, 257.
  - 9 hours Art Teacher Education Foundations: ART 103, 104, 109.

  - 6 hours Art electives, that must be taken in a single discipline.
  - 26 hours Professional Education requirements: C&I 212, 214, 216; PSY 215; EAF 228 or 231 or 235; STT 399 (12 hours - entire semester experience).

**NOTE:** All Teacher Education students are required to pass the State of Illinois Basic Skills Test in read-

ing, writing, and mathematics before registering for C&I 216 and ART 309. For this reason, students should take the State of Illinois Basic Skills Test (fee required) as early as possible. Students are required to pass the Illinois K-12 Art Content Exam, submit a Criminal Background Check and a negative TB test prior to student teaching.

The sequence in Teacher Education may also be combined with a Sequence in Studio Arts, Graphic Design, or Art History. Pursuing a double sequence may require additional semesters. However, this option is strongly recommended to prepare students better for teaching art in the public schools of today. See catalog copy under the other sequences for further information, including Discipline Areas within the Studio Arts.

Students are also encouraged to take course work in Urban Education and Languages, Literatures, and Cultures.

### CLINICAL EXPERIENCES IN TEACHER EDUCATION

Clinical Experiences are provided in off-campus clinical teaching centers, in local schools and in campus laboratory schools, in agencies and other approved non-school settings. All students will show verification of having completed pre-student teaching field experiences commensurate with attaining local, state and national standards. Students must provide their own transportation to Clinical Experience sites.

The approximate number of clinical hours and type of activity associated with each course offering can be found with the appropriate course description. The following legend relates to the type and kind of activity related to a specific course.

# MENNONITE COLLEGE OF NURSING

**Dean:** Janet Krejci, Ph.D., R.N.; 312 Edwards Hall

**Web address:** [IllinoisState.edu/nursing](http://IllinoisState.edu/nursing)

## Mission

The mission of Mennonite College of Nursing is to educate undergraduate and graduate nursing students to serve the citizens of Illinois, the nation, and the global community. Mennonite College of Nursing acknowledges a particular responsibility to address the nursing and health care needs of urban and rural populations, including those who are vulnerable and underserved. The College of Nursing builds upon the educational foundation previously acquired by students. The College creates a dynamic community of learning in which reflective thinking and ethical decision-making are valued. The College is committed to the promotion of nursing scholarship at the national and international level through research, service, and practice. Mennonite College of Nursing is committed to being purposeful, open, just, caring, disciplined, and celebrative.

## Philosophy

At the heart of the College's philosophy is the belief that all people share a common humanity. Each person must be regarded as having special biological, psychological, sociocultural and spiritual dimensions and possessing the inherent rights and responsibilities of freedom of choice and self-determination. Based on these beliefs, the College strives to grow as a caring community that supports the development of the total individual.

A vital interactive relationship exists between humankind and the environment. Environment affects each person's biological being and extends beyond physical surroundings to encompass roles, relationships, and societal structures. Because all human beings influence and are influenced by their environment, all must assume the responsibility to protect the social and natural environments in which they share.

Health is a dynamic state influenced by individual, environmental and hereditary factors. State of health, which significantly influences quality of life, is shaped by many factors, including an individual's decision-making and behaviors. Pursuit of wellness is the right and responsibility of each person. Nursing holds the potential to strengthen each human being pursuing optimal health and achieving a harmony of body, mind and spirit.

Nursing is a profession that continues to evolve through research, theory, and practice. Professional nursing, encompassing a range of therapeutic interventions aimed at promoting and restoring health, addresses actual and potential health care needs of individuals, families, groups, and communities. Nursing care is delivered in diverse settings in a systematic manner through use of the nursing process. In providing their

professional services, practitioners of nursing manifest role dimensions that are collaborative and independent in nature. Because dynamic social forces influence the nature and scope of nursing practice, critical thinking, effective communication, and caring are abilities required for professional nursing practice in changing environments.

As a profession, nursing adheres to standards of practice and ethical codes as a means of ensuring quality care for all persons. The current Illinois Nursing Act serves as the legal basis for the practice of nursing in the State of Illinois.

Mennonite College of Nursing is committed to cultivating the personal and professional potential of each member of the College community. The faculty believe that learning as a life-long process is promoted when intellectual inquiry, creativity, self-awareness, self-direction, maturity, and responsibility are valued. Learning is a process of developing human potential through the interaction of the individual with the environment. This interaction aims to achieve positive attitude changes, knowledge acquisition, and professional competence.

The faculty of Mennonite College of Nursing believe that the knowledge, attitudes, and skills required for professional nursing are best achieved when built upon a solid foundation of study in the humanities and sciences. The faculty value a liberal arts education, which fosters an understanding of society and provides a humanistic basis for the study of nursing. Baccalaureate nursing education prepares the graduate for the practice of professional nursing and provides the basis for graduate study in nursing. Masters-level nursing education prepares nursing leaders and advanced practitioners, advances nursing scholarship, and provides the foundation for doctoral study.

The College offers a graduate program leading to the Master of Science in Nursing. The College offers a Family Nurse Practitioner Sequence, Clinical Nurse Leader Sequence, Nurse Educator Certificate, and a Nursing Systems Administration Sequence, as well as a Post Master's Family Nurse Practitioner (FNP) Certificate. A Doctoral program in nursing with a focal area in aging is also offered.

