Total number of teacher preparation programs:

27

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. [\(\\$205\(a\)\(1\)\(C\)\(i\)\)](#)

THIS PAGE INCLUDES:

- >> [Undergraduate Requirements](#)
- >> [Postgraduate Requirements](#)
- >> [Supervised Clinical Experience](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Full-time equivalent faculty supervising clinical experience](#)
- [Adjunct faculty supervising clinical experience](#)
- [Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience](#)
- [Supervised clinical experience](#)

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the undergraduate level?

- Yes
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Admission	Completion
Transcript	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No
Fingerprint check	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No

Subject area/academic content test or other subject matter verification	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input checked="" type="radio"/> Yes <input type="radio"/> No
Recommendation(s)	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No

Element	Admission	Completion
Essay or personal statement	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No
Interview	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No
Other Specify: <input type="text"/>	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/> Yes <input type="radio"/> No

2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5

4. Please provide any additional information about the information provided above:

All academic programs have a minimum cumulative GPA requirement of at least 2.5. Several programs require higher than 2.5 to progress through different stages of their program.

Postgraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the postgraduate level?

- Yes
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Admission	Completion

4. Please provide any additional information about the information provided above:

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	<input type="text" value="100"/>
Number of clock hours required for student teaching	<input type="text" value="560"/>

Are there programs in which candidates are the teacher of record?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)
--

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Years required of teaching as the teacher of record in a classroom

All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

108.3

[Optional tool](#) for automatically calculating full-time equivalent faculty in the system

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

131

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

1175

Number of students in supervised clinical experience during this academic year

3131

Please provide any additional information about or descriptions of the supervised clinical experiences:

Illinois State University (ISU) has high expectations for student's clinical experiences. Through our Council for Teacher Education requirements, all teacher education students must have a minimum of 100 clinical hours before student teaching. Many of our education programs have over 300 clinical hours integrated within their major before a student enters their student teaching semester. COVID impacted spring 2020 and continued to impact the 2021-22 academic year. Specifically, the Illinois Governor issued an emergency proclamation that allowed for Illinois student teachers to enter their final student teaching internship without having their content test passed. This saw an increase in the number student teachers as we had 923 students with placements during fall 2021 and spring 2022 semesters. Each was able to complete their academic program and receive degrees. Unfortunately, due to the Governors proclamation, a small number did not pass the content test at the time of graduation and were unable to meet all licensure requirements, but many continued to work towards passage during the 2022-23 academic year. For the 923 student teachers, we had 131 clinical supervisors and our students worked with 1175 cooperating teachers as many of our students had dual placements in multiple schools. Additionally, we had another 2208 students register pre-student teaching hours in local schools, community organizations, lab schools and virtual environments. This was an increase of nearly 200 students doing pre-student teaching clinicals in education majors.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

Enrollment and Program Completers

2021-22 Total	
Total Number of Individuals Enrolled	4218
Subset of Program Completers	905

Gender	Total Enrolled	Subset of Program Completers
Male	999	187
Female	3174	712
Non-Binary/Other	45	6
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	4	0
Asian	88	17
Black or African American	148	20
Hispanic/Latino of any race	511	99
Native Hawaiian or Other Pacific Islander	3	0
White	3322	742

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	127	22
No Race/Ethnicity Reported	15	5

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	<input type="text" value="147"/>
13.1202	Teacher Education - Elementary Education	<input type="text" value="287"/>

CIP Code	Subject Area	Number Prepared
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education	53
13.1210	Teacher Education - Early Childhood Education	85
13.1301	Teacher Education - Agriculture	5
13.1302	Teacher Education - Art	21
13.1303	Teacher Education - Business	7
13.1305	Teacher Education - English/Language Arts	47
13.1306	Teacher Education - Foreign Language	14
13.1307	Teacher Education - Health	3
13.1308	Teacher Education - Family and Consumer Sciences/Home Economics	26
13.1309	Teacher Education - Technology Teacher Education/Industrial Arts	9
13.1311	Teacher Education - Mathematics	22
13.1312	Teacher Education - Music	27
13.1314	Teacher Education - Physical Education and Coaching	35

13.1320	Teacher Education - Trade and Industrial	
13.1321	Teacher Education - Computer Science	
13.1322	Teacher Education - Biology	21
13.1323	Teacher Education - Chemistry	8
13.1324	Teacher Education - Drama and Dance	10
13.1328	Teacher Education - History	66
13.1329	Teacher Education - Physics	6
13.1331	Teacher Education - Speech	

CIP Code	Subject Area	Number Prepared
13.1337	Teacher Education - Earth Science	2
13.14	Teacher Education - English as a Second Language	
13.99	Education - Other Specify: Geography	2

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

[What are CIP Codes?](#)

Does this teacher preparation provider grant degrees upon completion of its programs?

- Yes
 No

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or [clear responses already entered](#)).

CIP Code	Academic Major	Number Prepared
13.10	Teacher Education - Special Education	147
13.1202	Teacher Education - Elementary Education	287

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Topics listed above are infused in the teacher education curriculum, so that they are addressed both didactically in multiple courses and reinforced with associated clinical experiences. Teacher candidates must complete at least 50 hours of clinical experiences working in settings with diverse populations (racial/ethnic minorities, low income, ELL, students with special needs) and far exceed that minimum as the average student spends hundreds of hours in diverse settings. Illinois State University's location provides convenient access to both rural and urban schools allowing students to work with low income and students with disabilities in both settings. Furthermore, Illinois State University operates a number of Professional Development School (PDS) sites across the state of Illinois, including both urban and rural settings. The assurance requirements are also part of the Illinois State Board of Education standards for Illinois programs. We have identified coursework where students will meet these expectations and this

varies by each education program to fit the courses and content they teach. For instance our elementary and early childhood programs have special education coursework designed for younger students, while secondary majors have a course geared towards older students. The state of Illinois is also integrating additional diversity standards that our programs will work to align curriculum to in the coming years. This alignment will add additional focus on ELL and racial diversity. ISU Teacher education programs use assessment results and input gathered from cooperating teachers, clinical evaluations, follow-up surveys of graduates, surveys of supervisors, and surveys of superintendents to monitor our efforts to improve and also meet these assurances. Through this work they have developed mentorship programs to assist their student teachers along with developing focus topics for student teaching seminars. The topics allows the students to explore how to assist all students by developing holistic lesson and unit planning. Each year ISU completes an internal program review system that evaluates programs and works towards continual improvement. Additionally, as part of our National accreditation we continue to build partnerships with school districts. Our goal in doing this is to improve our programs while using the knowledge of our K-12 partners and also helping to meet their needs for future teachers.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year's Goal \(2021-22\)](#)
- >> [Review Current Year's Goal \(2022-23\)](#)
- >> [Set Next Year's Goal \(2023-24\)](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Our goal for 2021–22 will again be to continually adjust our program to best meet the needs of IL schools, and graduate over 90% of the students who entered the student teaching semester.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

All student teachers who entered the student teaching semester graduated. Students are given an in depth clinical before student teaching to prepare them for the student teaching experience. Students were supported to complete student teaching through our supervisors and our MAT 324 seminar. Students are also supported by our Coordinator of Clinical Experiences.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

There are situations during student teaching that you cannot predict or prepare students for. As our cohorts grow larger, this will become a bigger challenge. We have an intensive clinical experience prior to student teaching--our pre-service teachers are at a clinical site every school day for 12

weeks (about 3 months) the semester prior to student teaching. This experience gives us the chance to identify students that might struggle in student teaching as early as possible and to provide additional support as needed. In addition, our cooperating teachers are asked to complete disposition assessments to gauge any issues that need to be addressed, and we are currently piloting a content concerns form. This intensive clinical is intended to help our teacher candidates transition into student teaching. During student teaching, our teacher candidates are observed once every two weeks to provide additional support. We are continually reflecting on student teaching data to identify areas where we can adjust our coursework. For instance, we adjusted instruction on assessment and problem solving from our analysis of data. In addition, we are currently revising our student teacher evaluation rubric to better align with the latest recommendations from our national mathematics education organizations. By providing an extensive clinical experience prior to student teaching, constant support, and data-based adjustments we hope to continue our success in graduating successful mathematics teachers.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

To graduate over 90% of the students who entered their student teaching semester and to increase graduates to over 30.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

To graduate over 90% of the students who enter their student teaching semester and to increase graduates to close to 40 teachers.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in science in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Programs plan to add 25-30 students.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

The four science programs together had 39 completers last year and met the goal. A key was ensuring transfer students and career/major changers were well supported through interactions and needs. Programs also participated in the future teacher conference.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Biology included the SED 344 course and PHY 208 Astronomy to target better preparation for the Content Test and for Student Teaching. Chemistry added a new course to get the majors together sooner in their programs and build community. They also revised the program slightly to provide another option for an early methods course, again creating community and providing students chance to progress towards the degree easier.