## Terminal Outcome Abilities

Upon completion of the baccalaureate nursing program, the graduate will possess the following terminal outcome abilities.

**Caring:** The student will use a variety of caring modalities that promote health, healing, and dignity throughout the life span.

**Critical Thinking:** The student will use critical thinking to make judgments and develop therapeutic nursing interventions for optimal health.

**Communication:** The student will communicate effectively with individuals, families, and groups.

**Professional Practice:** The student will assume accountability for professional practice in contemporary society through the application of theory-based knowledge.

## Accreditation

The Nursing program is fully accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW Suite 530, Washington, D.C. 20036; (202) 887-6791; and also is approved by the Illinois Department of Professional Regulation. Dismissal from the Prelicensure Sequence, (including the Accelerated Option) or the RN/BSN Sequence results when a student receives a grade of less than C in any two nursing courses or twice for the same course,

All Prelicensure and Accelerated students are required to participate in the College Success Plan which is designed to provide: (1) an assessment of each student’s ability to understand and apply theoretical and clinical knowledge related to clinical courses as they progress through the curriculum; (2) assessment and outcome data for curriculum consideration; (3) an assessment of each student’s preparedness to be successful on the state licensing exam (NCLEX-RN); and (4) intervention guidelines to address any deficiencies that a student may demonstrate in understanding and applying theoretical and clinical knowledge related to clinical courses. Details of the Success Plan are available on the College of Nursing Website at [IllinoisState.edu/nursing](http://IllinoisState.edu/nursing).

### **Clinical Experience for Nursing:**

Clinical Experience is provided by an extensive clinical network of over 50 off-campus agencies including but not limited to hospitals, nursing homes, community centers, public health departments, long-term care facilities and other approved clinical learning settings. All Prelicensure students will begin their Clinical Experiences in the junior year. The students must provide their own transportation to all Clinical Experience sites.

### **Student Health Requirements:**

Nursing is a rigorous profession requiring physical flexibility and mobility (i.e. lifting patients, moving equipment, and responding quickly in emergency situations). ## COURSE INFORMATION

The University operates on the semester plan. The credit value of all courses is stated in terms of semester hours. Ordinarily, a semester hour is assigned for a 50-minute class meeting per week for the semester; therefore, a course valued at three semester hours generally meets three periods weekly. In laboratory courses, at least two 50-minute periods per week are ordinarily required for each semester hour of credit.

**Course Availability:** Some courses listed in the *Undergraduate Catalog* may not be available each year. Students should consult the major department/school or the University Web site at [www.IllinoisState.edu](http://www.IllinoisState.edu) for class availability. Questions concerning scheduling of courses should be referred to the department chairperson or school director.

Course prerequisites in effect at the time of publication are printed in this catalog. However, prerequisites may change over time and do not depend on catalog year. The registration system will enforce prerequisites in effect at time of registration.

## COURSE NUMBERING

Each course bears a distinguishing number for identification and indication of its academic level. The numbering system is as follows:

**100-199** Lower-division undergraduate courses, primarily for freshmen and sophomores.

**200-299** Upper-division undergraduate courses, primarily for juniors and seniors. A student normally should have completed at least 45 semester hours before enrolling in a course at this level.

**300-399** Advanced undergraduate courses. Open to juniors, seniors, and sometimes graduate students. A student normally should have completed at least 75 semester hours before enrolling in a course at this level.

**400-499** Graduate courses. See the *Graduate Catalog*. Courses at this level are for graduate students. In exceptional instances, a senior may receive permission to enroll for undergraduate credit in a course at this level. Seniors may be permitted to begin graduate work if they meet the conditions of the Senior in Good Standing Policy as described in the *Graduate Catalog*.

**500-599** Courses limited to advanced graduate or doctoral students.

## COURSE DESCRIPTIONS

The following information is given for each course: course number (three or five digits preceding the title); course title; and credit value in semester hours. The University may cancel or add course offerings after publication of this *Undergraduate Catalog* depending upon the adequacy of enrollment and availability of faculty. Following the above information, any prerequisites, restrictions on enrollment, and any special considerations are noted. A course prerequisite is knowledge or experience a student is required or recommended to have prior to enrolling in a course.

### Sample Course Listing:

#### 102 MUSIC THEORY

2 sem. hrs.

Continuation of common practice syntax; emphasis on formal analysis and composition of common practice idioms. Prerequisites: MUS 101 or consent Theory Coordinator.

The course number, "102," indicates that the course is primarily for freshmen and sophomores. The "2 sem. hrs." following the title, indicates the credit value in semester hours. A brief description of the course is provided in the paragraph following the semester hours. The information after "Prerequisites" indicates the required background for enrolling in the course. In the example given, a student must have passed Music 101 or have consent of the Coordinator of Music Theory prior to enrollment in 102. Course title revisions or a change in the course number are indicated by a "formerly" statement. Additional information about the course is available in the particular departmental or school office.

## COURSE ABBREVIATIONS

**Concurrent registration required (or recommended)** means that concurrent registration in two courses is required (or recommended).

**Consent department chair** The chairperson of the department offering the course must give consent before a student may register for the course.

**Not for credit major/minor** means that the credit from this course may not be applied to the major or minor program requirements.

**Variable credit courses** are those courses leading to differing number of credit hours. For example: Student Teaching (STT 399) has variable credit hours from 1-16. A student should plan with the advisor the number of hours to be sought in a variable credit course.