6. Provide any additional comments, exceptions and explanations below:

The science programs realize that career changers or students graduating with a non-teaching degree represent a pool of students in which there is not a good mechanism to recruit and provide a quick path to licensure. As the programs consider academic changes, they will continue to explore options for this pool of students .

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in science in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

The four programs combined anticipate to add 25-30 again.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in science in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

The four programs combined anticipate they will have between 25-30 again.

Annual Goals: Special Education

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year's Goal \(2021-22\)](#)
- >> [Review Current Year's Goal \(2022-23\)](#)
- >> [Set Next Year's Goal \(2023-24\)](#)

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\)\(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

To add 150 students. We've adapted recruitment efforts to be delivered virtually where possible and still hope to recruit a robust class of new students.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

In Fall 2021, special education had a new enrollment of 138 undergraduate students and we did not meet our goal even though we were close. Some of the strategies we used to achieve a high number were the following: Increasing recruitment efforts by offering a variety of modality formats to allow maximum participation for prospective students and families. Using our student ambassadors to make phone calls to admitted students sharing information on why they chose ISU and to answer questions. Our department chairperson wrote letters to prospective students and our SED Admin, Faculty, Student Ambassadors, and Advisors participated in all recruitment events offered by the university and each major presented at the future teacher conference on campus. Our department worked with COE to coordinate individual campus visits with the Admissions Office (in-person and virtual). Scholarship money was awarded by COE to highly qualified prospective SED teacher candidates and/or prospective teacher candidates with financial need.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We developed the Teach for Tomorrow cohort for paraprofessionals to gain licensure by reimagining it to become PULSE, Paraprofessionals Unlocking Licensure in Special Education. Three cohorts for 75 students are slated to begin in May 2023, which will contribute to enrollment.

6. Provide any additional comments, exceptions and explanations below:

There continues to be a decline in enrollment in teacher education nationwide, which negatively impacts the Department's ability to achieve the goal.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

For fall of 2022 we hoped to have nearly 160 students, but we enrolled 131 undergraduate students. We did not meet this goal.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We will aim to enroll 150 new undergraduate students.

Annual Goals: Instruction of Limited English Proficient Students

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year's Goal \(2021-22\)](#)
- >> [Review Current Year's Goal \(2022-23\)](#)
- >> [Set Next Year's Goal \(2023-24\)](#)

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in instruction of limited English proficient students in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Based on current enrollment data, we expect to graduate roughly 220 teacher candidates with the ESL endorsement in the upcoming academic year.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

We have built ESL coursework into the ECE, ELE and MLE program in such a way that teacher candidates can secure the ESL endorsement with additional coursework that adds very little time to degree. We also emphasize to students the importance of the endorsement as well as the district need for ESL endorsed teachers.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in instruction of limited English proficient students in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

We expected to graduate an estimated 210 teacher candidates securing the ESL endorsement in the 2022-2023 academic year, but are currently below that at 201 students. This is a slight drop, but within goals based on total student enrollment, etc.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We expect to have approximately 200 teacher candidates for the 2023-2024 academic year if we remain on target with our expected student enrollments.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Summary Pass Rates

Group	Number taking tests	Number passing tests	Pass rate (%)
All program completers, 2021-22	882	854	97
All program completers, 2020-21	860	844	98
All program completers, 2019-20	814	792	97

Low-Performing

THIS PAGE INCLUDES:

>> [Low-Performing](#)

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

THIS PAGE INCLUDES:

>> [Use of Technology](#)

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Illinois State University programs have identified courses where students will meet the Illinois Standards related to the use of technology as they integrate technology throughout their methodology classes. With this, students use technology components within lesson planning and student assessments. Additionally, programs offer coursework that looks at digital media, effective use of multimedia tools, digital presentations and the use of technology across disciplines. Throughout our programs coursework they use Reggie Net for classroom discussions and assignment submission along with other campus software and devices. The College of Education also funds Studio Teach, a model flexible learning space focused on technological devices and applications. It is free for students to learn and try out multiple technologies. Many methods courses will meet in Studio Teach to allow students to develop lessons on the various devices while also learning how to use flexible learning spaces. The Technology committee is helping the Council for Teacher Education evaluate technology planning and integration across all teacher preparation programs with the goal of having additional data tools for programs to evaluate and improve upon their use of technology. Individually, our departments also are engaged in the following: * Students complete technology assignments in each of their student teaching placements in which they identify technology used and how it enhances student learning. * Students create projects designed for elementary students that integrate different software focused on the international society for technology in education standards. * Teach clinical students how to use software programs that collect student data for analyzing academic achievement. * Design google classroom field trips and lessons that include pre and post assessment activities. * Teach student teachers how to integrate technology into lessons for enhanced instruction, collection of data and to inform future instruction. * Show early clinical students different software that are commonly used in classrooms and give them opportunities to use each before designing specific lessons that integrate technology usage for data collection and

student evaluation. * Use video recording and software to allow for evaluation of muscle and body movements. * Method courses give clinical students opportunities to use different hardware and software's to create mediums of artwork and create relevant lessons for all students. * Development of program assessments that include rubrics specifically linked to effective us of technology. Data is then reviewed at data retreats and program meetings for redesign and program improvement. * Integrate technology that is auditory and visual for development of music arrangements. *Students use various apps to research how to implement formative assessment into their lesson planning materials.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Our education programs are housed across campus in 5 different academic colleges. Each major sets their programs curriculum and integrates standards based on the Illinois State Board of Education (ISBE) standards for education. ISBE requires special education standards be integrated within all approved programs that focus on working with students who have disabilities. In addition to these standards, over the last five years our programs have emphasized increasing student knowledge for teaching students with disabilities. Many of our undergraduate programs integrate special education throughout their curriculum in addition to requiring their majors students to take a special education course focused on their contents age group. The majority of our ECE, ELEM and ML programs requires students to take Special Education 101: Introduction to Special Education and/or SED 205- Family, professional, and community collaboration. The majority of our Secondary and K-12 programs are requiring students to take SED 344: Teaching Secondary content to students with disabilities. These courses help students understand disabilities as they focus on practices of teaching their content to students needing adaptation or accommodation's. Additionally, many of our programs require professional learning workshops or integrate lessons on creating adaptations for students with disabilities within their methods courses. Examples: * For our early childhood, elementary and middle level programs they specifically work to develop lesson plans and assessments looking at student strengths. They then work on articulating instructional goals for students needing accommodations or modifications and integrate this learning into their clinicals with the assistance of professor and practicing teachers. *Our physical education department has students engage in 10 week experience designed for students with Autism. During the clinical they plan and deliver individualized physical activity sessions in an adapted PE environment. * Business education learns about assistive technology and how to integrate them into BE and also other classrooms. * Our theatre clinical students work with Seedling Theatre company, which hosts classes for individuals with exception needs. They assist in design and exercises for the classes. *All music education students take either courses specific to music and disabilities in which they discuss and model accommodations and modifications for music classrooms. * Art education students design each Unit and lesson plan with built in modifications and adaptations based on various disabilities. These accommodations are in all lesson plan templates. *Other programs require accommodations to be considered and designed within all lesson/unit planning.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

ISU programs prepare students for these interactions during special education, clinical and method courses. SED 101 introduces the IEP meeting in general, while SED 205 and SED 344 have a detailed look at being part of the team. Students learn about IEP and 504 modifications and processes. Many instructors of these courses also conduct mock IEP meetings as part of course activities to prepare students. Content programs then use method and clinical courses the build upon the SED courses by incorporating IEP and 504 review and planning. Programs look at the IEP process while focusing on accommodations and modifications for students with disabilities and how it works within their content area. Students then develop lesson plans considering these items to integrate within their clinical courses. The largest learning experiences for our students then comes during the final large clinical block of student teaching. During these clinical experiences students design lessons and units and then integrate the accommodations into the classroom to ensure the IEP is met. They are assisted by cooperating teachers who encourage them to engage and become active members of the IEP process to understand the teachers role and the impact of assessment and integrating accommodations.

c. Effectively teach students who are limited English proficient.

Several ISU programs have dedicated coursework that looks at literacy and methodology of teaching culturally diverse students. Within these classes students develop lessons and do clinical work with ELL students with a focus on learning, assessment and planning. Other programs, unable to take a specific course, integrate standards for teaching students of limited English proficiency into their curriculum by focusing on culturally and linguistically

diverse teaching. Many of the methods courses then have field trips, readings, lessons and clinical work engaging students with classrooms of limited English proficiency. Programs also have students develop lesson/unit plans that include accommodations that may be needed for ELL students and then integrate these lessons into clinical work when ELL students are present.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

ISU's special education department prepares students to effectively teach in one of the following sequences: Deaf and Hard of Hearing, Learning and Behavior or Low Vision and Blindness. All three of these majors require over 60 credit hours in special education coursework that teaches the students to effectively teach students based on their sequence. Throughout the major, each sequence also requires multiple semesters of practicum work in school districts working with students of various disabilities. In total, SED majors typically acquire over 500 clinical hours before their final student teaching semester. Below are some of the common coursework taken by each sequence to help students become effective special education teachers. Learning and Behavior: Learning, emotional and cognitive disabilities, orthopedic impairments, autism spectrum, multiple disabilities, traumatic brain injuries and other health impairments along with clinical practicum. Deaf and Hard of Hearing: Language and literacy acquisition, speech pathology, audiology and sign language along with clinical practicum. Low Vision and Blindness: Language and Literacy development, visual impairments, Braille reading and writing, orientation and mobility, assistive technology along with clinical practicum.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students throughout all SED major sequences are taught about Individual education program (IEP's) with several courses having a detailed look at reviewing assessments and writing goals. In SED 101, 205, 251, and 252 IEP meetings are part of the course content. SED 101 introduces the IEP meeting in general, while SED 205 has a deeper dive where they watch and reflect on communication strategies in IEP meetings. In SED 251, the practicum clinical experience, teacher candidates observe and reflect on a real IEP meeting. In SED 252, teacher candidates develop an IEP from a provided case study and then conduct a mock IEP meeting as part of course activities. During the students practicum they become regularly members of IEP teams. This involves working with practicing teachers to understand and implement assessments, evaluate the results, set goals and implementation of the goals as part of the student IEPs. Throughout this process they participate with administrators, special education teachers, content area teachers, students and families.

c. Effectively teach students who are limited English proficient.

Instructing students with Limited English Proficiency is addressed throughout coursework. SED education majors take TCH 208, 209 and 210. These courses look at reading and language development along with literacy foundations for students. Students learn strategies for working with limited English proficient students. Additionally, strategies for culturally and linguistically diverse students are integrated within SED method and content curriculum. When developing and implementing lesson plans, students are then required to plan for and teach with consideration of cultural and linguistic factors Through integrated TCH courses teacher candidates have the option of adding courses to complete an ESL (English as a Second Language) approval or endorsement. If a teacher candidate chooses to add the ESL endorsement, the Department works to find a clinical placement that will allow the teacher candidate to complete their SED clinical experience at a site that also fulfills their ESL hours needed for the endorsement. We are in the process of doing a culturally responsive practice curriculum audit for all three undergraduate sequences to align with the newly approved standards. During this process, we will look for additional opportunities to explicitly address instruction of students who are limited English proficient.

Contextual Information

THIS PAGE INCLUDES:

>> [Contextual Information](#)

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Founded in 1857 to prepare teachers, Illinois State University is the state's first public university. Illinois State is unique among public universities in that it provides statewide leadership in identifying the needs of Illinois schools and, through coordination with other colleges and universities, in developing and delivering programs tailored to meet them. Illinois State University's goal is to prepare teachers who have a strong sense of themselves and their content as they transition to being leaders in PK-22 schools. We currently house 27 undergraduate programs within 5 academic colleges. These majors come together and are governed by the ISU Council for Teacher Education (CTE), which sets teacher education requirements and program review expectations. The Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools (NCA-CIHE) since 1913 and the National Council for the Accreditation of Teacher Education (NCATE) since 1954 have accredited ISU. NCATE transitioned into the Council for the Accreditation of Education Preparation (CAEP) in 2015 and we have maintained accreditation with that body as we completed our initial licensure site visit in 2019 and received accreditation shortly after. All programs are fully approved by the Illinois State Board of Education (ISBE) and most are nationally recognized by specialized professional associations. 2019-2022 were difficult academic years for education at Illinois State University. Due to the impact of COVID, many of our pre-clinical students had to shift directions from in-person to virtual classrooms and now back to in-person clinicals. Our faculty worked to provide resources and accommodations during this challenge to ensure student successful transition into the classrooms. COVID impact also led to emergency rules being implemented by ISBE to adjust licensure requirements. An example was the edTPA was waived for all student teachers during the Governor Emergency Proclamation (Still in effect until spring 2024). 2020 to 2023 has also been a busy time for content licensure exams in Illinois. Currently the Governors Proclamation allows for students to begin student teaching without having a passing content test (this will end starting with spring 2024 student teachers). This has led to a slight decrease in overall completer passage rate as we have a number of students who graduated/completed our program, but chose to not take the content test for licensure or struggled to pass the required Pearson exams. Previously students would have been required by state code to pass the content test before starting student teaching. Additionally, the majority of ILTS Pearson content tests have been redesigned and many of the new exams have a significantly lower overall passing rate (ISBE is currently examining this issue for possible future adjustments to tests).

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.
